DEPARTMENT OF LAW.

Pittsburgh, January 8, 1919.

To the Honorable the Council of the City of Pittsburgh.

Gentlemen:

Knowing your extreme interest in the wharf case, which has just been decided by the Supreme Court, I have caused to be copied the opinion rendered by Mr. Justice Walling, and hand sufficient copies of the opinion to you herewith so that each and every member of Council will have one.

In regard to the question of rentals on this property, please be advised that there is quite a good deal of work to be

done in the matter before taking the problem up further with the Council for its consideration. We shall report to you on this particular problem just as soon as we possibly can.

Yours very truly,

STEPHEN STONE

City Solicitor.

No. 1978.
IN THE SUPREME COURT OF
PENNSYLVANIA
Western District.
CITY OF PITTSBURGH
vs.

PITTSBURGH AND LAKE ERIE
RAILROAD CO., et al.,
Appellants.

Nov. 134, 135, 140, 141, 142, 143, 144,
153, 158 and 173 October Term, 1918.

Appeal from Common Pleas Court of
Allegheny County.

Filed January 4, 1919.

WALLING, J.

This bill in equity was filed to secure the removal of encroachments upon an alleged public street. The case was heard upon bill, answer, replication and testimony. The main question was the existence of the street known as South Water street, between Seventeenth and Twenty-sixth streets, Pittsburgh, and that depended largely upon documentary evidence. Many years ago Oliver Ormsby owned the eastern part and John Ormsby the western part of a tract of some 350 acres of land situate on the south bank of the Monongahela river in what is now the city of Pittsburgh. By proceedings in the orphan's court the Oliver Ormsby land was partitioned in 1841, and that of John Ormsby in 1844, and a piece lying between the two, about which there had been some controversy as to the title, was also partitioned later in 1844, as land of the Oliver Ormsby estate. Numerous streets are referred to in the partition proceedings and shown on plots accompanying the same, including Water street represented as of the width of one hundred feet, more or less, and extending to the river. Subsequently much of the property was subdivided and passed by sundry conveyances wherein Water street is referred to and called for as a boundary, and some buildings were erected abutting upon the south line thereof.

At the time of the partitions, and for many years thereafter, there was an open coal mine located back from the river on this original tract, from which a railroad extended to the river, where the coal was transferred to boats by means of a coal tippie. This railroad was located in what is now Twenty-first street. There was then a block of lots

extending south from the river on the west side of Twenty-first street of the width (east and west) of 147½ feet, known as "the railroad lots," across which Water street was not extended in the first or second partitions above mentioned. The third partition did not include the railroad lots, but it was between parties who owned all the land embraced in the three partitions and they there stipulated that, "The streets and alleys laid out in the plan of the partition of that part of John Ormsby's estate which lies above and adjoining Birmingham, and in the plan of the partition of the two-hundred acre tract belonging to the Oliver Ormsby Estate, have been extended through the piece of land belonging to Oliver Ormsby's heirs, which is included in this partition, and lies between the two pieces above mentioned." The map accompanying that partition seems to show Water street extending across the railroad lots. In 1836, a small piece of this tract abutting on the river had been conveyed to Elias Phillips, a son-in-law of Oliver Ormsby, and that was excluded from the partitions. However, Phillips was a party to the third partition and joined in said stipulation, and in a later conveyance of the Phillips' land Water street is called for as its northern boundary. In 1865 a petition was presented to the borough council signed by the owners of that lot and by other property owners praying that the south line of Water street be removed fifty feet northward, which was not granted.

The borough of East Birmingham, which included this original 350-acre tract, was incorporated in 1849 by an act of the Legislature, section 15 of which is: "That the owners of the property known as the railroad lots in said borough at the terminus of the railroad, and their heirs and assigns, shall and may hold and occupy the same to low water mark in the Monongahela river, and in case any lots of ground situate on the river fronts of said borough are or may hereafter be occupied for manufacturing purposes, the owners or occupants of such lot or lots shall have the like right of holding and occupying the same to low water mark of said river: Provided, That in all such cases there shall be secured to the public a right of way along the river bank across such lot or lots." Thereafter Water street is referred to in numerous borough ordinances. One order earth deposited thereon and others fix the grade of that street. In 1849, at the request of council, R. E. McGowan, a civil engineer, made a complete map of the borough, whereon Water street is shown extending from Seventeenth street to Twenty-sixth street, of the width of 100 feet, more or less, to low water line. However, this map, which was not recorded but found among Mr.

Metcowan's papers, shows the lines of the railroad lots extending across that street to the river. In 1872, the borough became a part of the City of Pittsburgh and Water street is thereafter referred to in City ordinances. The City in 1878 granted a franchise to the Pittsburgh and Lake Erie Railroad Company to construct a line of railway upon and along said street, and later granted additional franchises to railroad companies to construct tracks therein, which was done, and the tracks so constructed have been in constant use upon the street here in question for over thirty years.

That side of the river has been a busy place practically ever since the land was partitioned as above mentioned. Wharves, shops, mills, factories, etc., have been and still are located there, many of which have long encroached upon and still occupy portions of Water street so called. About 1872 the municipality, pursuant to statutory authority, established wharfage charges, which in 1874 it attempted unsuccessfully to collect from certain parties occupying the wharves. The borough and later the City made some expenditures in the construction and care of those wharves, but Water street was never formally opened as such nor improved upon the ground as a street. However, it has been used more or less by pedestrians since 1847, and some parts of it also by vehicles, largely in transportation to and from the wharves and other establishments above mentioned. A washout near Eighteenth street has for many years prevented the use of that part of Water street, and further east (up the river) it has always been to some extent obstructed by fences and other obstacles; the part most used for teaming being between Nineteenth and Twenty-second streets. The railroads in Water street are constructed largely upon trestles and so far as they occupy space prevent traffic by other vehicles.

Since about 1880, deeds made of property along the line of Water street so called have included the lands embraced therein as a private property; and, such deeds having been placed of record in the office of the recorder of said county, the lands were assessed and taxes thereon, since about 1885, has been paid to the City.

This bill was brought against defendants, for separate encroachments upon the alleged street. The chancellor and court below found that Water street was a public highway and entered a final decree for the removal of the buildings and other encroachments thereon (except the railroad tracks placed there by municipal consent); from which defendants brought ten separate appeals which we will consider together. The case was exhaustively presented and we have given it careful

consideration, but find no substantial error.

An encroachment upon a public highway is a nuisance which equity has jurisdiction to abate; *Pittsburgh vs. Epling-Carpenter Co.*, 194 Pa. 318; and see *Piro vs. Shipley*, 211 Pa. 36. Where the question of an invasion of public rights depends upon matters of law, like the construction of documentary evidence, equity has undoubted jurisdiction. See *Richmond vs. Bennett*, 205 Pa., 470; *Wilson vs. Cather*, 214 Pa. 3. When the evidence is such that plaintiff would be entitled to binding instructions in an action at law, equity has jurisdiction; *Richmond vs. Bennett*, supra. Here practically the only controverted question of fact is as to the public use of the alleged street, and in our opinion the dispute as to that is not of controlling importance.

The bill was for the removal of obstructions from a single street, and supported by evidence as to each defendant largely but not in all respects the same, and all were embraced in one decree. So there is no just ground of complaint because each was not sued separately; and the demurrer raising that question was properly overruled. Where a public highway is obstructed by similar acts of neighboring property owners, it is not error to abate the same in one suit. If there are general features common to all and no party is prejudiced thereby, although there may be special features as to some defendants; for example as to the railroad lots in the present case. See *Cumberland Valley Railroad Company's Appeal*, 62 Pa. 218; *Lovejoy vs. Bailey*, 214 Mass. 134. In *Illinois Cent. R. Co. vs. Caffrey*, 128 Fed. Rep. 770, the rule is well stated that, "A bill will not be held demurrable for multifariousness because a large number of persons, having no connection with each other, are joined as defendants, where the cause of action against each is the same, and the joinder will save a multiplicity of suits and promote the convenience of the court and of all parties." See also *Louisville & N. R. Co. vs. Smith*, 128 Fed. Rep. 1; *Coram vs. Davis*, 209 Mass. 229, 249; *Lenz vs. Prescott*, 144 Mass. 505; *Warren vs. Parkhurst*, 186 N. Y. 45; *Riley vs. Pennsylvania Co.*, 32 Pa. Superior Ct. 579. To save a multiplicity of suits is one ground for equity assuming jurisdiction; and where the chancellor can give each defendant a full hearing there is less reason for separate suits than in jury trials. The question of multifariousness is one of convenience and rests largely in the discretion of the court.

The several partitions showing blocks and streets, including Water street, constituted a dedication of the latter to public use, especially when followed by the many conveyances

made with reference thereto. While Water street was not extended across the railroad lots by the first or second partition, we agree with the chancellor that it was by the third. The purpose of the stipulation seems to have been to extend the street across and beyond those lots; and, having been made by all the parties in interest, it should be given effect. In the general plotting of the tract, it is not probable that they would desire to make a permanent break in the broad street along the river front, and no such break appears in the plot accompanying the third partition. McGowan in preparing his plan may have overlooked the stipulation, or misconstrued its effect.

While the chancellor finds that there was an extensive public traffic upon some parts of Water street from 1847 to 1880, yet the City's claim does not rest upon prescription but upon dedication, which to be valid must have been accepted: *Phila. Museum vs. University of Pa.*, 251 Pa. 125, 132; *Commonwealth vs. Shoemaker*, 14 Pa. Superior Ct. 194. In our opinion the acts of the borough and City, including reference to Water street in numerous ordinances, establishing the grade thereof, dumping of earth thereon, building and repairing wharves within its lines and granting franchises to railroad companies to lay and operate tracks therein, constituted an acceptance of the dedication. And we are still of the opinion expressed in *McKee vs. Penna. R. R. Co.*, 255 Pa. 560, that the City's granting permission to the railway companies to construct and operate tracks in Water street constituted an acceptance of the dedication. See *Phila. vs. Thomas Heirs*, 152 Pa. 494. Of course public use alone will constitute an acceptance of a dedicated street, but we do not base the decision upon that ground because of the question as to the extent of such use.

The long existence of encroachments upon a public highway is no defense, as the statute of limitations does not run against the public: *Commonwealth vs. Moorehead*, 118 Pa. 345; *Kopf vs. Utter*, 101 Pa. 27, 31; *Sharon Boro. vs. Pennsylvania Co.*, 44 Pa. Superior Ct. 526. An obstruction in a public highway does not gain a legal residence by lapse of time nor by inaction of the authorities with reference thereto. In such case laches will not be imputed to the commonwealth or to the municipality. Laches, however, may be imputed to a municipality that has stood by and permitted large expenditures to be made upon the faith of an irregular order of court, or of municipal consent informally or tacitly given, where formal consent would have been effective, but this is not such a case.

The Act of May 9th, 1889, P. L. 173, "Relating to unused streets, lanes and alleys," does not apply here as it has no retroactive effect: *State Road*, 236

Pa. 141; *Osterheldt vs. Philadelphia*, 195 Pa. 355; *Hileman vs. Hollidaysburg Boro.*, 47 Pa. Superior Ct. 41; and the act applies only to unused streets: *Sturges' Appeal*, 240 Pa. 44; while Water street had been accepted by the municipality and was in use at least by the railroad companies, which was a public use, before the passage of the act. An acceptance and use of part of a dedicated street is effective as to the whole, while a street by prescription includes only so much as the public has used for the required time. Prior to that act there was no limit to the time for acceptance of a dedicated street.

As the proviso to the above quoted section of the Act of 1849 secures to the public a right of way along the river bank across such lots, in our opinion the City may now open the street to its dedicated width, for there is nothing in the proviso fixing a less width. The legislative intent may have been to give the abutting owners the right to use land embraced within the lines of the street for manufacturing purposes until such time as the municipality desired to open the same to its full width; if so, that would give effect both to the grant and the reservation without legalizing permanent obstructions in the street as dedicated. A statute should not be so construed as to destroy or impair the right it expressly conserves. The act does not purport to vacate the street or any part thereof.

The existence of Water street was not necessarily involved in the suits for wharfage brought in 1874; nor is the City here concluded by the adverse verdicts there rendered. The stipulation in those cases, that the defendants had been in continuous possession of their respective lots as manufacturing plants for thirty years, was consistent with their rights under the above quoted section of the act of 1849, but does not preclude the City from ultimately opening the street.

Assessment and payment of taxes do not prove title but are circumstances tending to support a claim of possession; *James vs. Bream*, 00 Pa. 00, filed herewith. And the rights of the public in an unimproved street are not lost because taxes are assessed upon land embraced therein and paid to the municipality by abutting owners. Such circumstances might be considered with other evidence in support of a claim of abandonment; but an encroachment upon a highway cannot be legalized by payment of taxes upon the land so encroached upon.

Appellants should be given ample time and opportunity to remove the obstructions complained of.

The assignments of error in the several appeals are all overruled and the appeals are dismissed at the costs of the respective appellants.

PUBLIC UTILITIES LITIGATION.

Pittsburgh, Pa.

January 11, 1919.

Hon. John S. Herron, Pres.,

Council, City of Pittsburgh,

City-County Building,

Pittsburgh, Pa.

Dear Sir—I beg to report that the Public Service Commission, on the 6th of January, 1919, approved the contract between the South Pittsburgh Water Company and the City of Pittsburgh, and on that date issued its certificate of public convenience.

I am also informed by the South Pittsburgh Water Company, that they have made preparation for the carrying out of this contract and that it will apply to the quarterly payments beginning on the first of January.

In accordance with the previous resolution of Council, I have already notified the Pennsylvania Water Company of the terms of this contract and of the fact that this contract has been approved by the Commission; and have asked them to report promptly whether such a contract could be made between their company and the City of Pittsburgh, covering their consumers within the present limits of the City of Pittsburgh.

Very truly yours,

CHARLES K. ROBINSON.

Which was read.

Mr. English moved

That the communication be received and filed.

Which motion prevailed.

MAYOR'S OFFICE.

Pittsburgh, Pa.,

January 8, 1919.

Mr. John S. Herron, President,

And Members of Council

of the City of Pittsburgh.

Dear Sirs—I herewith return, without my approval, Bill No. 1409, A Resolution exonerating the First Christian Church of Banksville from payment of assessments for sewer improvements.

Accompanying this resolution is a statement from the City Solicitor that there is no legal reason why they should be exonerated from their assessments. Another letter in the file by the City Clerk states that the assessments are a lawful and legal claim against the church.

Exonerating an assessment of this kind opens a door so wide to many other

cases and establishes such a very bad precedent that even though the circumstances might be extenuating I cannot give my approval.

Very respectfully yours,

E. V. BABCOCK

Mayor.

Which was read.

And

Bill No. 1409. Resolution exonerating the First Christian Church of Banksville, Pa., from assessment at No. 2425 January Term, 1918; of \$285.00, for sewerage on Broadway avenue, and from assessment at No. 1457 April Term, 191 of \$53.00 for sewerage on Olcott way.

In Council, January 6, 1919. Rule suspended. read three times and finally passed.

Which was read.

Mr. Robertson moved

That the communication and resolution be laid over for one week and that a copy of the communication be furnished each member of Council.

Which motion prevailed.

DEPARTMENT OF LAW.

Pittsburgh, January 16, 1919.

To the Honorable, the Council
of the City of Pittsburgh.

Gentlemen—On Bill 1885, being a resolution authorizing the City Solicitor to make an investigation of all corporation property and report to Council as to whether or not such property is taxed, and requesting him to prepare a bill for the Legislature, subjecting such property to taxation, I beg to report:

That an investigation discloses that a large amount of property, belonging to the public service corporations in Pittsburgh, is exempt from taxation, a statement of such property having heretofore been submitted to Council by the Board of Assessors.

The enclosed Act, which is ready for presentation to the Legislature, I believe covers the subject of taxation of the property of public service companies in the City fully. Should your honorable body find that said Act covers the matter satisfactorily, kindly advise and I shall have the same presented to the Legislature at an early date.

Should any changes in said Act be desirable, kindly advise, and they will be made.

Yours very truly,

STEPHEN STONE,
City Solicitor.

AN ACT.

Creating additional subjects of taxation in cities of the second class, by subjecting all real estate situate in cities of the second class and owned or possessed by any public service or quasi public corporation to taxation for city and school purposes, the same as other real estate in said cities, and defining the term "real estate" as used herein.

Section 1. Be it enacted by the Senate and the House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same, that all real estate situate in cities of the second class and owned or possessed by any public service or quasi public corporation shall be subject to taxation

for city and school purposes, the same as other real estate in said cities.

Section 2. MAYOR'S OFFICE.

Pittsburgh, January 20, 1919.

Mr. John S. Herron,
President of Council,
Pittsburgh, Pa.

Dear Sir—I would be pleased to have a conference with the members of Council in the Mayor's office Wednesday morning, January 22, at 11 o'clock, to confer on matters pertaining to the annual budget, especially the subject of policemen's and firemen's wages.

Anticipating that Council may be willing to correct what seems to me to be a mistake in the budget, I suggest that a special meeting of Council be called for Wednesday afternoon, the 22nd inst., at 3:30 o'clock.

Very respectfully yours

E. V. BARCOCK,
Mayor.

Which was read.

Mr. **Robertson** moved

That the communication be received and filed, and that the conference be held as requested.

Mr. **English** moved

That the hour of the conference be fixed for 1:30 o'clock P. M., Wednesday, January 22, 1919, instead of 11 o'clock A. M.

Mr. **McArdle** arose and said:

"Mr. President, I don't want to oppose the motion to have the conference, but I do want to say this. I can see no reason why the Mayor did not sign the salary bill promptly after familiarizing himself with its provisions. Council, in good faith, increased the wages and salaries of hundreds of the lesser paid employees of the City and made the necessary appropriation to meet the increases. Every day the Mayor delays signing the bill every laborer in the City's service loses thirty-five cents and the lesser paid employees approximately the same. It isn't fair to these employees to penalize them because there is divergent views on some other matter.

"Any changes that Council desires to make affecting the pay of the men in the police bureau could be done as quickly and effectively in a separate amending ordinance, and that is the course that I think justice dictates as the one to follow."

Mr. **Winters** arose and said:

"Mr. President, I want to concur in the statements made by Mr. McArdle, and to say, further, that the budget as constituted went to the Mayor with the

approval of nine members of this Council and if any member of this Council has been instrumental (and I don't know that such has been the case or not) in calling any question to the Mayor's mind that has caused this controversy, he has not been consistent with his action in voting on the budget before it went to the Mayor. I believe this was the first time that the full membership of Council voted in the affirmative on the salary and appropriation ordinances. The bills passed unanimously, and any member who has since changed his mind does so on account of inconsistency or on account of lack of understanding when he voted at the former time.

"Like Mr. McArdle, I don't believe it is fair to hold up the increased pay of other City employees not involved in the controversy."

Mr. Burke arose and said:

"Mr. President, I concur in both the statements. I think it is a crime to hold up the small increases, particularly the 35 cents a day to City laborers and the other small increases that there is no controversy on. I am told that the increase for these laborers amounts to thousands of dollars a day. This should be going into their pockets to permit them to buy a little meat, flour and the necessities of life for their families. I say it is a crime to hold up the budget because some person has conceived the idea that there is something wrong between the pay of the firemen and policemen. I wish somebody would explain the difference to me. Mayor Babcock says that the policeman is short \$2.50 in his envelope each month. The Controller's department says that is not so, and they don't say that there is a difference between the salary of the firemen and the policemen. I believe this budget as presented to the Mayor should be put into law."

Mr. Garland arose and said:

"Mr. President, I would like to ask what is the consensus of opinion of the members of Council as to what the purpose would be if the Mayor wants an amendment to the ordinance, which would re-open the budget? Personally, my mind is made up on the budget and, as far as I am concerned, the budget is closed. It has gone to the Mayor for his approval or disapproval. Why does he not take action on it? Let him do that, and if he disapproves of any part we can then act on his veto."

"I don't see the necessity of the conference on Wednesday. If the Mayor vetoes any item or items in the appropriation or salary ordinance we will receive his message in the ordinary way on next Monday."

"A motion should be adopted that it is the opinion of the members of Council

that they are not in favor of re-opening the budget."

And the question recurring on the motion, "That the communication of the Mayor be received and filed, and the time of the conference be fixed for 1:30 o'clock P. M. Wednesday, January 22, 1919, instead of 11 o'clock A. M."

Which motion prevailed.

Mr. English moved

That it is the sense of the members of Council that the budget be not opened under any circumstances.

Mr. Garland moved

To amend the motion. That it is the opinion of the members of Council that they are not in favor of re-opening the budget, and that any matters which are brought up in the conference that the Council and Mayor agree on will be made the subject of ordinances which can be presented to Council later.

Upon which motion Mr. English demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Burke	McArdle
Dailey	Rauh (Pres. pro tem)

MOTIONS AND RESOLUTIONS.

Mr. Burke presented

No. 2044. Resolved, By the City Council of Pittsburgh, in session assembled this 20th day of January, A. D. 1919, that a committee be appointed by Council to work in co-operation with the Mayor and City authorities for the proper welcome and care of our returning soldier boys; be it further

Resolved, That, as the time for the return of Pittsburgh's soldier boys is drawing near, said committee immediately take action and confer with the

Mayor and City authorities so that plans of welcome may at once be put under way, and our returning soldiers be assured of a proper reception.

Which was read.

Mr. Burke moved

The adoption of the resolution, and said:

"All cities and all states in the Union have looked forward with pride and joy to the return of the soldier boys. When the armistice was declared joy ran riot throughout the United States; every state, every city, every village and hamlet, experienced the same wild sense of delight—the same glorious pride in the Allied victory. The people knew that a new era had dawned in the downfall of autocracy and the victorious rise of democracy. In America we knew and we felt that the American boys played a gallant, a significant and an important part in the defeat of Prussianism. In fact, we believe the American forces were a prime factor in bringing about a peace with victory.

"These boys who gave up their all, who separated themselves from all they held dear, who left their native land to fight for the principles and ideals of that native land, who fearlessly fought and never flinched on the field of battle, in the face of fire and falling bullets, have finished their work—they have made the world safe for democracy. Those who have not yielded their lives on the altar of their country in the sacred cause of humanity are returning to us. Pittsburgh counts her sons among the very bravest; they have rendered a good account of themselves; they have by their acts of daring and bravery introduced the name of Pittsburgh into the world hall of fame; they have added greater lustre and glory to the sacred historical traditions of this grand old Keystone State.

"Other cities and states throughout our country have made suitable arrangements for the proper welcoming of their returning soldiers. Pittsburgh should now have under way plans to welcome its returning soldier lads. This should not be left until the last moment, for hasty preparations, late preparations are generally faulty. The Pittsburgh soldier lads will measure our appreciation of what they have done for us by our demonstration of welcome on their return. There should be no hurried plans for welcoming them, caring for them, entertaining them, but deliberate, well-laid plans to insure their comfort, to make them realize that we honor them—that we are glad they have been returned to us, and that, as long as Pittsburgh remains a city, the people of each generation will remember with pride, with love and veneration, that the Pittsburgh boys 'played well their part' and

were numbered among the bravest of the brave in the great world war that was fought for the sacred cause of humanity that the world might be made safe for democracy."

Mr. Garland arose and said:

"Mr. President, I don't think any Councilman will disagree on anything that has been said. We have appropriated \$25,000.00 for this purpose, and, in the meantime, the Soldiers' and Sailors' Club, as well as the Red Cross, is taking care of the soldiers and sailors. The money appropriated by Council was placed in the hands of the Mayor, subject to approval of the expenditures by the Committee on Finance. I don't think the author of the resolution will object to letting this matter rest with the Mayor until we get through with the budget. However if the author of the resolution will amend same to read, That the Council co-operate with the Mayor in getting busy at once on the appointment of the committee to take care of the returning soldiers, and that a copy of Mr. Burke's remarks be sent to the Mayor, I will vote for it."

Mr. Garland moved.

That a copy of Mr. Burke's remarks be sent to the Mayor and that the resolution be amended by substituting the following: "Resolved, That the Council co-operate with the Mayor in getting busy, at once, on the appointment of the committee to take care of the returning soldiers."

Mr. Burke accepted the amendment, and moved

That the resolution, as amended, be adopted.

Which motion prevailed.

Mr. McArdle presented

No. 2045. Whereas, Council contemplates submitting to the voters of the City for their approval or disapproved various proposals to increase the bonded indebtedness of the City for the purpose of executing some desirable public improvements; and

Whereas, The citizens of various parts of the City are interested in and have been promoting one or more projects which they regard as vital to the interests of the City in general and to their communities in particular; and

Whereas, It is to the advantage of Council and the interests of the City to have Council fully advised as to the desires and views of all the citizens with respect to projects in which they are interested, so that Council may act with the fullest possible knowledge of the merits of all proposed improvements when making up a bond budget; therefore, be it

Resolved, That the Finance Committee

hold public hearings on all phases of the questions involved in a people's bond election, to which all parties interested are invited to present their views and express their desires, and that such hearings continue from time to time on such dates and at such hours as the chairman may fix until all requests for hearings have been complied with, including night sessions, if necessary; be it further

Resolved, That a copy of this resolution be mailed to the secretary of each civic or trade body known to the Clerk and that the press be requested to give it due publicity.

Which was read.

Mr. McArdle moved

The adoption of the resolution.

Which motion prevailed.

Mr. English presented

No. 2046. Resolved, That the Council of the City of Pittsburgh and His Honor, the Mayor, recommend to the trustees of the Carnegie Library that a complete branch library be established at the United States Government Hospital No. 24 for wounded soldiers, known as Park View; and be it further

Resolved, That the trustees are hereby requested to communicate with the United States authorities in charge of said hospital and offer the services of trained and experienced librarians and all necessary equipment, supplies and materials to operate a complete library; and be it further

Resolved, That the intent and purpose of this resolution is to promptly place at the bedside of our wounded heroes all the library facilities of a grateful city.

Which was read.

Mr. English moved

The adoption of the resolution.

Which motion prevailed.

UNFINISHED BUSINESS.

Bill No. 2017. Communication from the Mayor, returning, without his

approval, Bill No. 1409, Resolution exonerating the First Christian Church of Banksville from payment of sewer assessments.

In Council, January 13, 1919. Read, laid over for one week and copy furnished each member.

Which was read, received and filed.

And

Bill No. 1409. Resolution exonerating the First Christian Church of Banksville, Pa., from payment of assessment at No. 2425 January Term, 1918, of \$285.00, for sewerage Broadway avenue, Eighteenth ward, and for sewerage Olcott way, at No. 1457 April Term, 1918, for \$53.00.

In Council, January 13, 1919. Returned by the Mayor without his approval, read and laid over for one week.

Which was read.

And on the question, "Shall the resolution become a law notwithstanding the objections of the Mayor?"

The ayes and noes were taken, agreeably to law, and were:

Ayes—Messrs.

Burke	McArdle
Dailey	Robertson
English	Winters

Noes—Messrs.

Garland	Rauh (Pres. pro tem)
---------	----------------------

Ayes—6.

Noes—2.

And there being two-thirds of the votes of Council in the affirmative, the resolution became a law notwithstanding the objections of the Mayor.

Mr. Robertson moved

That the committee meetings be held on Wednesday, January 22, 1919, at 2 o'clock P. M., instead of on Tuesday, January 21, 1919.

Which motion prevailed.

And, on motion of Mr. Robertson,
Council adjourned.

No. 2094.

Pittsburgh, Pa., January 21, 1919.

To Hon. Mayor and Council,
City-County Building,
Pittsburgh, Pa.

At a regular meeting of the Brookline Board of Trade on January 13, 1919, the following resolution was ordered spread on the minutes and copies sent to the Mayor and Council:

Whereas, The Mayor and Council of the City of Pittsburgh have consummated a contract between the City of Pittsburgh and the South Pittsburgh Water Company, whereby the City will pay the difference between City water rates and the rates of the South Pittsburgh Water Company to residents of the City of Pittsburgh; and

Whereas, All residents of the City of Pittsburgh using water furnished by the South Pittsburgh Water Company will be benefited by a reduction in water rates; and

Whereas, Brookline is one of the communities so benefited; therefore, be it

Resolved, That the Brookline Board of Trade hereby extends a vote of thanks

to the Mayor and Council for bringing about an equalization of water rates.

Unanimously adopted January 13, 1919.

BROOKLINE BOARD OF TRADE,

J. F. MOORE,

President.

W. F. ANDRE,

Secretary.

Which was read.

Mr. **English** moved

MOTIONS AND RESOLUTIONS.

Mr. **Burke** presented

No. 2096. Resolved, That it be the sense of this Council that the policemen of the City of Pittsburgh be relieved from contributing the sum of \$2.50 monthly into their pension fund.

Which was read.

Mr. **Burke** moved

The adoption of the resolution, and said:

"Mr. President, I believe this resolution should pass. To compel the firemen to pay a like sum of \$2.50 per month into their pension fund would not relieve the policemen from their assessment and would not be of any material advantage to them.

"Furthermore, I do not believe the police of this City want to become part of any scheme to take from their fellow-workers an advantage or benefit.

"I have always been for the betterment of working conditions and an upward standardization of wages. I have never been a party to taking away from any man or set of men a working benefit they obtained; and, inasmuch as to take the \$30,000.00 contributed by the City to the Firemen's Pension Fund will not benefit the police—will work a hardship on the firemen—I believe the equitable and just way is to relieve the policemen from paying the \$2.50 per month."

Mr. **English** moved

That the resolution be referred to the Finance Committee.

Mr. **Garland** moved

To lay the motions on the table.

Upon which motion Mr. **Burke** demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were taken and, being taken, were:

And a majority of the votes of Council being in the negative, the resolution was rejected.

Mr. **Garland** presented

No. 2097. Whereas, It has come to the knowledge of Council from various sources that rents, particularly of small dwellings, are being raised, the statements being made that said increases are caused by a raise in City taxes; and

Whereas, On a great many properties there will be a reduction in 1919 as com-

pared with 1918, and in no case will there be any appreciable increase; therefore, be it

Resolved, That a comparative statement be prepared by the Mayor and Council, showing taxes for 1918 and 1919, and that same be printed in the daily newspapers for the information of taxpayers and those who pay rent; and be it further

Resolved, That the expense of said advertising be charged against Appropriation No. 1013.

Which was read.

Mr. **Garland** moved.

The adoption of the resolution.

Which motion prevailed.

Mr. **Rauh** presented

No. 2098. Whereas, The time for paying taxes and receiving the discount expires on January 31, 1919; and

Whereas, Owing to the delay in fixing the millage and making up of the tax statements, the time for collecting the taxes has been delayed until February 15, 1919; therefore, be it

Resolved, That the City Treasurer is hereby authorized and directed to extend the time for paying taxes and receiving the benefit of the 2 per cent. discount up to and including Saturday, March 15, 1919.

Mr. **Rauh** moved

The adoption of the resolution.

Which motion prevailed.

Mr. **McArdle** presented

Which motion prevailed.

Also

No. 2102. Whereas, The epidemic of influenza is still prevalent, and there still remains to the credit of the appropriation made during the year 1918 the sum of \$22,698.58; therefore, be it

Resolved, That the City Controller shall be and he is hereby instructed to carry over to the credit of the same appropriation the balance remaining to the credit of Appropriation No. 1198½ made for the year 1918.

Which was read.

Mr. McArdle moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended the resolution was read a second and third times, and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Burke	McArdle
English	Rauh
Garland	Robertson
Herron (President)	Winters

Ayes—8.

Noes—None.

And a majority of the votes of Council being in the affirmative, the resolution passed finally.

Mr. Garland moved

That the minutes of January 20, 1919, and January 22, 1919, be approved.

Which motion prevailed.

And, on motion of Mr. McArdle,

Council adjourned.

THE CARNEGIE INSTITUTE.

Pittsburgh, Pa., January 27, 1919.

Mr. E. J. Martin, City Clerk,
City-County Building,
Pittsburgh, Pa.

My Dear Mr. Martin—I am in receipt of your letter of January 24, enclosing copy of Resolution No. 54, adopted by the City Council on January 20, and approved by the Mayor on January 23, 1919, requesting the trustees of the Carnegie Library to establish a branch library at the United States Government Hospital No. 24, at Park View.

I have at once taken this question up with Mr. John H. Leete, director of the Carnegie Library, and have requested him to take such steps immediately as may be necessary to comply with the wishes of the City authorities in the same spirit of deep sympathy with the purpose which is so eloquently stated in the resolution itself.

Will you be kind enough to inform the

Council of our complete co-operation in this matter?

Sincerely yours,
S. H. CHURCH,
President.

MAYOR'S OFFICE.

Pittsburgh, January 24, 1919.

Mr. John S. Herron, President, and
Members of Council,
Pittsburgh, Pa.

Gentlemen—I herewith return, without my approval, Bill No. 1808, resolution providing that the President of Council assign one man to keep a record of bills introduced in the State Legislature affecting Pittsburgh and that the President of Council procure the services of a competent person to attend the sessions of the Legislature.

This bill, apparently, is designed to employ and keep a lobbyist at Harrisburg. It is not clear whether it is to provide for one or two persons. It appropriates no specified amount. It fixes no salary or definite compensation. It is common street rumor that it is for the personal benefit of the Councilmen of Pittsburgh. Council should not appropriate or spend the taxpayers' money in any sum whatever for their personal benefit.

The resolution implies, in the following language, "Some of this legislation is likely to be detrimental to the interests of the taxpayers of Pittsburgh," that our members of the Legislature and our members of the Senate are there for the purpose of legislating against the

City's interests, instead of legislating for its best interests. I am not willing to be a party to any such inference. Further, I do not approve of spending the City's money for the purposes outlined in this resolution.

Very respectfully yours,
E. V. BABCOCK,

Mayor.

Which was read.

Mr. Rauh moved

That the communication be laid on the table for one week.

Which motion prevailed.

And

Bill No. 1808. Resolution authorizing and directing the President of Council to procure the services of a competent person to be in attendance at the sessions of the Legislature for the purpose of keeping a record of every bill introduced in the Legislature affecting the City of Pittsburgh.

In Council, January 20, 1919. Rule suspended, read three times and finally passed.

Which was read.

Mr. Rauh moved

That Bill No. 1808 be laid on the table for one week.

Which motion prevailed.

At this time Hon. E. V. Babcock, Mayor, appeared before Council and presented the following:

No. 2132.

OFFICE OF THE MAYOR.

February 1, 1919.

Mr. John S. Herron, President, and
Members of Council of the
City of Pittsburgh.

Dear Sirs—I herewith recommend to you a list of improvements to be made in the City of Pittsburgh to be financed by a people's bond issue. This is in harmony with my pre-election promises to the people of Pittsburgh, and, with one or two exceptions, covers subjects that have been before the officials of Pittsburgh as well as the public for some time past.

Conspicuous among the items is a great, new thoroughfare, that will accommodate the people of the eastern part of the City, North Side, West End and South Side, creating a new highway (the Monongahela boulevard) from Craft avenue to Second avenue and Grant street, thence widening and improving Second avenue through to Liberty avenue, with a proper outlet along Ferry street. This new thoroughfare will be a conspicuous improvement, making the route shorter

in time and distance from Oakland and Squirrel Hill to the downtown district, to the North Side, West End, South Side, and vice versa. It will have the effect of greatly enhancing the value and improving the property two blocks each side of Second avenue, making it vastly more accessible and useful, and should have the effect of relieving congestion in the downtown district in general.

Page one of the recommendations represents the best judgment of the City Planning Commission, who have had weekly meetings since the signing of the armistice and have given the subject great study.

The item of Bigelow boulevard improvements, which, I understand, Council is already on record as favoring, has the effect of largely eliminating two bad and dangerous curves and erecting a badly-needed sidewalk on one side and a retaining wall to prevent continual slides on the other.

The general street repaving item is probably all that can be spent during the present administration in addition to the annual appropriations that Council are wisely making. This I consider to be one of the most important items on the list. Nothing can enhance the conditions of our City so much as good streets, and when once in good condition it should be the City's policy to keep them so.

Many of the items are self-explanatory.

I desire to particularly call your attention to the purchase of the Exposition buildings, which, in my judgment, should be accomplished. These valuable buildings, costing nearly a million dollars, are practically dormant as far as rendering service to the City. They can be easily put to the following uses:

Machinery Hall could be turned into a terminal freight station and leased to the Pittsburgh Railways Company for the handling of freight and express, which will be greatly advantageous to the people of Pittsburgh and help relieve congestion to our streets.

We can transfer to the main buildings the great repair shops of the Division of Motor Vehicles, of the Police Department and of the Fire Department, and make it the headquarters for the carpenter shop, plumbing shop and paint shop, all City activities now scattered about the City, for which large amounts of rent are paid.

The Music Hall can be used for large meetings of any kind for the masses, being easily accessible from the North Side, South Side and the downtown district. The City already owns the grounds on which these buildings are situated and is receiving no income and very little benefit. This will be a practical and economic proposition.

The Eighteenth Regiment Armory will give Pittsburg an opportunity to join the

State and County in helping to erect a coliseum that will be a good thing for the City, allowing us, at the same time, to erect a lasting testimonial to the boys who went to the front to serve their country.

The issuing of \$14,000,000.00 worth of bonds will reflect itself in the tax rate to the extent of about 1.4 mills, which will be reduced each year.

I have had great difficulty in reducing the amount to the within figure. We are now in the midst of a surplus of labor. Many men in our City are seeking employment, which they cannot find. I strongly recommend that you give this your early and immediate consideration, with a view of taking the issue before the people for their consideration, hoping that we can get final action which will enable us to make the dirt fly at the earliest possible date. I understand that it is your purpose to have the public hearings on the subject. If so, you should arrange to limit them to a reasonable time, so as not to let it drag along too far.

Very respectfully yours,

(Signed) E. V. BABCOCK,

Mayor.

And **Mayor Babcock** said:

"Mr. President, now, in addition to this, the reason I come before you personally is to advise you that I had an interview this afternoon with the receivers of the Pittsburgh Railways Company regarding the leasing of portion of the Exposition building to them for a terminal freight station. They have been studying this matter for some months; in fact, ever since the new receivers have been appointed, and this is the second interview I have had with them in my office.

"They make an offer, which they will confirm in writing, of \$9,000.00 a year for the first year; \$10,000.00 for the second year; \$11,000.00 for the third year, and \$12,000.00 thereafter a year for the rental of Machinery Hall, based on a ten-year lease. It will cost them about \$25,000.00 to put in the siding, the permit for which you will have to grant; that is, you will have to give them a franchise to put in the necessary siding. They say, also, that they will have to cut the street on Penn avenue going under the Pennsylvania Railroad bridge. This will not in any way affect the street.

"By leasing this property to them it will give the City a fixed income from that end of the proposition, Machinery Hall. They have examined all sites, and they claim that Machinery Hall is the least expensive of all sites inspected and

that it will cost less to remodel to fit their needs than the other places looked at.

"They express the desire to take their cars off the streets and transfer their freight business to this building. I had the interview today with Mr. Tone and Mr. Fagan; Mr. George and Mr. Fagan being present the other day.

"I am submitting this matter to Council so that it will study it in connection with the other items included in the proposed people's bond issue. You know the amount of rental we pay for buildings in which our machine shops are now housed. The main building will be used as a repair station, and this will save the City about \$10,000.00 or more every year, which it now pays for repair shops scattered all over the City. I hope you will consider all these things in connection with your study of the rest of the items for this bond issue.

"The Pittsburgh Railways Company would like to have possession of this property as quickly as possible. The leases on their other property expire May 1, and if they can get possession of this building it will help them very much.

"The officials of the City are at your service in studying these propositions, and any time you want them they will be glad to respond."

Mr. Garland arose and said:

"Mr. Mayor, there is a discrepancy in the amount of millage that will reflect itself in the tax rate. It should be 1.8 mills instead of 1.4 mills, as stated in your communication."

Mayor Babcock:

"Those are the figures that were furnished me by the City Controller's department. The length of the bonds are thirty years, with the exception of the bonds for the repaving of streets, which, I think, should be for fifteen years. However, the length of these bonds is a question we do not have to go into now."

Mr. McArdle arose and said:

"I would like to ask the Mayor if he has prepared for submission to Council a statement covering the present status of the Exposition Society. We discussed it briefly with him in conference. There are some conditions which must be met in their affairs which I am convinced the public will want to know before they vote on this item."

Mayor Babcock:

"I have in my office an elaborate file relating to this subject, but for your information I wish to state that I never approached the members of the Exposition Society on the trade until I found out what we could do with this one build-

ing, Machinery Hall, as a warehouse and terminal freight station. I just got that information at 2 o'clock this afternoon. In a general way, I understand that the Pittsburgh Exposition Society, through their board of trustees, will turn this over to the City on payment of the debts, which are \$340,000.00, with some accrued interest. I put in the list \$360,000.00 for this. My understanding in a general way is that they will turn it over to the City. I don't know what kind of a statement you want. I will look this matter up and submit a statement to you."

Mr. McArdle:

"It should properly come from them, as the proposition is theirs, setting out what their financial status is, and if they will transfer the property to the City, and if they would be willing to do it before the expiration of their lease. The thought I have in mind is that the Council should be able to say that it is good for the people and that it will not be taking a white elephant off somebody's hands. We should have such information as to intelligently answer all questions asked in regard to this proposition."

Mayor Babcock:

"Well, I assume that we can buy it at the price we name. Whether it is good for the City or not is self-evident to me. You can draw your own conclusions. We will get \$12,000.00 rent each year after three years, and we will save \$8,000.00 that we are now compelled to pay as rental for property used as repair shops. It looks to me like a good business proposition. The service that the Railways Company will render to the public is also self-evident. It is practically doing nothing now."

Mr. Garland:

"Mr. Mayor and Mr. President, it seems to me that, besides getting something from the Exposition Society, we should have something from the Railways Company in regard to hauling freight and light stuff. It will relieve congestion on the streets. In Cleveland the freight business is all done at night. They go out 100 miles with quick transportation service with low rates. We could deliver supplies and materials at 50 cents where it now costs \$3.00 and \$4.00. The delivery should be done at night. They should furnish cars to give proper service to distributors in the outlying districts."

Mayor Babcock:

"They show a willingness and a disposition to do so. Mr. George was very favorably impressed with the opportunity that the street car company would have a new avenue of revenue and that it would increase their business along this line, which is not now very large.

I raised the point you call attention to, Mr. Garland. The business is small now and I was surprised at the smallness of it. They feel that that business, when they have an opportunity to handle it right, will grow on their hands, and on that basis they made their offer of rental."

Mr. Garland:

"You are asking only for a sufficient amount to pay the Exposition Society for the buildings. The changes, alterations and repairs to be done in that portion to be occupied by the Railways Company will be paid for by the Railways Company."

Mayor Babcock:

"They will make the changes. When we talked about the kind of a lease, they stated that they would not want to spend \$25,000.00 for repairs on a short lease. They expressed the opinion that ten or twenty years should be the length of the lease. Their duties as receivers are along certain lines and the prospects of this is pleasing to all three receivers. I believe the business of the company along this line will grow and will be a success."

Mr. McArdle moved

That the Mayor's communication be referred to the Committee on Finance.

Which motion prevailed.

Mr. Garland presented

No. 2133. An Ordinance authorizing and directing the issuance and sale of bonds of the City of Pittsburgh, in the aggregate principal amount of \$1,134,000.00, for the purpose of funding existing unfunded indebtedness of the City, consisting of contractors' claims, claims for damages arising from the opening, widening and improving of streets and the construction of sewers, and other floating indebtedness, and providing for the redemption of said bonds and the payment of interest thereon.

Which was read and referred to the Committee on Finance.

Colonel Albert S. McLemore, of the United States Marines, being introduced by the President of Council, said:

"Mr. President and Gentlemen of Council, I esteem it a great honor to say a word to you. I am stationed in Washington on the staff of General Barnett. I am making a tour of the recruiting stations throughout the country and establishing them on a firm basis and putting them back to the old method of recruiting young men for the Marine service.

"The Marines made a wonderful record during the war. During the time the Marines were in action against the Ger-

mans the corps' losses amounted to over 100 per cent. Replacements were made, however, to keep the brigade in full strength of 8,000 men. In one battle 5,000 were lost, while in another 2,200 casualties were suffered. Other engagements put the Marine losses over the 8,000 mark, making more than two brigades lost in France, one of which was totally wiped out. Five years ago the officers of the Marines numbered 350. In France the officers' casualties amounted to 350.

"Pittsburgh, as you know, put on a Marine Corps week, and a large number of the most desirable young men were recruited into the Marine service. The Marine branch has always maintained its high standard of efficiency. It accepts men who are physically fit and of good education, and the service has reflected itself by what the men have done in France. They had their opportunity and made good. Pittsburgh, in proportion to its size, has produced more recruits for the Marine Corps than any other city and, as a member of the general's staff, I want to thank you, not only for myself, but General Barnett."

Bill No. 1965. Whereas, Francis T. Porter, who has been an employee of the City of Pittsburgh for twelve (12) years, is now incapacitated, due to an injury he received when in the employ of the City; and

Whereas, The said Francis T. Porter is under care of Dr. C. C. Wholey, who certifies that he is responding to treatment and, with proper freedom from work, he will recover; and

Whereas, The Director of the Department of Public Health allowed the said

Francis T. Porter three months' sick leave during September, October and November, carrying him on the roll for those three months, but not having the authority from the Controller to do so any longer; and

Whereas, The Controller has agreed that he will pass the roll for the said Francis T. Porter for a further period of three months, if approved by Council, which Council has the authority to do; and

Whereas, The said Francis T. Porter is the only support of a large family and is worrying over his financial condition, which is particularly injurious to one suffering from nervous trouble, and which is likely to retard and prevent his ultimate recovery; therefore, be it

Resolved, That the Director of the Department of Health be authorized to pay said Francis T. Porter his salary as a sanitary inspector for the months of December, 1918, and January and February, 1919, as the same becomes due, and charge the same to "Salaries, Regular," Division of Housing and Sanitary Inspection, Bureau of Sanitation, and that the Controller be authorized to pass said payroll.

In Finance Committee, January 30, 1919, Read and amended by inserting before the "Resolved" clause the following: "And, Whereas, Said Francis T. Porter has died during the time this resolution has been pending in Council, and Council is desirous of paying the widow the sum which was to be allowed her husband;" by inserting after the words "to pay the" the words "widow of," and by striking out the words "his salary as a sanitary inspector for the months of December, 1918, and January and February, 1919, as the same becomes due," and by inserting, in lieu thereof, the following: "a sum equal to the amount his wages would be until the time of his death," and, as amended, ordered returned to Council with an affirmative recommendation.

Bill No. 2057. An Ordinance entitled, "An Ordinance amending parts of Sections twenty-four, twenty-five and twenty-eight of an ordinance entitled, 'An Ordinance fixing the number of officers and employees of all departments of the City of Pittsburgh, and the rate of compensation thereof,' approved 22nd day of January, A. D. 1919, by providing that the additional salary of thirty dollars (\$30.00) per annum referred to therein for certain officers and employees shall be payable only upon an equal sum being likewise paid into the Firemen's Disability Board Funds by such officers and employees from their compensation payable to them by the City of Pittsburgh, and defining the procedure relating thereto."

Which was read.

Mr. Garland moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. English arose and said:

"Mr. President, I am heartily in favor of the main provisions of Bill No. 2057, File No. 1106. I refer, particularly, to that provision which requires the firemen who wish to become beneficiaries of the City's appropriation of \$30.00 per man to pay a like sum of \$30.00 each. I repeat that so that there will be no misunderstanding; that the feature of the bill I favor is that any one who expects to be a beneficiary of the pension fund for which the taxpayers provide the money

should be willing to contribute something himself to the maintenance of that fund.

"I am not in favor of the second portion of the bill, contained in lines 33 to 38, inclusive, on page 2, and which is repeated later in the bill, which attempts to force from the employees power of attorney by giving the City Controller the right to deduct this \$30.00 from the salary of the firemen. I protest against the passage of this particular feature, which takes away from a man an amount of money which he would not want the City to do, even though it is for his own benefit. It may be that that is the best policy; I don't think it is, and for that reason I voice this protest against the provision.

"I think our whole duty lies in setting up an appropriation of the people's money and making a restriction or provision that if the men are to avail themselves of the people's assistance for a pension fund, then the individuals themselves and their beneficiaries should be willing to pay something out of their own funds; but I oppose the feature of trying to tell the men how they shall do it. I think it ought to be a voluntary proposition so far as the men are concerned. A man should be allowed to choose whether he wants to go into the pension fund or not; and if he elects that he wants to become a beneficiary of the fund he should be willing to help to maintain that fund by contributing a portion of his salary to it. I would not like to have it go down in the Record that I approved that part of the ordinance which requires the City Controller to deduct the sum of \$2.50 from each fireman's pay every month.

"I cannot defeat the passage of the ordinance because of my opposition to this feature of the bill, so I desire to vote for the whole ordinance. I am doing that for this reason: Every member of this Council and every City official who knows anything about pension funds knows that the pension fund of the firemen (and that is the only one we should discuss today, and all discussion of the policemen's fund should be eliminated) is not on good sound financial basis, and the City should not be compelled to throw money into a bottomless pit. I hope that the passage of this ordinance will be the means of opening up the entire question of pension funds so far as the firemen are concerned and lead to a proper adjustment of it. I hope it will lead to representation by the men themselves for the opening of this question. As it is now, we don't know that the individual fireman is given a statement as to the financial condition of the pension fund. A man may learn through various sources of those who become beneficiaries through death and other causes, but he gets no official information in the shape of a letter or pamphlet

by those controlling the funds, showing the exact condition of the funds.

"I hope this condition will be corrected by the passage of this ordinance. The people of Pittsburgh don't know that this fund is in a bad financial condition. We know it, and I hope that the passage of this ordinance will bring this matter to a crisis, and the result will be that the pension fund question will be opened up. We should employ an actuary from an insurance company or pension association to go into the matter and give us the data on which to found a genuine and enduring pension fund.

"While protesting against the power of attorney feature, I think the best interests of all concerned will be advanced by the immediate passage of this ordinance."

Mr. Burke arose and said:

"Mr. President and Members of Council, you were all present at the Finance Committee on last Tuesday, when I said all that I had to say on this ordinance, but my friend and colleague on the left has given me one or two fresh thoughts—one that it is not fair to ask the City to contribute to a fund that is not on a sound financial basis. Just think of it! It is not fair for the City to contribute; how much more unfair it is, then, to ask the poor fireman who is battling for an increase in wages, to take \$2.50 from his salary to contribute to a fund that is not on a good, sound financial basis? Just think of it! Firemen who contribute to a fund \$2.50 a month (because this bill is mandatory in all its features) do not receive the same benefits out of the fund that they contribute to that the policeman receives for his contribution of \$2.50 per month. It is a well-known fact that if a policeman on the pension roll should die tomorrow his beneficiaries would receive \$1,000.00, while, on the other hand, the fireman's widow and family would not receive a penny.

"My position on this matter is just the same as it was last week. I believe this bill should be held in abeyance until Council has had an opportunity to consider both pension funds and put them on a good, sound financial basis. This affects two of the most important departments connected with the City government, and we should not ask or require either the policemen or firemen to contribute one cent towards their pension funds. There is plenty of money donated by this City to take care of both these pension funds if the pension funds were shaped in a way and put on a good, sound basis. We would then be protecting the fellow who, in his line of duty, might be injured or killed.

"There is no corporation which has a pension system that asks its employees to contribute anything towards it. I

don't go along with the idea of Mr. English that the men ought to contribute something to their pension fund. The Pennsylvania Railroad Company, with 60,000 employees, does not ask its employees to contribute, nor does the Baltimore and Ohio Railroad Company, with 40,000 employees.

"The pension funds of the police and firemen should be financed by the City government. This bill could well afford to go over for the next thirty days, and this Council could spare a little of its time and send for the policemen and firemen and, at least, take up the rules and regulations which govern these two pension funds, and change and revise them and put them on a sound basis before you make it mandatory for any set of employees to contribute anything for the maintenance of the pension fund.

"This bill should be referred back to the Finance Committee. Send it back to the committee; don't pass it up to the Mayor for his signature, for I am confident that he will allow it to become a law without his signature. Send it back to the Finance Committee, and let it lay there until you revise these two pension funds. Therefore, Mr. President, I move that this bill be referred back to the Finance Committee."

The Chair:

"I hear no second to the motion. The Clerk will read the bill a third time."

Mr. Rauh arose and said:

"Mr. President, this bill is temporarily bolstering up a tottering pension fund, to temporarily protect the older firemen, who should be taken care of, in case of their death in the near future.

"I vote for this bill feeling that it is only temporary, and until the Firemen's Pension Fund can be satisfactorily adjusted."

And the bill, as read a second time, was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

DEPARTMENT OF CITY
CONTROLLER.

Pittsburgh, February 7, 1919.
To the Council.

Gentlemen — In the Appropriation Ordinance for 1919 I find an appropriation, No. 1027, Civic and War Committee, amounting to \$25,000.00. I am of the opinion that, as the law is at present, the expenditure of moneys for that purpose is illegal.

I sent a communication to Council prior to the preparation of the Appropriation Bill, calling attention to the fact that, unless authority was secured, I would refuse payment of the bills incurred for any war activities. It is now February 7, and a committee has been appointed by the Mayor to prepare and carry out a program. In this connection you will remember, possibly, that the City Attorney has given an opinion that, without an enabling act, no committee of semi-public nature can bind the City nor authorize the issuing of warrants in payment of the bills incurred.

Respectfully yours,

F. S. MORROW,
City Controller.

DEPARTMENT OF PUBLIC WORKS.
February 6, 1919.

To the President and

Members of Council.

Gentlemen—Referring to Council Bill No. 2099, and your request for an estimate of the cost of improving Melwood and Fleetwood streets, I submit the following report:

Melwood street, from Baum boulevard to Denver street, is improved and paved with asphalt. Fleetwood street, from Thirty-third street to the Bloomfield bridge, is also improved, and the portion of Melwood street which is under consideration is the unimproved gap between the Bloomfield bridge and Denver street. Melwood street between these points is located on the hillside, and the topography is rugged and broken, making the cost of the street improvement excessive. There appears to be two possible schemes for improving this street: (A) The building of a very high and heavy retaining wall at an estimated cost of about \$80,000.00 and (B) the acquisition of sufficient property on the low side of the street to permit of a large fill and the building of a low retaining wall. The estimated cost of the

improvement as outlined under "A" is \$140,000.00 and "B" \$110,000.00. The material for the embankment could be secured from the hillside along the Bigelow boulevard and thus reduce the expense of the improvement; the estimated quantity of embankment required is 30,000 cubic yards. The length of this improvement is about 1,400 feet, and the grades range from 1.28 per cent. to 3½ per cent. The improvement of Melwood street would furnish another thoroughfare from the low level district of Penn avenue to the Shadyside and Oakland districts of the City.

Very truly yours,

JOHN SWAN,
Director.

UNFINISHED BUSINESS.

Bill No. 2131.

MAYOR'S OFFICE.

Pittsburgh, January 24, 1919.

Mr. John S. Herron, President, and Members of Council, Pittsburgh, Pa.

Gentlemen—I herewith return, without my approval, Bill No. 1808, Resolution providing that the President of Council assign one man to keep a record of bills introduced in the State Legislature affecting Pittsburgh, and that the President of Council procure the services of a competent person to attend the sessions of the Legislature.

This bill apparently is designed to employ and keep a lobbyist at Harrisburg. It is not clear whether it is to provide for one or two persons. It appropriates no specified amount. It fixes 'no salary or definite compensation. It is common street rumor that it is for the personal benefit of the Councilmen of Pittsburgh. Council should not appropriate or spend the taxpayers' money in any sum whatever for their personal benefit.

The Resolution implies, in the following language, "Some of this legislation is likely to be detrimental to the interests of the taxpayers of Pittsburgh," that our members of the Legislature and our members of the Senate are there for the purpose of legislating against the City's interests instead of legislating for its best interests. I am not willing to be a party to any such inference. Further, I do not approve of spending the City's money for the purposes outlined in this Resolution.

Very respectfully yours,

E. V. BABCOCK

Mayor.

In Council, February 3, 1919. Read and laid on the table for one week.

Which was read, received and filed.

And

Bill No. 1808. Resolution authorizing and directing the President of Council to procure the services of a com-

petent person to be in attendance at the sessions of the Legislature, who shall carefully examine all proposed legislation directly or indirectly affecting the City of Pittsburgh, and furnish the Mayor and Council with copy of same, together with report of its progress in the Legislature and such other information as he may deem important; the expense and compensation of said person shall be paid from Appropriation Code No. 1013-M, on vouchers approved by the Finance Committee.

In Council, January 20, 1919. Committee amendment agreed to, rule suspended, read three times and finally passed.

Which was read.

And on the question, "Shall the bill become a law notwithstanding the objections of the Mayor?"

Mr. **Rauh** arose and said:

"Mr. President and Members of Council, I regret that the Mayor did not understand the intent of my resolution.

"My idea was to offset any such experiences as Pittsburgh has undergone during the sitting of the past few Legislatures.

"The inference that the Mayor draws from my resolution, namely: 'That our members of the Legislature and our members of the Senate are there for the purpose of legislating against the City's interests instead of legislating for its best interests,' is entirely unjustified. My idea can best be set forth by bringing to your attention what happened during the 1915 session of the Legislature, when a certain bill, known as Senate Bill No. 490 passed the Senate and House, and was ready to become a law through the Governor's signature.

"By the merest accident this pernicious bill was brought to the attention of City Council.

"This bill contemplated assessing the taxpayers of our City one mill for the upkeep of our public libraries, when it costs about one-half a mill for such purpose, the other one-half mill, amounting to over \$300,000.00, which sum would have had to be paid, each year, had this bill not have been intercepted.

"At a meeting of Council at that time, June 8, 1915, page No. 279 of the Municipal Record. I introduced a resolution stating that, whereas the people of our City are already too heavily tax ridden, Council prevail upon Governor Brumbaugh that this unjust and unnecessary bill be vetoed.

"After much difficulty, which could have been avoided by having a City representative in Harrisburg at that time, whose function it was to look after such matters for the taxpayers' interests, the bill was vetoed and this unnecessary

tax of over \$300,000.00 annually was narrowly avoided.

"Other similar instances could be cited to prove that, despite legislators at Harrisburg, with the best intentions, such bills are often overlooked, and our taxpayers here suffer severely.

"This fact conclusively shows why it is necessary to have a representative of the lawmaking body of our City, namely, Council, at Harrisburg. Until we have home rule for our cities this must be done.

"For reasons such as these, I cannot support the Mayor's veto."

Mr. Burke arose and said:

"Mr. President, this bill should be passed over the Mayor's veto. I am going to give you my reason. I can give you many reasons, but I am only going to give you a few of them.

"First, if you don't pass the resolution over his veto, then you agree to the charges he makes in his veto message to Council, and you further agree as to his interpretations of the bill, and I doubt very much if you could find another man within the confines of the City of Pittsburgh who would place such an interpretation on the resolution. The language of the bill does not convey any such a thought as he expresses in his communication and the reason given.

"Now, just bear with me a moment while I read his charge: 'This bill, apparently, is designed to employ and keep a lobbyist at Harrisburg. It is not clear whether it is to provide for one or two persons.' Now, it is absolutely clear, and it specifically states, that there will be only one person employed. Now, further, 'It appropriates no specified amount.' That is true. 'It fixes no salary or definite compensation,' which is true. Council, sitting as the Finance Committee, will fix that compensation when the bills are presented, just as it does other bills. Now another charge, 'It is common street rumor that it is for the personal benefit of the Councilmen of Pittsburgh.' I would ask any man present to point out any phrase or any language in the resolution that conveys the idea or thought to any man that the bill provides for the personal benefit of any member of Council.

"Quoting further, 'Council should not appropriate or spend the taxpayers' money in any sum whatever for their personal benefit.' I want to ask the City Clerk at this juncture, Is there any reply from the Mayor on the resolution that was passed in the Finance Committee recently when the Law Department submitted a bill that was sent to the Senate at Harrisburg to take from the statute books the law that exempts property on the North Side from taxation? Council agreed by resolution to the bill authorizing the City Solicitor to use the power

of his office to try to have this bill passed, and asked the Mayor to concur in our action. Has there been an answer to our request?"

The Clerk:

"I have received no answer."

Mr. Burke:

"Has anybody received an answer? These are the things I have in mind: These are the bills—not for any personal benefit of myself or of personal benefit to any other member of this Council—that I would desire to have a man at Harrisburg; and I believe the City Council owes it to the taxpayers of the City of Pittsburgh to have a representative there just the same as every large corporation doing business in the State has a representative in Harrisburg to represent it and look after its interests. I don't believe this Council would be doing its duty to the taxpayers if it did not have a competent man at Harrisburg to look after such bills as would bring \$500,000.00 revenue to the City of Pittsburgh; and if His Honor was on the job I believe he would have a man from his department stationed there, and would answer the communication from Council asking for his concurrence and join hand in hand to send a man to Harrisburg to watch this legislation, as well as have the Law Department use its influence to have the legislation passed.

"I have as much confidence in the members of the Assembly of Pennsylvania as any man, and I know something about their duties, too. We have men today who are specialists in every line of business, and when you appoint a man wholly and solely for this one thing he has enough to look after.

"In the interests of the taxpayers of Pittsburgh we should pass this resolution, notwithstanding the veto of the Mayor. The Mayor's attention should be called to the fact that he has not answered our communication to concur with Council to look after the two bills we agreed on with the City Solicitor: one to take from the statute books these old laws that this \$39,000,000.00 property is exempt from taxation and to pass laws to bring in revenue to the City, and to see that we get our share and proportion of the automobile license fees that are paid to the State, which would help to keep our streets in first-class condition. Therefore, I say to the Council that it could not do a greater duty than to pass this bill over the Mayor's veto."

Mr. English arose and said:

"Mr. President, I regret very much that the Mayor stoops in his communication and attempts to belittle and belittle this Council. I am surprised that a man of his intelligence would

use the language which he does, particularly in the second paragraph of his veto message. I will quote it: 'This bill, apparently, is designed to employ and keep a lobbyist at Harrisburg.' I don't know what was in the Mayor's mind, but I am satisfied that there was not in the mind of any member of Council, is not, and will not be in the future, that the purpose of this proposed legislation was to employ and compensate any person or persons to go down to Harrisburg and lobby for or against the passage of any bill in the Legislature. That is not the intention at all. The Mayor is reading into the resolution the word 'lobbyist,' which is not in the resolution and is not and was not in the minds of the members of Council at all, because the resolution provides that the person appointed shall be in attendance at the sessions of the Legislature and 'procure copies of all bills affecting the City of Pittsburgh and furnish the Mayor and the Council with a copy of same, together with a report of its progress in the Legislature and such other information as he may deem important.' It seems to me very clear that the Mayor has gone quite a distance out of his way to make it appear that it is the intention of the Council to employ a 'lobbyist.'

"He says, 'It is not clear whether it is to provide for one or two persons.' Evidently the Mayor must have been blind or sick when he read the third clause of the resolution. 'That the President of Council be directed to assign one (1) person to keep a record of every bill introduced in the Legislature affecting the City of Pittsburgh.' I am not seeing double now, Mr. President. I take the word one and the figure after it to mean one, not two.

"He further says, 'It appropriates no specified amount.' It is true. We don't know what it will cost, but it will not be more than a few hundred dollars. I am quite positive that we are not going to spend anything like the sum he asked for the repairs of his automobile for 1919, about \$2,200.00. The car cost about \$3,000.00, and a few months after its purchase he asked for two-thirds of the cost of the machine to keep it going for a year. This in view of the fact that no one in his department has had any experience on this particular type of machine which would justify him in asking for so large an amount for repairs. We are not going to spend anything like \$2,200.00 to have a representative at Harrisburg to protect the interests of the taxpayers of Pittsburgh.

"As you all know, we employed a person in the past to attend the sessions of the Legislature and keep Council posted as to the measures introduced in both branches of the Legislature and the progress made on the bills affecting the City of Pittsburgh. To do this we

did not have to rob the taxpayers of Pittsburgh.

"Now, he says, further, 'It fixes no salary or definite compensation.' It is right. We might get it done for \$300.00 or \$1,000.00. It is up to the President of Council. We are not going to send a man to Harrisburg with blank checks to buy votes in the Legislature. The salary or compensation that will be paid to the person appointed will be subject to the closest scrutiny by any taxpayer or person. The payroll must be approved by the City Controller before one penny will be paid out.

"Further he says, 'It is common street rumor that it is for the personal benefit of the Councilmen of Pittsburgh.' I just want to call your attention to the fact that this resolution was introduced in Council on December 2, 1918, fully three or four weeks before the Legislature could convene under the statutes. The public has had plenty of time to protest against this. Our hearings are open to the public and our actions taken in public, and that is one reason we are a successful Council. This resolution has been before the public for two months and I have not received a communication from a taxpayer protesting against the employment of a person to represent the Council at Harrisburg to look out for the interests of Pittsburgh, and I anticipate that no taxpayer is going to bother his head about it, because he has confidence that the Council is looking out for the interests of all the taxpayers.

"It seems to me that the statement by Governor Sproul when he was here Saturday makes the Mayor's charge of personal interest look ridiculous. That is not common street rumor. It is a definite statement by the Governor of Pennsylvania that he is not in favor of ripper legislation. The ripper must have been in the mayor's mind when he wrote in the veto 'that it was the common street rumor that the bill is for the personal benefit of the Councilmen.' Where does he get his information? Is it from his association with the political leaders in Allegheny County? It was not a common street rumor last Tuesday and Wednesday evenings that a statement was printed in Pittsburgh papers in which it was stated that Senator Leslie, ex-Mayor Armstrong and Mayor Babcock decided how the members of the Legislature from Allegheny County were to vote on the national prohibition amendment. This is a plain statement, made by newspapers of Pittsburgh, every one of which is responsible, and I have heard no denial or frank declarations from the Mayor or any of the others concerned that it is not true.

"I am surprised that the Mayor would base a veto message on common rumor, whether he obtained such information on the streets, in City Hall or in church.

"He further quotes, 'that our members of the Legislature and our members of the Senate are there for the purpose of legislating against the City's interests, instead of legislating for its best interests. I am not willing to be a party to any such inference.' From this statement it seems to me that the Mayor is trying to make trouble for the Council and the members of the Legislature from this City and Allegheny County. I think he is making a vast mistake when he attempts such a proposition. We are not challenging the integrity of any member of the Legislature, whether he is from Pittsburgh or Allegheny County or any other part of the State. We simply want information on bills that are introduced in the Legislature at Harrisburg affecting our City.

"The information I am going to give is not common street rumor. It was reported in our papers some ten days ago that the Mayor of Pittsburgh, who sends this common street rumor veto message to Council, was in favor of a proposed bill at Harrisburg providing for eight police magistrates, but sidestepped an opinion on the salary of \$4,000.00 each. It is not common street rumor; it is a fact; we don't need eight police magistrates. We recognize that, and we will deal with that question when it comes up for consideration. Why should we permit the Legislature, without protest, to saddle onto the taxpayers of Pittsburgh eight positions at \$4,000.00 each a year when the power for fixing salaries of City employees is vested in the Council of Pittsburgh? We are now getting police magistrates to serve for \$2,500.00 a year. If that is not enough salary they should resign. Why are they still hanging on for \$2,500.00? They are still willing to hang on, in spite of the fact that Council refused to confirm the Mayor's appointments. The amount that is proposed to pay the police magistrates would mean a total increase of \$12,000.00 over the amount now paid them, and the City Council could well afford to spend \$10,000.00 to save \$12,000.00. The Mayor, in his business practice, would not permit such a thing to occur. He is willing to go out and spend money to further his business, but attempts to stop Council from protecting the taxpayers of the City. I have no quarrel with the Mayor. What I say I say in all sincerity and honesty. I propose to go with him when I think he is right, and I shall oppose him when I think he is wrong. I think he is wrong in this instance. It occurs to me that someone has misled him, and I am going to vote to make this resolution a law notwithstanding the veto of the Mayor, because I think the bill is meritorious and, from my experience in Council and my experience with the Legislature, I think I am justified in voting as I do. In the closing days of the last budget we affected a saving of 30 per cent. in the tax rate submitted by the

Mayor. I am going to close by asking that in addition to the remarks I have made, that the second paragraph of the leading editorial in the Pittsburgh Post of this morning be added:

"It is time that the public gave attention to the forces in the communities that are originating legislation, so that those meriting support may be given it and the other kind exposed and repudiated. Mark those who come out openly with their projects and invite public discussion and those who try to sneak their measures through. There are instances of a few individuals taking it upon themselves to force revolutionary changes that the public has heard nothing about until the measures appear in the Legislature. It is an insult to the intelligence of any community. What changes are brought about should represent the best thought of the citizenship instead of the greed of a few politicians.'

"That is what was in my mind when I voted for the resolution originally and what is in my mind today. This resolution has been before the Council for the past sixty days and not a protest has been raised against it by any taxpayer. On the other hand, we have a letter here from the best element of the community commending Council's efforts to help the City, and this editorial which I have quoted is a warning to watch all legislation at Harrisburg.

"For the reasons stated I shall vote for the resolution becoming a law notwithstanding the veto of the Mayor."

Mr. Robertson arose and said:

"Mr. President, in regard to this bill I cannot say much, but I have had conversations with the different members of the House and Senate. I have a letter from Senator W. W. Mearkle, which is as follows:

"My Dear Mr. Robertson—As per my conversation with you some days ago, I have made arrangements to have the History of the House and Senate Bills sent to the President of the Council every week, also the Legislative Journal. The history of the bills will give you the title of every bill that is endorsed in the Senate and in the House. It will also show you just what position they are on the calendar, or whether they are in the committees.

"It occurred to me, after talking with you, that it would not be necessary to have every piece of legislation introduced at Harrisburg sent to the Council, as there are introduced pieces of legislation that in no way affect the County or the City, and the history above referred to will give you the title showing what section the bills will affect, and if there is any particular piece of legislation in which the Council is interested, I shall be very pleased to forward to

them or you any or as many pieces as you may want.

"Yours very truly,

"WILLIAM A. MEARKLE."

"I think if this Council should get this legislation as Mr. Mearkle suggests and if any bills pertain to the City, the members of this Council can go down on the day they come up and, if they are detrimental to the interests of the City, protest against them.

"The language the Mayor uses in his veto message does not appeal to me as being fair, but I think his position is well taken."

Mr. McArdle arose and said:

"I would just like to say, appreciating the very commendable attitude that Senator Mearkle has taken, that following his course would not have enabled this Council to have known a single thing about the bill to which I referred, the wharf bill. I dare say that there are not ten lawyers in the City of Pittsburgh practicing at the Allegheny County Bar, on examination of that bill, would have known its application to the wharf matter."

Mr. Rauh arose and said:

"Mr. President, regarding the letter read by my colleague on the left, I wish to state that I have the highest regards for Senator Mearkle, but everybody knows that a week in the legislative body of the State is a long time—sometimes very short and sometimes very long—and we also know that very frequently bills are introduced and amendments tacked onto those bills which give it an altogether different meaning; and that is why we want the man there, not only to watch the bills, but the amendments, which sometimes have the snake in the grass."

Mr. Burke arose and said:

"We want a man on the job every minute, and we don't want to discover by accident at the last minute legislation that is detrimental to the City."

Mr. Winters arose and said:

"Mr. President, I want to say that I am going to vote to sustain the Mayor's veto, but I don't want to go on record as agreeing to the sentiments expressed by the Mayor. I think his language is ill-advised, intemperate and makes use of expressions which would have been better if omitted.

"He speaks of two persons, and I can find no other reason in the statement unless it was coupled up with the declaration of the street rumors. I don't think the Council should judge the Mayor by street rumors, any more than the Mayor should judge the members of Council by street rumors.

"I have no concern about the personal equation in the bill, as I have not been disturbed about the fate of the Council. I think that has been in such shape as to cause no apprehension on our part at any time.

"I am willing, however, to believe that many of the bills before the Legislature, such as the wharf legislation, in which the legal department of the City is vitally interested, should be looked after. If the Law Department don't get the reports on the bills that are introduced at Harrisburg and make a study of them, and inquire into the nature and character of them, as it affects the City of Pittsburgh particularly, then I would think it is about time that some one gave instructions to the Law Department of the great City of Pittsburgh, the second city in the State of Pennsylvania, to do so, and I think they, without instruction, ought to be making an investigation of every bill that is presented affecting the City of Pittsburgh.

"I want to go on record to the extent of disagreeing with the Mayor's language and some of the insinuations in his veto message, but I am willing to sustain the Mayor's veto under the thought that any responsibility or any failure that might arise through the neglect to do what was recommended by Council, shall rest upon the shoulders of the Mayor himself."

And the question recurring, "Shall the bill become a law notwithstanding the objections of the Mayor?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Burke	Herron (President)
Dailey	McArdle
English	Rauh

Noes—Messrs.

Garland	Winters
Robertson	

Ayes—6.

Noes—3.

And there being two-thirds of the votes of Council in the affirmative, the bill became a law notwithstanding the objections of the Mayor.

MAYOR'S OFFICE.

Pittsburgh, February 13, 1919.

Mr. John S. Herron, President, and

Members of Council of the

City of Pittsburgh.

Dear Sirs—I return herewith, without my approval, Bill No. 2058, a resolution exonerating the First Christian Church of Banksville from payment of assessments for sewers.

This is practically the same as your bill No. 1409, which I could not approve of and wrote you January 8, setting out the following reasons, which I herewith repeat:

"Accompanying this resolution is a statement from the City Solicitor that there is no legal reason why they should be exonerated from their assessments. Another letter in the file by the City Clerk states that the assessments are a lawful and legal claim against the church.

"Exonerating an assessment of this kind opens a door so wide to many other cases and establishes such a very bad precedent that even, though the circum-

stances might be extenuating, I cannot give my approval."

Very respectfully yours,

E. V. BABCOCK,

Mayor.

Which was read.

Mr. McArdle moved

That the communication be received and filed.

Which motion prevailed.

And

Bill No. 2058. Resolution exonerating the First Christian Church of Banksville from payment of assessments at No. 703, January Term, 1918, of \$285.00 for sewerage on Broadway avenue, and at No. 1457, April Term, 1918, for \$54.00, for sewer on Olcott way, together with all court costs due thereon, the same to be charged to the City, and providing that Bill No. 1409, relating to the same matter, be repealed.

In Council, February 3, 1919. Rule suspended, read three times and finally passed.

Which was read.

And on the question, "Shall the bill become a law notwithstanding the objections of the Mayor?"

The ayes and noes were taken, agreeable to law, and were:

Ayes—Messrs.

Burke	Herron (President)
Dalley	McArdle
English	Winters

Noes—Messrs.

Rauh	Robertson
------	-----------

Ayes—6.

Noes—2.

And there being two-thirds of the votes of Council in the affirmative, the bill became a law notwithstanding the objections of the Mayor.

UNFINISHED BUSINESS.

Bill No. 2133. An Ordinance entitled, "An Ordinance authorizing and directing the issuance and sale of bonds of the City of Pittsburgh in the aggregate principal amount of \$1,134,000.00 for the purpose of funding existing unfunded indebtedness of the City, consisting of contractors' claims, claims for damages arising from the opening, widening and improving of streets, and the construction of sewers and other floating indebtedness, and providing for the redemption of said bonds and the payment of interest thereon."

In Council, February 10, 1919. Read a first time.

Which was read a second time and agreed to.

MOTIONS AND RESOLUTIONS.

Mr. Burke presented

No. 2229. Resolved, That Council authorize the Transit Commission to investigate and report as to the feasibility of changing the course of the Allegheny river from Ross Grove to Emsworth, and that it become part of the Ohio river.

Which was read.

Mr. Burke moved

The adoption of the resolution.

Mr. Burke arose and said:

"Mr. President—In presenting this resolution to Council, I do so after having given careful study to the facts with the result that I believe if the Transit Commission make the necessary survey between Ross Grove and Emsworth or a point nearby, it will be found the water course can be changed without too great an expense, so that it will be emptied into the Ohio river.

"Council must realize the advantage that will accrue to the City of Pittsburgh if this project can be carried through.

"So far as I can learn, this is a natural course with the exception of one little knoll, and this is at West View Park; came by some disruption years ago or earth disturbance.

"We realize that there should be something done to relieve the congested conditions in the downtown caused by heavy traffic.

"Personally, I believe an underground transportation system, not a loop, but a tube, from the East End to and through the North Side, and from the South Side to and through the North Side; owned by the City, operated by the City, in the interest of the people, under similar plans as recommended by Mr. Morris of the Transit Commission, is the only solution of the street railway problem in Pittsburgh.

"Now, if we go under the ground with the street railway we must have a place to dump the ground taken from the underground tunnels. I think no better place could be used than the Allegheny river from the Point to Sharpsburg. This would do away with the cesspool that Council's attention was called to the other day from Mr. Hartman, who appeared before it in the interest of the landlords, when he said that the river was nothing more or less than a cesspool. All the water refuse could be carried through a tube underneath the railway tubes that would be laid in the river bed to connect Pittsburgh proper and the North Side, and the ground taken from the tunnels could be used to fill in the river bed.

"All the wharf properties now owned by the City could be put to great use and would bring in more revenue than the developments would cost. The project will be seven miles in length from Ross Grove to Emsworth. I believe the land could be purchased for \$100.00 per acre between Ross Grove and Emsworth and the land that could be utilized from the Point to Sharpsburg, after the bed of the river was filled in, part of it would bring in as high as \$200,000.00 per acre. Along the new course of the river factory sites could be laid out. This would do away with the raising of bridges and the construction of new bridges from the City proper to the North Side. This expenditure would be approximately one-tenth of the amount the City would realize if the property, after being filled in, were sold.

"I think where the bed of the river is at present a great boulevard could be built, taking it from the Point to Sharpsburg. There this boulevard would intersect with the boulevard in Highland Park and this, then, connect with the Baum boulevard and from there into the Bigelow boulevard, and then to the Point by the way of Water street."

Mr. **Rauh** moved

To amend the motion by referring the resolution to the Committee on Public Service and Surveys.

Which motion prevailed.

Mr. **McArdle** called up

Bill No. 1872. Resolution authorizing the issuing of a warrant in favor of W. P. Schmidt in the sum of \$122.53, damages to automobile caused by running into a hole in the street on the north side of Penn avenue east of Linden avenue, and charging the same to Appropriation No. 42, Contingent Fund.

In Council, February 10, 1919. Read and further action indefinitely postponed.

Which was read.

Mr. **McArdle** moved

To reconsider the vote by which action on the resolution was indefinitely postponed.

Which motion prevailed.

And the question recurring, "Shall further action on the resolution be indefinitely postponed?"

The motion did not prevail.

Mr. **McArdle** moved

That the resolution be recommended to the Committee on Finance for further consideration.

Which motion prevailed.

Mr. **McArdle** called up

Bill No. 2028. Resolution authorizing the issuing of a warrant in

favor of Dr. H. J. Carten in the sum of \$204.83, in full settlement of his claim arising out of accident to his automobile by running into a hole on the Twenty-second street bridge, and charging same to Code Account No. 42, Contingent Fund.

In Council, February 10, 1919. Read and further action indefinitely postponed.

Which was read.

Mr. **McArdle** moved

To reconsider the vote by which action on the resolution was indefinitely postponed.

Which motion prevailed.

And the question recurring, "Shall further action on the resolution be indefinitely postponed?"

DEPARTMENT OF CITY CONTROLLER.

Pittsburgh, February 24, 1919.

To the Council.

Gentlemen—Under existing laws we have to advertise the sale of bonds three separate weeks before the sale. As any delay in the passage of the Funded Debt Loan Ordinance will bring it for sale about the same time as the government loan will be offered, and I think it advantageous to the City to have them sold before that time, I recommend its passage today. The Mayor's private secretary says he is positive the Mayor will sign it as soon as it is passed, and he will, at my request, stating the urgency in the matter, forward it at once.

Respectfully,

E. S. MORROW,
City Controller.

Which was read.

Mr. McArdle moved

That the communication be received and filed.

Which motion prevailed.

UNFINISHED BUSINESS.

Bill No. 2133. An Ordinance entitled, "An Ordinance authorizing and directing the issuance and sale of bonds of the City of Pittsburgh in the aggregate principal amount of \$1,134,000.00 for the purpose of funding existing unfunded indebtedness of the City, consisting of contractors' claims, claims for damages arising from the opening, widening and improving of streets, and the construction of sewers and other floating indebtedness, and providing for the redemption of said bonds and the payment of interest thereon."

In Council, February 17, 1919. Bill read a second time and agreed to.

Which was read a third time and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken, agreeably to law, and were:

Ayes—Messrs.

Burke	McArdle
Dailey	Rauh
Garland	Robertson
Herron (President)	Winters

Ayes—8.

Noes—None.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

REPORTS OF COMMITTEES.

Mr. Garland presented

No. 2249. Report of the Committee on Finance for February 18, 1919, transmitting a resolution to Council.

Which was read, received and filed.

Also, with an affirmative recommendation.

Bill No. 2230. Resolution protesting against the raising of the Sixth, Seventh, Ninth, Sixteenth, Thirtieth and Forty-third street bridges over the Allegheny river, as ordered and directed by the Secretary of War.

Which was read.

Mr. Garland moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended the resolution was read a second and third times and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Burke	McArdle
Dailey	Itauh
Garland	Robertson
Herron (President)	Winters

Ayes—8.

Noes—None.

And a majority of the votes of Council being in the affirmative, the resolution passed finally.

Mr. McArdle presented

No. 2250. Report of the Committee on Public Service and Surveys for February 18, 1919, transmitting an ordinance to Council.

Which was read, received and filed.

Also, with an affirmative recommendation.

Bill No. 1323. An Ordinance entitled, "An Ordinance vacating that portion of Arbuckle way, which is bounded on the north by the Pittsburgh, Fort Wayne & Chicago Railway's right of way, and on the south by a line which is parallel with the northerly line of Lacock street and distant one hundred twenty-four and one-half (124½) feet northwardly from the northerly line of Lacock street."

Which was read.

Mr. McArdle moved

That the bill be recommitted to the Committee on Public Service and Surveys.

Which motion prevailed.

MOTIONS AND RESOLUTIONS.

Mr. McArdle presented

No. 2251. Resolved, That the Director of the Department of Public Works be and he is hereby requested to furnish Council with an estimate of the cost of straightening, raising and re-establishing the grade of Butler street, from a point 200 feet east of Forty-eighth street to a point 200 feet west therefrom.

Which was read.

Mr. McArdle moved

The adoption of the resolution.

Which motion prevailed.

Also

No. 2252. Resolved, That the Department of Assessors be and it is hereby requested to furnish a statement of the assessment valuation of the properties described as follows:

A—Bounded by Liberty avenue Fifth avenue and Market street.

B—Bounded by Sixth avenue, Wood street and Liberty avenue.

C—Bounded by Sixth avenue, Grant street and the Bigelow boulevard.

D—Bounded by Liberty avenue, Seventh avenue and Smithfield street.

Which was read.

Mr. McArdle moved

The adoption of the resolution.

Which motion prevailed.

Mr. Winters presented

No. 2253. Whereas, The City of Pittsburgh is the owner of many lots and pieces of property abutting upon its improved and unimproved streets, many of which properties are located in, or in close proximity to the producing and manufacturing centers of the City and are vacant, unused and unproductive properties, bringing the City no return whatever; and

Whereas, There is a scarcity of homes and houses suitable for residences of the family of ordinary means and the working or labor population of the City; the housing proposition in its development becoming now a vital problem, which is already retarding its progress and should receive the immediate and careful consideration of the municipality and all others desirous of the people's welfare; and

Whereas, The renters, by the scarcity of houses, are more or less at the mercy of many avaricious landlords and the rent profiteer, which condition could be largely overcome by the City utilizing its vacant property for homes; and, further, under the graded tax law, the City would set the example and put into actual practice the theory it advocates for others; therefore, be it

Resolved, That the City Solicitor of the City of Pittsburgh be requested to furnish to Council an opinion as to the legality and the authority the City may have for using and developing its vacant property in the building of homes, and directing the City Solicitor, in the event of the illegality of the City's authority or rights, to prepare a bill for presentation to the Legislature of the Commonwealth of Pennsylvania, granting to municipalities the right and authority to thus utilize and develop their properties and providing for the expenditure of public moneys for that purpose.

Which was read.

Mr. Winters moved

The adoption of the resolution, and said:

"Mr. President, Nations and municipalities can do only one of two things. They must either progress or retrograde. There is no standing still.

"We have been listening here for a couple of weeks to the complaints of rent payers about increases in rents. The only answer to their complaints has been that there is a scarcity of houses. No remedy for that situation has been advanced by any of the property owners who have appeared before us.

"One speaker who appeared before this body a week or two ago quoted an old saying that, 'Fools build houses for wise men to live in.'

"This speaker and others who appeared here were unanimous in saying that there is no profit in building houses to rent. Every landlord whom I have spoken to has said the same thing. And, in addition to that, I might say that you will remember that a man who is one of the largest builders of homes in the City of Pittsburgh (I know he is the largest builder of that kind that appeared before Council at the hearings on the rent profiteering practice), a man who was referred to by one of the speakers as the 'Kaiser' of landlords in Pittsburgh, made the statement that a workingman could not live in Pittsburgh on account of the housing conditions and the high cost of building materials.

"This is not a new condition. Landlords have been telling me this same thing for years. The scarcity of houses has not been brought about by the war. The great influx of laborers here on war work simply intensified a situation that had been with us for many years before the war and was constantly growing worse. Private capital was unanimous in saying it did not pay to build for rent.

"If this be true, then it is certainly the duty of the municipality to take steps to remedy the condition. We must either go forward or back. If we are to attract and hold a satisfied working popu-

lation in this City we must give them decent homes to live in, and we must furnish them at a rental that will be within their means. If private capital cannot do this, then it is to the interests and welfare of the municipality to take that work in hand.

"I do not anticipate that the City could enter into the business of building houses to rent without opposition. But I do believe that it is the duty of the City to put the idle lands it now holds into use. I believe this City should build at once 500 or 1,000 modern homes of six to eight rooms each. These houses should be constructed of the best building material. The workmanship should be second to none. The plumbing and sanitary features should be unsurpassed. The rentals should be only enough to cover the cost of maintenance and provide a sinking fund. They should be sold to any homeseeker desiring to possess himself of one of these homes, and should be sold in such a way and on such terms that workingmen would be encouraged to own their homes.

"We have tried the plan of private capital furnishing homes for the workers. The plan is a failure. Owners of such properties say they would never again build such properties, as there is no money in them. Perhaps the City would not reap a direct profit from such an undertaking. But unless we get busy and begin to progress here in Pittsburgh the time will come when bats will be roosting in the ruins of the buildings we now have and Pittsburgh will be only an interesting deserted village. Perhaps that is an exaggeration, but it is not an exaggeration to say that good American workingmen will not want to locate here and this City will be turned over entirely to foreigners, who have no idea of what America means.

"The business men of this City know that their prosperity depends absolutely on the workers. Without them this City could not be. If the great stores of this City were deprived of the patronage of the men who labor with their hands for day wages they would close their doors in a week. If we want to keep a class of workers here who will support the great business institutions which have grown up here to serve them, the municipality will have to do its duty to the workers. Private capital says it cannot do it, because there is no profit in it. Then the City will have to do it, even with the prospect of profit entirely eliminated.

"This is undeniably a radical step in City development. But Pittsburgh is confronted with a condition that must be remedied. I do not believe that the cry of high prices of materials need interrupt this development for an instant. If brick manufacturers, plumbing contractors, lumbermen, supply dealers

of every description knew that Pittsburgh was to erect 500 or 1,000 modern dwellings this summer they would be crowding in here to give us bargain prices. The builder of a single house might find prices high now. The City building several hundred will get reasonable prices, provide labor for thousands of mechanics, make homes for thousands of American people and solve the housing question in the only sensible way it can possibly be solved."

Mr. Bauh arose and said:

"I heartily approve of the resolution. Pittsburgh needs more houses. As my colleague on the left has stated, we have heard much lately about this rent profiteering proposition and that some landlords are acting the way they are is because of the scarcity of houses. Now, I will tell you what the scarcity of houses is doing. First of all, I want to say that we have several thousand pieces of property, some having houses on and some vacant lots, and you know that it is a hard proposition to sell an empty lot, and I believe the City would profit if small houses were erected on this vacant property. I don't mean that the City should build on property that is unsuitable for housing purposes, as we have a lot of such property. There are lots in suitable locations which could be utilized for this purpose and which would bring in a good revenue to the City if put to the uses proposed under this resolution.

"I wish to call to your attention a serious proposition that was stated to me. A gentleman told me this morning that in one newspaper in Pittsburgh there were thirty advertisements for houses to let, apartments to let, and twenty-nine of those advertisements stated that they would not rent the apartments or houses to people who had children. Now, this is a serious proposition.

"If the City built small homes, as has been suggested in the resolution just presented, the workingman with children could rent them."

"Another serious thing that should be taken into consideration. You know that a great many people will have to live outside the City limits because they cannot find suitable homes in Pittsburgh. And these boroughs refuse to join Pittsburgh, to make a Greater City. We are

losing the population and the taxpayers unless we get to work and use some strenuous influence and do something suggested by the resolution. I am for the passage of the resolution."

Mr. McArdle moved

To amend the resolution, after the words "right and authority to" by inserting the words "acquire land and to."

Mr. Winters (with the consent of the seconder) accepted the amendment.

And the question recurring on the adoption of the resolution, as amended.

The motion prevailed.

Mr. Garland presented

No. 2254. Resolved, That we request the City Solicitor for an opinion as to whether, under his constitutional rights, a landlord has the right to restrict his renting to families without small children, or as to the right of a landlord of a residence or apartment to remove a family, otherwise a satisfactory tenant, because of the arrival during leasehold, of a child or children.

This practice appears on its face to be un-American, tending, as it does, towards race suicide.

Also as to whether this practice can be corrected legally, through an act of Legislature, by Act of Congress, or do the rights exercised under contract forbid a correction of this condition.

Which was read.

Mr. Garland moved

The adoption of the resolution.

Which motion prevailed.

The Chair presented

No. 2255. Communication from the Renters' Anti-Extortion League of Pittsburgh, transmitting resolutions adopted by said league suggesting that the City Assessors receive and investigate all complaints of tenants or lessees in the City relative to excessive rentals demanded by landlords, etc.

Which was read, and referred to the Committee on Finance.

And on motion of Mr. Bailey,

Council adjourned.

DEPARTMENT OF PUBLIC WORKS.

February 28, 1919.

To the City Council.

Gentlemen—Referring to Council Bill No. 2100, which is a resolution requesting me to furnish your committee with an estimate of the cost of grading, paving, curbing and otherwise improving Butler street, from the end of the present pavement to the Heth's Run bridge, I beg to advise as follows:

Butler street, from the end of the present pavement to the Heth's Run bridge, has a total length of 4,235 feet, or about eight-tenths of a mile. It is a side-hill street, with a very steep transverse grade, the upper side of the street being incut and the lower side requiring retaining walls for its support. About one-third of its length has a width of 50 feet and the remaining two-thirds 60 feet. The roadway is 36 feet and located therein is a double-track street railway. The grades range from 0.5 per cent. to 6 per cent. The estimated cost of the improvement, including the building of a sewer, is \$240,000.00, and of this amount it is estimated that \$200,000.00 will be assessed against the City. The reason for this large assessment against the City is due to the topography of the land adjacent to the street and its low valuation. On the lower side of the street extensive retaining walls will be required and no assessment is possible, and the low valuation of the property on the upper side precludes any considerable assessment.

This portion of Butler street is one of the main thoroughfares of the City and should be improved in order to complete and connect up the outer Butler street district with Highland Park and make possible a completely improved highway extending from Butler street and Sixty-second street to Frankstown avenue and Fifth avenue extension. In other words, the improvement is general rather than local in character.

Yours very truly,

JOHN SWAN,
Director.

No. 2293.
DEPARTMENT OF LAW.

Pittsburgh, February 25, 1919.

To the Honorable, the Council
of the City of Pittsburgh.

Gentlemen—Under date of February 25, 1919, I received a communication from the City Clerk, requesting to be advised concerning Bill No. 2253, being a resolution having to do with the construction by the City of Pittsburgh of homes and suitable houses on property now owned by the City.

I have examined this bill. I am in entire accord with it from a sympathetic and moral viewpoint, but, considering the idea which runs through the resolution from a legal viewpoint, I am sorry to say that, in my opinion, there is no remedy. The City of Pittsburgh, it is true, rents a number of its properties. All of these properties, on which residences are constructed, the City became the owner thereof by due process of law; by exercising its rights to enforce the collection of taxes and improvement claims, and through legal channels we became possessed of such property. The City of Pittsburgh cannot engage in a business which would be foreign to municipal government. The construction of houses at the expense of taxpayers for the purpose of renting the same and deriving a revenue, no matter how small, is not a function of municipal government; it is a business in which many people in our City are engaged.

The cost of living, in all of its various phases, has increased materially in recent years, and one of the elements of this terrific cost consists of the demands made by landlords. Rent is controlled by the supply of houses and the corresponding demand therefor. A tenant enters into another man's property under a lease, which is nothing more than a contract, and with that contract we have no right to interfere.

It seems to me that one step forward in protecting our people might be con-

sidered in this way. We have a number of very desirable building sites. If builders would agree to build homes on these available sites, submitting to the Council plans and specifications for their proposed buildings, and agree that for a period of years the rent asked for specific homes would not exceed a definite sum per month, the City might well afford, in these trying times, to sell these available home sites at a price greatly reduced from the selling and listing price of today.

As to preparing a bill for the consideration of the Legislature, giving the City the right to construct the residences on its available property, permit me to say that, in my humble judgment, such an act could not pass the Legislature, and, if it did, it would be unconstitutional.

" Respectfully yours,

STEPHEN STONE,
City Solicitor.

"Mr. President, we all understand that this resolution came from the Controller's office, and at the meeting of the Finance Committee last week the Assistant Controller said that the City Controller was not entirely satisfied with the proposition of paying the garbage companies, as the work was not properly done, and for that reason he would not pay the bills unless approved by Council. The very fact that these bills are presented shows that there is something wrong or they would not have to submit them to us for approval.

"I don't believe the companies should be deprived of money that is due them, but in this instance I am not entirely satisfied with the transaction and must register my protest against same.

"I want to serve notice upon my colleagues that I am going to ask that an item of \$500,000.00 be included in the proposed people's bond issue for the purpose of having the City do its own work. As you all know, there is now at the disposal of the City \$90,000.00 to build disposal plants and, with the \$500,000.00 additional, I believe sufficient money will be at the City's disposal to do all the work incidental to the collection, removal and disposal of garbage and rubbish in this City. As to the method to be employed, that can be worked out later."

And the resolution was read a third time, and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Burke	Herron (President)
Dailey	McArdle
Garland	Winters

Noes—Mr.

Rauh

Ayes—6.

Noes—1.

And there being two-thirds of the votes of Council in the affirmative, the resolution passed finally.

Also

Bill No. 2245. Resolution authorizing the issuing of warrants in favor of the American Reduction Company for \$41,913.38 for the removal of 4,477.37 tons of garbage at \$3.50 a ton and 4,771.06 tons of rubbish at \$5.50 a ton, and to the Allegheny Garbage Company for \$10,031.05 for the removal of 1,680.89 tons of garbage at \$3.50 a ton and 754.17 tons

of rubbish at \$5.50 a ton, the same to be charged to Code Account No. 1259, Bureau of Sanitation, Department of Public Health, the tonnage rates set forth in this resolution being the rates as established by the contractors for the period ending December 31, 1918.

Which was read.

Mr. Rauh moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second and third times, and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Burke	Herron (President)
Dailey	McArdle
Garland	Winters

Noes—Mr.

Rauh

Ayes—6.

And there being two-thirds of the votes of Council in the affirmative, the resolution passed finally.

MOTIONS AND RESOLUTIONS.

Mr. Garland presented

No. 2304. Whereas, There will be included in the proposed bond issue the project heretofore known as the "Monongahela Boulevard;" and

Whereas, The name "Monongahela" is already well established in our local history by the river of that name, which flows through our district; therefore, be it

Resolved, That in treating with this projected boulevard hereafter it shall be known and designated on all plans and documents as "The Boulevard of the Allies," in order that should the people so decide that the contemplated boulevard be built, it may, by its name, commemorate the great war in which America and the Allies were engaged; and be it further

Resolved, That a copy of this resolution be forwarded to His Honor, the Mayor, with request that he instruct the Director of the Department of Public Works to govern himself accordingly.

Which was read.

Mr. Garland moved

The adoption of the resolution.

Which motion prevailed.

And, on motion of Mr. Garland,

Council adjourned.

DEPARTMENT OF LAW.

Pittsburgh, February 25, 1919.

To the Honorable, the Council
of the City of Pittsburgh.

Gentlemen—I am requested to advise you concerning Bill No. 2254, as concerning the rights of a landlord with respect to families having children. Please be advised:

For some considerable time past I have heard that landlords were refusing to lease their properties to people who have children. To say that such a practice is un-American is putting it mildly. Our children are the greatest factor in our development as a nation, and it is to them we must look as the years roll by to protect our country and to protect our national ideals. No law is on the statute books, and I fail to see how any law can weather the gale of court criticism, which would compel a landlord to renew a lease with any tenant. A landlord does not have to have an excuse of any kind for insisting that the relation of landlord and tenant be dissolved on the termination of the lease. That is his inalienable right, as it is likewise the inalienable right of the tenant to move if he so desires for no reason whatsoever upon the termination of the contract or lease. There is sufficient law in the statute books to protect a tenant from ouster by his landlord in the event, during the tenancy, a man and his wife are blessed by having children.

The meat of the question, as I understand it, is connected solely with the rights of the tenant on and after the expiration of the contract or lease. The contract having expired, the tenant has no right to remain.

Respectfully yours,

STEPHEN STONE,
City Solicitor.

Which was read.

Mr. Garland moved

That the communication be received and filed.

Which motion prevailed.

Mr. John S. Herron, President,
Council of the City of Pittsburgh,
Pittsburgh, Pa.

Dear Mr. Herron—In behalf of my sisters and brothers and myself, I wish to thank, through you, the members of the Council of the City of Pittsburgh for the engrossed copy of the resolutions adopted by them in memory of our father.

The expression of sympathy by the Council and the thoughtfulness which prompted this action is very deeply appreciated by us.

I beg to remain,

Most gratefully yours,

GEORGE S. OLIVER.

No. 2373.
CITY OF PITTSBURGH, PA.
March 17, 1919.
President and Members of Council
of the City of Pittsburgh.

Gentlemen—I hereby nominate, to serve during my term of office as Mayor of the City of Pittsburgh, Lieutenant-Colonel B. L. Succop to be Police Magistrate.

This nomination is submitted in keeping with the action of your Honorable Body in appropriating the money necessary to provide an additional Police Magistrate. It is my desire to re-establish the South Side Police Court.

Lieutenant-Colonel Succop is 41 years old, has a wife and two children and lives at 1110 Carson street. He is at present the highest ranking officer of the old Eighteenth Regiment. He saw service in the Spanish-American war and also on the Mexican border. He has just returned from France, where he served his country with great distinction as lieutenant-colonel of the One Hundred and Eleventh Infantry. During his con-

nection with the One Hundred and Eleventh Infantry he was the summary court officer of his regiment. Previous to his going to the front he was in the real estate business.

Lieutenant-Colonel Succop is a high type of a man. His character, temperament and education and experience as summary court officer of his regiment, in my opinion, eminently fit him for the position.

Very respectfully yours,

E. V. BABCOCK,
Mayor.

Which was read.

Mr. Winters moved

That the communication be received and filed and the appointment of the Mayor confirmed.

Mr. Winters arose and said:

"Mr. President, it is with a great deal of pleasure that I move to have the nomination of Lieutenant-Colonel Succop as Police Magistrate confirmed by Council.

"I have known Colonel Succop since birth. He was born within a square of my birthplace, and we have been good friends all our lives. I know he will be a credit to the administration and to the City of Pittsburgh. I think he has the sense of responsibility of the position to administer the duties in a way which I believe is the proper one for a Police Magistrate.

"Lieutenant-Colonel Succop is a high type of man. He has the temperament and humanity and the good common sense, together with his military training, to make a good Police Magistrate; and if he makes as good a Police Magistrate as his father, who occupied the same position on the South Side, I know he will prove entirely satisfactory.

"I take it that the Mayor's appointment is largely a recognition to the soldier boys who went from this vicinity to help win the world war, and Colonel Succop has an enviable record in that war. He served in the National Guard and Army for twenty-two years, having seen service in the Spanish-American war, on the Mexican border, and more recently in the great world war. It was his privilege and honor to participate in the second battle of the Marne, when the Huns were turned back and which made it possible for the Allies to save the world for civilization; just as the boys from Pennsylvania turned back the Confederate army at Gettysburg and saved the Union. He was in the battles of Chateau Thierry, the Marne and Pismes, and when the armistice went into effect he was standing on the firing line, just outside the strongly fortified city of Metz, with his watch in his hand to

signal that the time had arrived to stop hostilities. It was at this place that the Americans were preparing their offensive preparatory to capturing this strongly fortified city.

"This appointment of Colonel Succop is not only a compliment to the soldier for his military record, but is also a compliment to the type of man he is. His personal character and his personal standing in the community makes a very good combination with his military record, and I think Mayor Babcock should be complimented on his appointment."

Mr. **Rauh** arose and said:

"Mr. President, it gives me great pleasure to vote for the confirmation of the Mayor's nomination of Lieutenant-Colonel Succop as Police Magistrate. The Mayor is to be complimented for selecting a man of the type of Mr. Succop and also for the reason that the position, being on the South Side, should be filled by a man from that section of the City. Mr. Succop's military training eminently fits him for the position."

Mr. **McArdle** arose and said:

"Mr. President, I want to say that I am pleased to be able to support with so much satisfaction to myself the appointment that the Mayor has made. I have had the pleasure of an acquaintance with Lieutenant-Colonel Succop for several years, and whether he had achieved the record that is now his in the military service or not, he would still come to us splendidly equipped and fitted for the performance of the duties that will be his under this appointment. I am extremely glad that the Mayor has made such a wise choice in the selection of the man who has to do this extremely important work, and it is with gratification that I vote for the confirmation of Lieutenant-Colonel Succop's appointment."

Mr. **English** arose and said:

"Mr. President, having cast the deciding vote in Finance Committee to include in the budget the appropriation for one additional Police Magistrate, it gives me pleasure at this time to vote for the confirmation of the appointment of Lieutenant-Colonel Succop."

"It is an honor as well as a pleasure to have the opportunity to welcome to the service of the City a man who has served our country so well. Lieutenant-Colonel Succop is well equipped to serve the City. This opportunity argues well for the future, and I hope His Honor, the Mayor, will continue to appoint men of the temperament, character and ability of Lieutenant-Colonel Succop."

Mr. **Burke** arose and said:

"Mr. President, as one member who voted against the creation of another

position of Police Magistrate, I want to say that it gives me great pleasure to second the motion of my colleague and esteemed friend of the South Side for the confirmation of the appointment of Colonel Succop. Mayor Babcock is to be commended for selecting such a man as Lieutenant-Colonel Succop. I have known him for a good many years. He is well fitted and well qualified to perform the duties of a Police Magistrate, and he will do splendid service and will be a credit to the City of Pittsburgh."

MOTIONS AND RESOLUTIONS.

Mr. Rauh presented

No. 2381.

THE RIGHTS OF A TENANT.

A bill which has been introduced at Harrisburg "concerning landlords and tenants and to afford relief to tenants where excessive rents are charged," offers the vehicle by which the problem of the dispossessed or "boosted" tenant, which has been a continuing disturbance in Pittsburgh for the past six months and is

just now becoming aggravated, may be reached for investigation and discussion.

Reduced from its legal verbiage of the statute, the measure provides, in substance, that where a landlord shall seek to oust a tenant or by similar process shall attempt to advance the rent from the price agreed upon at the time of hiring, and the tenant shall allege that the new demand is exorbitant, the latter shall have the right of appeal to the Court of Common Pleas in the County, and that his petition setting up the claim that the rental asked is unfair or unreasonable shall act as a stay on the writ of dispossession. Within thirty days the court shall grant a hearing and if, in its judgment, the claim is well founded, an issue shall be ordered to be tried before a jury, who may determine what shall be a fair rental for the property.

Hundreds of families in Pittsburgh who lay no claim to familiarity or even understanding of all the intricacies of the law of property and, therefore, will not attempt to argue legal points involved, will feel that the proposed law squares with what is to their mind justice and equity, and because it appears to reach and remedy what in their recent experience has cut deeply as an act of injustice, its spirit and purpose deserve to be recognized, even if in its present form it may be open to objection.

The complaints of the tenant householders in the City, which have been recurrent since a sudden influx of workers and their families created an acute condition in the housing supply of the City last year, are not wisely to be ignored or lightly treated. The actual shortage in the housing supply which existed for a time no longer exists in equal degree. New construction, under Federal patronage, has offered some relief, and still more has been afforded by the scattering of the temporary population. But, in spite of these changed circumstances, which should have their effect in the operation of the law of supply and demand, rentals are even more difficult to obtain in the City than they were six months ago, and the tenant with no place to go is at the mercy of his landlord, who may require him to pay an arbitrary advance in rent or may ask him to buy at an arbitrary price, with no alternative of rental. The terms in either case may be grossly unjust, if the landlord be so minded, but the tenant who must maintain a roof over his head and those of his family has no redress or recourse. Such a situation is by no means imaginary but is an accurate statement of the situation in which many tenants have found themselves and to which they have been compelled to accommodate their budgets, already hard pressed by general living prices.

Resultant murmurings and discontent are not surprising, and if it be true that

the law of the Commonwealth, as it stands today, provides no recourse and relief for them, it ought to be recognized as the part of good and wise law-making to search out the facts of the situation in detail and to devise an adequate statute of relief. Speculation to the extent of manipulating corners and forcing artificial levels of prices in the food markets and the necessities of life is generally condemned, although law has not been found adequate to prevent it, but none of these abuses is more serious in its effect on the community than the application of such tactics in the market of homes.

Which was read and, on motion of Mr. **Rauh**, received and filed, and ordered printed in full in the Record.

Mr. **Robertson** presented

No. 2382. Resolved, By the Council of the City of Pittsburgh, that the improvement of the Pittsburgh, Butler and Erie state highway, from the boundary line of the City of Pittsburgh, where said highway connects with East Ohio street in said City, northeastwardly through the Borough of Millvale and a portion of Shaler Township, to the Borough of Etna, a distance of approximately one and one-half miles, thus connecting the City of Pittsburgh with the proposed 1919 State improvement of said highway to Butler and northwardly therefrom to the Mercer County line, as indicated by Hon. Lewis S. Sadler, State Highway Commissioner, on February 14, 1919, when, in conference with the committee representing the Pittsburgh, Butler and Erie State Highway Association, be and the same is hereby endorsed; and be it further

Which was read a first time.

MOTIONS AND RESOLUTIONS.

Mr. Robertson presented

No. 2424. Whereas, The Twenty-third ward of the City of Pittsburgh is one of the most densely populated wards of the City and has no playground; the children being compelled to play on the streets, thus endangering their lives by reason of the excessive automobile and vehicle traffic on these streets; and

Whereas, If given permission to play in the East Park, the danger from acci-

dents would be greatly lessened; therefore, be it

Resolved, That the Director of the Department of Public Works be authorized and directed to allow the children the use of the entire East Park, east of Federal street, for playground purposes.

Which was read and referred to the Committee on Public Works.

Also

No. 2425. Whereas, The Good Roads Convention, held in the City of Erie, Pa. on January 20, 1917, selected the highway from Pittsburgh to Erie to be known as the "Perry Highway," to be rebuilt and reconstructed as a paved road extending from Pittsburgh to Perrysville, to Wexford, to Zellenople, to Porterville, to Harlansburg, to Mercer, to Sheakleyville, to Meadville, to Saegertown, to Venango, to Edinboro, to McKean and to Kearsarge, to Erie; and

Whereas, The Perry Highway is the most direct road from Pittsburgh to Erie the two largest cities in Western Pennsylvania, and its improvement will afford the farmer an all-year round market for his product; will encourage agricultural pursuits and will benefit the City merchant by reason of better transportation facilities; and

Whereas, The Pittsburgh district justly demands a trunk line road by the shortest and best route to the City of Erie; and

Whereas, The Perry Highway Association, a chartered organization, has encouraged the prompt construction and maintenance of the Perry Highway as a paved, permanent, commercial and military highway, and has the endorsement of the Chamber of Commerce of Pittsburgh, the Automobile Club of Pittsburgh, the North Side Chamber of Commerce of Pittsburgh, the Board of Commerce of Erie and many other organizations throughout the several counties traversed by the Perry Highway; therefore, be it

Resolved, That the Council of the City of Pittsburgh petition Governor William C. Sproul, of the State of Pennsylvania, and Highway Commissioner Lewis S. Sadler, of the State Highway Department, to improve the said Perry Highway and maintain it as a broad, hard-surfaced, permanent, commercial and military highway and that from this improvement lateral roads be constructed to county seats and other principal cities and towns.

Which was read.

Mr. Robertson moved

The adoption of the resolution.

Which motion prevailed.

Mr. English presented

No. 2426. Whereas, The safety, comfort and welfare of the people of Pittsburgh and surrounding districts have been abused and menaced for years through the inability of the Pittsburgh Railways Company to maintain a decent and adequate street car transportation system; and

Whereas, It is only a matter of time until some change or reorganization of the Pittsburgh Railways Company must take place; and

Whereas, The City of Pittsburgh should be in a position to control the Pittsburgh Railways Company to furnish decent and adequate transportation, including rapid transit at reasonable cost; therefore, be it

Resolved, That the Council and the Mayor hereby direct the attention of the people to careful study of Section 15, Article 9, of the Pennsylvania State Constitution, as amended November 1, 1913, which section permits the City of Pittsburgh to acquire and construct subways and street railways; and be it further

Resolved, That the matter of street car transportation and rapid transit be submitted to the voters of the City of Pittsburgh at the municipal election for bond improvements and, in order to avoid confusion, that a separate ballot be provided; and be it finally

Resolved, That if any item regarding transit or street car transportation is submitted to the electorate, said item shall contain a clause which shall require that control of any transportation system which might be purchased or built by the City shall always remain in the hands of the people.

Which was read and referred to the Committee on Public Service and Surveys.

Mr. Robertson presented

No. 2427. Resolution authorizing the issuing of warrants not to exceed in the aggregate the sum of \$— for the purpose of defraying the operating expenses of the Women's Employment Committee of the Council of National Defense, to be disbursed upon vouchers and payrolls to be approved and certified by the Mayor, and charging same to Appropriation — until such time as Congress shall appropriate the necessary funds to defray the expenses of said committee.

Which was read and referred to the Committee on Finance.

And, on motion of **Mr. Winters**,

Council adjourned.

March 24 1919.

President and Members of
City Council.

Gentlemen—I am enclosing herewith copy of a letter I received from Controller E. S. Morrow, relative to the matter of paying bills. Under this order, it will be practically impossible to comply with the conditions set up by the Controller, as in many cases we are unable to secure more than one bid on supplies which are only made by one firm. Therefore, the fulfilling to the strict letter of his orders will not be to any economy, and will, no doubt, result in hardships in many cases. I am enclosing you this letter with the idea that you may be able to do something to relieve conditions.

Yours very truly,

JOHN SWAN,
Director.

DEPARTMENT OF CITY CONTROLLER.

March 21, 1919.

To the Directors.

Gentlemen—A grave question has arisen as to the operation of the Act of 1874 in relation to bills contracted without due process of law. From the first day of April next I shall refuse payment by resolution for the purchase of goods or for work and labor done where the legal requirements have not been complied with.

In a letter sent your departments during January, 1918, I outlined a method which I believed would be legal, but the practice has grown to such an extent that it has been carried beyond legal limits. I provided the Department of Supplies with a stamp carrying the certification needed in this office to show that the goods purchased were purchased in conformity with law.

Work for which an ordinance could and should have been passed and bids solicited, and which have amounted to

over the \$500.00 limit, have been contracted and paid by resolution. The law of 1874 does not, nor was it intended to cover, cases of this character, and I feel compelled to warn you against this violation of the law.

The Act of 1874 also provides that for all labor and material furnished there must be a contract. If you desire to carry on the present practice your only way will be to have the Charter Act amended in order to allow the privilege. A fixed price per month for the performance of work, laundry, as an instance; this work is paid by the month and in a year amounts to over the \$500.00. Therefore, it requires an ordinance authorizing the contract and directing the entering into one, showing the estimated cost for the year, in order to comply with the law, which requires me to set aside a sufficient sum for the use of the contractor.

I trust this warning will be sufficient, as I will refuse to pay bills for which there is not a proper contract. Then, instead of a resolution, the Director himself or the Bureau Superintendent issuing the order may be held liable. Kindly send out notices to your several superintendents of my intention.

Respectfully,

(Signed) E. S. MORROW,
City Controller.

DEPARTMENT OF PUBLIC WORKS.

Pittsburgh, Pa., March 25, 1919.

Committee on Public Works,
City Council.

Gentlemen—Referring to Council Bill No. 2099, being a resolution that the Director of the Department of Public Works furnish Council with an estimate of the cost of widening and improving East Carson street, from South Twenty-seventh street to the City line, etc., I attach hereto a complete report on the same from Division Engineer Arthur, of the Bureau of Engineering. From Mr. Arthur's report it would seem that this would cost at least \$1,000,000.00 and, to my mind, the cost of this improvement is entirely out of proportion to the benefits that would be derived from the same.

In view of the fact that the County is only contemplating a 24-foot roadway, it would seem that if our present roadway were widened to 36 feet, by narrowing the sidewalk 3 feet on each side, it would answer fully all the purpose required and save this great amount of property damage.

Yours very truly,

JOHN SWAN,
Director.

CARSON STREET EAST

March 12, 1919.

W. E. Gelston,

Assistant Chief Engineer,
Bureau of Engineering.

Dear Sir—In reply to the attached letter relative to Council Bill No. 2099, being a request for an estimate of the cost of widening Carson street East, from South Twenty-seventh street to the City line, etc., I beg to advise that I have made a preliminary estimate of the cost of this improvement, this estimate amounts to \$881,000.00 for property taken for the widening of this street to a width of eighty (80) feet.

In order to arrive at a more accurate estimate it will be necessary to have a complete survey made of this street, showing the individual holdings and buildings, extending back one block on either side of Carson street East. The engineering forces in this division are very limited and at the present time all are engaged on very important work and should not be diverted to this, unless it is thought advisable to enter into more minute details for the estimate.

Carson street East is now opened to a width of fifty feet, between South Twenty-seventh street and the City line, is improved with a thirty-foot roadway, on which is built a double track car line, and has two ten-foot sidewalks.

From the City line eastwardly through St. Clair Borough and Baldwin Township, the County has an open thirty-three foot road, which it proposes to improve with a twenty-four foot roadway. The Railways Company has a single track car line in operation over the present road.

I believe it should be the policy of the City to secure suitable connections between the primary street system and the principal improved highways leading from the City to the principal center of population outside of the City's limits. In this particular case, however, the extension of Carson street East beyond the City line is located between the P. & L. E. R. R. on the north and the tracks of the Monongahela Division of the P. R. R. on the south. The space between the tracks of these companies is very limited, and it is doubtful if at any future date the County will be able to widen the street to a width in excess of its present thirty-three foot road.

The fifty-foot street leading to the City line will undoubtedly accommodate as much traffic as the new County road leading towards McKeesport from the City line, and street system of the City co-ordinates as well with the highway system of the County in this particular case, under present conditions, as though Carson street East were widened to a width of eighty feet to conform with this street as at present opened between

South Seventeenth and South Twenty-seventh streets.

There are no arterial streets leading into Carson street East between South Twenty-seventh street and the City line. The first artery leading off the extension of this street is at Beck's Run, which extends up into Carrick Borough.

In order to widen Carson street East it would be necessary to take property on the southerly side from South Twenty-seventh street to South Thirty-first street; thence crossing diagonally to the northern side at South Thirty-second street, and from that point to the City line widening entirely on the northerly side.

On account of the cost of this proposed improvement, together with the reasons already stated, I would suggest that the street be left at its present width, and the sidewalks narrowed, so as to give a uniform width of roadway of at least 36 feet, which would provide ample space for vehicles to pass outside of the car tracks. A slight change of grade could be made near South Thirty-fourth street.

These two changes, in connection with the repaving of the street, would, I believe, give all the advantages of the widened street. The estimated cost, as stated above, I feel certain, is low, and if worked out in detail would increase the estimate to at least \$1,000,000.00.

Very truly yours,

U. N. ARTHUR,
Division Engineer.

DEPARTMENT OF PUBLIC WORKS.

Pittsburgh, Pa., March 29, 1919.

The President and Members,
City Council.

Gentlemen—Referring to Council Bill No. 2386, that the Director of the Department of Public Works be and he is hereby requested to furnish Council with an estimate of the cost of improving Baker street, from Butler street to Morningside avenue, I beg to advise as follows:

Baker street, between Butler street and Morningside avenue, is laid out to a width of sixty feet, with rates of grade varying from 5 per cent. to 8.5 per cent. The length of the improvement is 2,200 feet. The improvement, upon which the following estimate is based, contemplates paving a twenty-foot roadway and the construction of one five-foot sidewalk. The abutting property is undeveloped and very hilly and is susceptible of very limited development.

The estimated cost of grading, paving and curbing, in accordance with the foregoing dimensions, is \$100,000.00, and of this amount we estimate that 90 per

cent. of the cost, or \$90,000.00, would be assessed against the City, for the reason previously stated. The improvement, however, is general in character, and would provide a very desirable connection between Butler street and the Morningside district, and would make a valuable extension to the highway system of the City.

Yours very truly,

JOHN SWAN,
Director.

Which were severally read and referred to the Committee on Finance.

UNFINISHED BUSINESS.

MOTIONS AND RESOLUTIONS.

Mr. Garland presented

No. 2459. Whereas, The Fifteenth Engineers were among the first American troops to land upon the soil of France, shortly after the declaration of war by this Nation, and have been engaged continuously since that time, a period of almost two years now; and

Whereas, The members of Pittsburgh City Council, in session assembled, do not wish to even suggest anything that may handicap our National Government in bringing to a satisfactory settlement the great questions involved, we earnestly and respectfully express the thought that if American troops are still needed in France, those who have been so long there can be recalled and be replaced by others from this side; and

Whereas, The mothers and fathers of the boys constituting the Fifteenth Engineers have been and are willing to make any sacrifice which is necessary to secure a lasting peace, they feel that, under existing conditions, those who have been there so long should be relieved and that the regiments which were first to arrive on the battle lines and served the longest should be the first to come home; therefore, be it

Resolved, That we request the Secretary of War to hasten the return of the Fifteenth Engineers and that copies of this resolution be forwarded to Governor William C. Sproul and United States Senators Bois Penrose and P. C. Knox, with the request that they take the matter up and lend their support to this request.

Which was read.

Mr. Garland moved.

The adoption of the resolution.
Which motion prevailed.

Mr. English presented

No. 2460. Whereas, The patriotic mothers and fathers of the soldiers of Pittsburgh and vicinity have borne with patience and forbearance the stress and strain of the great war; and

Whereas, Some of these noble parents are suffering keenly, owing to the uncertainty of the return of the boys who were in battle and active service with the Fifteenth Engineers and the One Hundred Eleventh Engineers and other Pittsburgh soldiers; and

Whereas, The members of Council are informed that thousands of soldiers who arrived in Europe shortly before the armistice of November 11, 1918, have already returned without having reached the front-line trenches; and

Whereas, It is difficult to explain to parents and other relatives of the early volunteers the reasons for the delay in the return of their loved ones; now, therefore, be it

Resolved, That the President of the Council of the City of Pittsburgh is hereby authorized and directed to appoint a committee of Council to call on the Secretary of War and other government officials and urge that the return of Pittsburgh soldiers be hastened and definite sailing dates be announced, to relieve the anxiety of the people of Pittsburgh and vicinity.

Which was read.

Mr. English moved

The adoption of the resolution.
Which motion prevailed.

And the Chair appointed as members of said special committee Messrs. English, Dailey, Robertson and Winters.

Also

No. 2461. Resolved, That the Council of the City of Pittsburgh hereby endorses and encourages the efforts of the County Commissioners, Messrs. Gumbert, Harris and Myer, to interest Mr. Henry Ford in this community as a location for new automobile factories; and be it further

Resolved, That Council offers to the County Commissioners the support and co-operation of the City of Pittsburgh in this effort to secure new factories for the Pittsburgh district.

Which was read.

Mr. English moved

The adoption of the resolution.
Which motion prevailed.

Mr. Robertson presented

No. 2462. Whereas, House Bill

No. 923. Session of 1919, proposes to further amend the Act of June 7, 1879, and its amendments, which Act, with its amendments, now provides that three-fourths of the net amount of tax on the return of property subject to taxation for State purposes shall be returned by the State Treasurer to the County paying such tax, so that the Amended Act shall provide for the return of only one-half of such tax to the County; and

Whereas, The passage of said Amended Act will deprive the Counties of the State, more particularly the County of Allegheny, of a large proportion of their revenues; and

Whereas, It is the belief of this Council that the diverting of such tax from the Counties will necessitate the placing of an additional tax upon real estate, and thereby injuriously affect the interests of the citizens of Pittsburgh; now, therefore, be it

Resolved, That the Mayor and the Council of the City of Pittsburgh hereby protest against the passage of said House Bill No. 923, and that copies of this resolution be sent to the Governor of the Commonwealth of Pennsylvania the members of the Senate and House for Allegheny County and to the said County Commissioners of Allegheny County.

Which was read.

Mr. Robertson moved

The adoption of the resolution.

Which motion prevailed.

The Chair presented

No. 2463.

CITY OF PITTSBURGH, PA.

March 31, 1919.

President and Members
of Council of the
City of Pittsburgh.

Gentlemen—I hereby nominate and appoint to service during the remainder of my term as Mayor, Charles A. O'Brien, Esq., to be City Solicitor of the City of Pittsburgh, vice Stephen Stone, resigned; said resignation became effective at 9 A. M. on Monday, March 24, 1919, as is evidenced by a copy of the resignation of Mr. Stone, dated the 22nd inst., attached hereto.

Great changes in the personnel of the Department of Law should not now take place, for I believe that the best results will be accomplished if the members thereof remain practically as at present.

While many men in the Law Department have been connected therewith for several years and the entire force has worked during my administration honestly and zealously for the best interests of our City, I am reminded of the fact

that Mr. O'Brien has rendered the City ten full years of service and during that time has devoted himself almost exclusively to the study and practice of municipal law. I, therefore, commend him to your favorable consideration.

Very respectfully yours,

E. V. BABCOCK,
Mayor.

DEPARTMENT OF LAW.

Pittsburgh, Pa., March 22, 1919.

My Dear Mayor—I hereby tender my resignation as City Solicitor of the City of Pittsburgh, the same to become effective at 9 o'clock A. M., on Monday, March 24, 1919. I set this time for the reason that shortly thereafter I contemplate being qualified as one of the Judges of the Court of Common Pleas of Allegheny County—a great honor, to be appreciated by any member of the Bar.

When I became City Solicitor in January of 1918, I fully expected to serve in such capacity during your term as Mayor. The pleasant associations which I have had with you and with the other members of your cabinet and with the Council will always remain with me as a cherished recollection.

The Law Department of the City of Pittsburgh is one of the most important branches of the City government, and I have had competent and efficient assistants throughout the department, and whatever success I have had as City Solicitor I owe in a great measure to them.

I leave the City Law Department regretfully, for my relations with everyone connected therewith have been extremely cordial. While this is all true, I must state very frankly that I regret exceedingly the severing of the cordial relations existing between you, as Mayor, and me, as City Solicitor, but I hope and trust as the years roll by our friendly relations will always continue.

Respectfully yours,

(Signed) STEPHEN STONE.

Which was read.

Mr. Robertson moved

That the communication be received and filed.

Which motion prevailed.

Mr. Garland moved

That the appointment of Mr. Charles A. O'Brien as City Solicitor be confirmed.

Upon which motion the ayes and noes were ordered taken, agreeably to law, and being taken were:

Ayes—Messrs.

Dalley McArdle
English Robertson
Garland Winters
Herron (President)

Ayes—7.

Noes—None.

And a majority of the votes of Council being in the affirmative, the motion prevailed.

Mr. Dalley moved

That the Mayor be requested, when filling the vacancy which will no doubt exist by the elevation of the First Assistant City Solicitor to City Solicitor, to consider William Jacob, Esq., who was an Assistant City Solicitor and who resigned to enter the Aviation Corps when our country entered the war against Germany; Mr. Jacob having the necessary qualifications for the position, and having recently returned with an honorable discharge from the army.

Mr. Dalley said:

"Mr. President I know it is unusual to offer this resolution, but as there will be a vacancy in the Law Department by reason of the elevation of Mr. Charles A. O'Brien to the position of City Solicitor, I think it is opportune to state that when we entered the world war Mr. Jacob, who was then an Assistant City Solicitor, enlisted in the Aviation Corps and sent his resignation to Mayor Armstrong. Mr. Jacob has returned to Pittsburgh with an honorable discharge. He is well qualified to perform the duties of an Assistant City Solicitor, so I am informed, and I believe he should be given his former position.

"I know also that the appointment will be made by the City Solicitor, but my reason for asking the Chief Executive of the City to give it his consideration is prompted by the fact that the Mayor, in an address, later published in pamphlet form, says in part: 'No man returning from the camp, or from France's bloody fields, will find his place occupied by another, so far as our efforts can control. No draft evader should be allowed to shut out the Pittsburgh boy who has bared his breast to German bullets or who has gone through the mill of the mobilization camp.' I believe this is an opportunity to place a returning soldier in a position from which he resigned. I say again this is an unusual procedure, but it is a deserving case.

"Mr. President, the majority of the members of Council know Mr. Jacob could have taken advantage of drawing half pay from the City while he was away, but he did not do it. His work in the Law Department was always satisfactory, so I am told, and, to my mind, here is an opportunity to place a soldier in a position he is capable of filling. I

do not know if Mr. Jacob is an applicant, but, as His Honor, the Mayor, is on record for giving returning soldiers preference so far as positions are concerned, the young man should at least be considered."

Upon which motion Mr. Dalley demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were ordered taken, and being taken were:

Ayes—Messrs.

Dalley Herron (President)
English Robertson

Noes—Messrs.

Garland Winters

When the name of Mr. Garland was called he arose and said:

"Mr. President I am opposed to the motion because I think it is a function wholly outside the Council's duty, and we are simply butting it, if I may use that expression."

When the name of Mr. McArdle was called he arose and said:

"Mr. President, for the reason that I don't believe it is a proper subject for Council to pass upon, I want to be recorded as not voting."

When the name of Mr. Winters was called he arose and said:

"Mr. President, for the reason that I think it is absolutely unwise for Council to meddle in such affairs I vote No."

Ayes—4.

Noes—2.

And a majority of the votes of Council being in the affirmative, the motion prevailed.

Mr. Winters moved

That it is the sense of Council that we recommend to His Honor, the Mayor, and the City Solicitor for their consideration in filling the position of First Assistant City Solicitor the name of Thomas M. Benner, Esq.

Mr. McArdle arose and said:

"Mr. Chairman, I take the position that it is not within our power to make any recommendations to the Mayor or the City Solicitor as to whom they shall appoint for the fulfillment of jobs which are created by ordinances passed by Council. I want to make this observation, that the logical application of the theory involved in this motion would inevitably inject into Council a system which would be subservient to the interests of the City and, in my judgment, result in a constant turmoil and inefficiency. For that reason I think the motion is out of order and should be so ruled by the Chairman."

Mr. Winters arose and said:

"I agree with the gentleman and voted 'No' on the previous motion because I think we have no jurisdiction in the matter. I am not serious about this motion and believe that the motion is out of order and, therefore, I desire to withdraw the motion."

Mr. English:

"Mr. President, a mover of a motion cannot withdraw it without the consent of this body."

Mr. Garland moved

That the consent of Council be given to the maker of the motion to withdraw it.

Upon which motion Mr. English demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were ordered taken, and being taken were:

Ayes—Messrs.

Dailey	McArdle
Garland	Robertson
Herron (President)	Winters

Noes—Mr.

English

Ayes—6.

Noes—1.

And a majority of the votes being in the affirmative, the motion prevailed.

And the motion was withdrawn.

Mr. Winters moved

That the following members be excused for absence from Council and committee meetings:

Mr. Burke on February 17, 19, 25, 28, and March 4, 10, 11, 12, 24, 28 and 26, 1919.

Mr. Dailey on February 4, 17, and March 18 and 25, 1919.

Mr. English on February 4, 10, 24, 28, and March 3, 4 and 26, 1919.

Mr. Garland on February 6, 17, and March 20, 1919.

Mr. Bauh on February 13, 18 and 28, 1919.

Mr. Robertson on February 17, and March 3 and 4, 1919.

Which motion prevailed.

And, on motion of Mr. Garland,
Council adjourned.

The **Chair** presented

No. 2494.

DEPARTMENT OF CITY
CONTROLLER.

Pittsburgh, April 7, 1919.

To the Council.

Gentlemen—After April 1 all City advertising must be done under orders issued by the City Controller and printed strictly in accordance with law. The law will be found in Article XV of the City Charter, which prescribes the manner and method. The legal papers are the Post, Sun and Leader.

The only exceptions to this ruling are those ordered by the Courts.

Respectfully,

E. S. MORROW,
City Controller.

Also

No. 2495.

DEPARTMENT OF PUBLIC WORKS.

Pittsburgh, April 3, 1919.

Mr. John S. Herron

President of Council.

Dear Sir—The Denny Estate, through their representative, Mr. Cree, have tendered us the use of vacant property held by them on Liberty avenue, between Thirty-ninth and Fortieth streets. These grounds could be laid out to make a perfectly good baseball field, as I understand this property has been used for baseball purposes for a number of seasons. They offer us a lease on this property for the exoneration of taxes.

I am submitting this proposition to you to ascertain your desire in this matter.

Yours very truly,

JOHN SWAN,
Director.

Which motion prevailed.

The **Chair** stated

That the Minutes would lay over until the next meeting of Council.

Mr. **Robertson** presented

No. 2508. Whereas, We are advised that the Secretary of War has renewed his peremptory order to the County Commissioners of Allegheny County for the raising of the Federal street, the Seventh street, and other bridges across the Allegheny river, and we, the Council of the City of Pittsburgh, are desirous of recording our earnest and strenuous objection to the execution of said order at the present time; we join with the County Commissioners in their

statement of protest and heartily concur in reasons given by them for the inexpediency and hardship on this whole community of the contemplated action of the government in the premises. The enormous cost of this project under present conditions, as compared to what it would be in normal times, is of itself sufficient reason, we firmly believe, for postponement of this action.

The supposed benefit to navigation at this point, to result from the raising of these bridges is in no way and in no sense a justifiable reason for the excessive burden to which the County of Allegheny and the City of Pittsburgh will be put if the Secretary's order is to be peremptorily carried out; therefore, be it

Resolved, That Council sincerely and earnestly urge that the said order be rescinded until such time as the same may be carried out without imposing and exacting hardships on the community.

Which was read.

Mr. **Robertson** moved

The adoption of the resolution.

Which motion prevailed.

Mr. **Bauh** moved

That a copy of the resolution be submitted to the board of directors of the Chamber of Commerce.

Upon which motion Mr. **Burke** demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were ordered taken, and being taken were:

Ayes—Messrs.

Burke	Rauh
Dalley	Winters

Noes—Messrs.

English	McArdle
Herron (President)	Robertson

Ayes—4.

Noes—4.

And there not being a majority of the votes in the affirmative, the motion did not prevail.

Mr. **English** moved

To reconsider the vote by which the resolution was adopted.

Which motion did not prevail.

Mr. **McArdle** presented

No. 2509. Whereas, House Bill No. 117 is now pending in the Legislature, which bill is intended so to amend Section 4 of the Act of 1913, creating the Public Service Commission, as to confer discretionary power on the Commission in the matter of suspending increased rates by public service companies upon hearing, etc.; and

Whereas, We deem this amendment to the existing law as of vital importance

to the people of this community. Ever since the enactment of our Public Service Commission law there has been arbitrary and abusive action upon the part of the Pittsburgh Railways Company in the matter of increased fares, and the rebate system adopted and put into effect by said company is troublesome and burdensome and results in a considerable injustice to the public, from whom unreasonable exactions have been made; now, therefore, be it

Resolved, That the Council and the Mayor of the City of Pittsburgh do earnestly endorse and recommend the passage of said amending Act by the Honorable, the House and Senate of Pennsylvania.

Which was read.

Mr. McArdle moved

The adoption of the resolution.

Which motion prevailed.

Also

No. 2510. Whereas, Representations have been made to the Mayor and to the Chamber of Commerce by the North Side Board of Trade that there is an imminent danger of the closing down of the plant of the American Locomotive Company, located in the Manchester district; and

Whereas, The American Locomotive Company owns and operates other large locomotive plants in other parts of the United States; and

Whereas, Pittsburgh and its environs through its railroad and large industrial plants, are large users of the products of the American Locomotive Company and require, at their hands, large amount of repair work on locomotives owned and operated by them; and

Whereas, The Pittsburgh district was, in the interest of the successful conduct of the war, almost completely transformed to the production of war material; and

Whereas, The discontinuance of the war has brought to Pittsburgh a serious problem of readjustment to a peace-time basis, the solution of which will require the fullest co-operation of all agencies; therefore, be it

Resolved, That the City Council hereby requests the officials of the American Locomotive Company to favorably consider the continued operation of that plant, at least until such times as industrial and commercial conditions have become more stabilized and Pittsburgh has had an opportunity of putting itself upon a peace-time basis.

Which was read.

Mr. Winters moved

The adoption of the resolution.

Which motion prevailed.

Mr. McArdle moved

That the Clerk be instructed to transmit a copy of the resolutions to the proper persons.

Which motion prevailed.

The Chair presented

No. 2511. Whereas, The ordinance granting the Pittsburgh Junction Railroad Company a right of way from the Monongahela river to the Allegheny river, with a branch along the Allegheny river, approved November 30, 1881, provides that said company shall use as fuel in its locomotives coke or some other non-smoke producing fuel; and

Whereas, During the war, owing to the scarcity of fuel, the company has been using bituminous coal as fuel in its locomotives; therefore, be it

Resolved, That the proper authorities of the City of Pittsburgh be and are hereby requested to enforce the provisions of the ordinance of November 30, 1881, requiring said Pittsburgh Junction Railroad Company to use coke as fuel in its locomotives.

Which was read.

Mr. McArdle moved

The adoption of the resolution.

Which motion prevailed.

Mr. Robertson presented

No. 2512. An Ordinance amending certain portions of Sections 53 and 58, Division of Surveys, of an ordinance entitled, "An Ordinance fixing the number of officers and employees of all departments of the City of Pittsburgh, and the rate of compensation thereof," approved January 22, 1919.

Which was read and referred to the Committee on Finance.

Also

No. 2513. An Ordinance amending parts of Section 1 and Section 2 of an ordinance entitled, "An Ordinance regulating all public performances of moving picture exhibitions; prescribing and defining the arrangements and precautions in buildings, rooms, enclosures or hall in which such exhibitions are given; defining fully the equipment, size, covering, flooring, windows, doors, ventilation, wiring, of all operating booths connected with said exhibitions; licensing of said exhibitions, and providing fines and penalties for violation hereof," insofar as the same relate to seating capacity and exit requirements, approved 9th day of June, 1910.

Which was read and referred to the Committee on Public Safety.

And, on motion of Mr. Winters,

Council adjourned.

UNITED STATES SENATE.

Washington, April 9, 1919.

Mr. E. J. Martin,
Office of the City Clerk
Pittsburgh, Pa.

Dear Sir—Referring to recent correspondence concerning Bill No. 2459, being a resolution adopted by the City Council on March 31, concerning the hastening of the return of the Fifteenth Engineers, I enclose herewith a communication from Major General P. C. Harris, the adjutant general, which explains the situation.

The matter of the return of the Fifteenth Engineers has also been taken up with General Pershing in an effort to expedite their return.

When the enclosure has served your purpose, kindly return for my files.

Yours sincerely,

BOIES PENROSE.

WAR DEPARTMENT.

THE ADJUTANT GENERAL'S OFFICE.

Washington, April 5, 1919.

Hon. Boies Penrose,
United States Senate.

My Dear Senator—I have the honor to acknowledge receipt of your letter of April 4, relative to the probable date of return of the Fifteenth Engineers.

The records of this office show that this organization has been assigned to early convoy, but no advices have been received as to the exact date of sailing. You are assured, however, that the War Department is making every effort to bring back the army from France as rapidly as the exigencies of the military situation will permit and as ocean transportation becomes available.

It is regretted that more definite information cannot be given you in this matter, but the return of personnel now with the American Expeditionary Forces is regulated by the commanding general of those forces.

The enclosures received with your letter are herewith returned as per your request.

Very respectfully,

P. C. HARRIS,
The Adjutant General.

Which was read, received and filed.

Mr. English arose and said:

"Mr. President, at this moment I have just received the following telegram from Congressman Guy E. Campbell, which might be of interest to Council. The councilmanic committee has arranged to get this information just as soon as possible from General March:

"W. Y. English,
Council Chamber,
City-County Building,
Pittsburgh, Pa.

Chief of staff says Sixteenth Engineers sailed Saturday, but Fifteenth has not sailed to date. Will wire upon receipt of this information.

GUY E. CAMPBELL,
M. C."

City Clerk,
Pittsburgh, Pa.

Dear Sir—I am directed by the Secretary of War to acknowledge receipt of your communication of April 2, 1919, enclosing a copy of resolutions adopted by the Council of the City of Pittsburgh requesting that the Fifteenth Engineers be returned from France at an early date, and to advise you that a cablegram lately received from overseas states that this regiment will sail from France between the 5th and 10th of this month.

It is the intention, shortly after the arrival of the Fifteenth Engineers in the United States, to have it stop in Pittsburgh for reception, en route to its demobilization camp, which, at this time, is believed to be Camp Sherman, Ohio.

Very truly yours,

P. C. HARRIS,
The Adjutant General.

DEPARTMENT OF LAW.

April 8, 1919.

To the Honorable,
The Council of the
City of Pittsburgh.

Gentlemen—Pursuant to the terms and provisions of an ordinance entitled "An Ordinance fixing the salaries of the Director of the Department of Public Safety, of the Director of the Department of Public Works and of the City Solicitor at eight thousand (\$8,000.00) dollars per annum each on and after the first Monday of January, 1914, approved December 2, 1913," I send you herewith assignment of docket fees to the City of Pittsburgh, duly executed. I have also sent copies to the Mayor and the City Controller.

Respectfully yours,

CHARLES A. O'BRIEN,
City Solicitor.

MAYOR'S OFFICE.

Pittsburgh, April 14, 1919.

President and Members
of Council of the
City of Pittsburgh.

Gentlemen—February 1, 1919, 73 days ago, after most careful study on my part and careful work and co-operation on the part of the Department of Public Works, I submitted to you a list of much-needed public improvements to be financed by a people's bond issue.

This list embodied the best thought and study of the Pittsburgh Planning Commission who, immediately after the signing of the armistice, November 11 last, took up an intensive study of the subject. The members of the Planning Commission personally visited the location of the proposed improvements and carefully inspected same. At a later date I submitted an additional item, being a downtown subway loop, at an estimated cost of \$6,000,000.00.

I now deem it my duty to reiterate that I am earnestly and devoutly inter-

ested in these improvements and favor them and am constrained to say now that I feel we are losing too much time in bringing the matter to a head. In fact, owing to the conditions we are in, I feel that further procrastination is little short of criminal.

Unemployed labor in our midst is daily increasing. The National Government is urging commonwealths and municipalities to proceed with public work as fast as possible. The new State administration is setting the right kind of a pace, showing the world how to do things. Let us follow their example.

The legislative process necessary to submit this proposition to the people is slow and cumbersome, but should be started and proceed forthwith and not allowed to lag.

This communication is not destined to scold or find fault, but to call your attention anew to the fact that unnecessary time is elapsing, which should not be the case. We should follow up this proposition and submit it to the people with all due diligence and haste, and I hereby urge you to do so.

I will not be able for a few days to be at work in the Mayor's office, but will be glad to see members of Council at my residence at any time to discuss this or other important business.

Very respectfully yours,

E. V. BABCOCK,

Mayor.

Which was read.

Mr. Raub moved

That the communication from the Mayor be received and filed and that Council, sitting as the Finance Committee, set Thursday, April 17, 1919, at 2 o'clock P. M., as the time to commence the consideration of the items for the proposed bond issue, and should the members decide conferences with the Mayor are necessary, the time of the conferences can be arranged at this meeting.

President and Members
of Council of the
City of Pittsburgh.

Gentlemen—I return to you herewith, without my approval, Bill No. 329, "An Ordinance widening Bethoven way, from Harding street to Hancock street, in the Sixth ward of the City of Pittsburgh, etc." for the following reasons:

From information obtained from reliable sources and from the advices of

officials in the Department of Public Works, I am not convinced that there is a real public demand for this improvement at the present time. Its location and character are such that the larger part of the cost would necessarily fall upon the City and would amount to approximately \$40,000.00. Other expenditures in connection with this change would bring the total outlay up to \$50,000.00.

At present prices of labor and material I deem it unwise to take up any public improvements that cannot be classed as absolutely necessary, or, at least, present undertakings in the way of street improvements should be confined to those for which there is great need and a large public demand.

Furthermore, in respect to this improvement, the Bureau of Engineering does not consider the grade satisfactory, nor in harmony with the grades of adjacent streets.

For these reasons I cannot concur in this legislation.

Very respectfully yours,

E. V. BABCOCK,

Mayor.

President and Members

City of Pittsburgh.

Gentlemen—I return you herewith, without my approval, Bill No. 2418, an ordinance repealing Ordinance No. 235, entitled, "An Ordinance widening Dakota street from a point distant 256.68 feet eastwardly from the easterly line of

Bryn Mawr road to a point distant 194.33 feet southwardly from the center line of Iowa street, in the Fifth ward of the City of Pittsburgh," etc., for the following reasons:

No reasons are recited in this repealing ordinance for the action taken. The ordinance was submitted to Council, I am advised, without consultation with or approval of the Department of Public Works and interferes with the well-considered plan of public improvements of the said department. In my judgment, when the Council has passed a public improvement ordinance submitted or fully approved by the Director of Public Works, the same should not be repealed without advising and consulting with the said department and thoroughly considering the subject of repeal of such ordinance from all sides. In this case the director advises me that he was not consulted in the matter of the repeal and states that he does not favor the same.

Furthermore, I am advised that, owing to bad sewage conditions at this point, which are now practically a menace to the public health, that unless this improvement is carried out as planned in the original ordinance, it will become necessary to construct a temporary sewer to meet present demands at a cost of possibly \$6,000.00, which will eventually be a total loss to the City, as there will be therefor no sources of assessment.

In view of these facts, I do not feel that I should approve this legislation.

Very respectfully yours,

E. V. BABCOCK,

Mayor.

City of Pittsburgh, Pa.,

April 11, 1919.

President and Members
of Council of the
City of Pittsburgh.

Gentlemen—I herewith return, without

my approval, Bill No. 2424, authorizing East Park North Side, to be converted into a playground and directing the use of all public parks in the City for playground purposes.

I believe I am in sympathy with the sentiment that prompted Council to pass this resolution; that is, that our parks be used more freely by the children for play purposes, and that they be maintained less for ornamental purposes, and that not only the children but everybody derive more pleasure and comfort out of the parks by more general free use of them. At least I am in full accord with such a plan and shall strive to bring about such results.

This resolution is so loosely drawn that you could drive a team of horses through it. For instance, as I read it, the little breathing spot known as Friendship Park, in front of West Penn Hospital, would be immediately diverted into a children's playground, which is surely not desired by anybody.

While I cannot approve this resolution, I desire that the great mass of our people shall enjoy our parks to the full extreme and that the old signs, "Keep Off the Grass," be removed and new signs, "This Is Your Grass, Enjoy It," replace them. In doing this, however, we must preserve the beautiful and oft-times rare flowers, trees and shrubbery that we have been years and years producing. In other words, we must use our parks and not misuse them.

The North Side is badly in need of grounds devoted to playground purposes, and I shall be pleased to see some movement made along the line of securing same.

Very respectfully yours,

E. V. BABCOCK,

Mayor.

Which was read and, on motion of Mr. Dailey, received and filed.

And

Bill No. 2424. Resolution authorizing and directing the Director of the Department of Public Works to allow the children of the City of Pittsburgh the use of all public parks in said City for playground purposes, provided it shall not endanger other park patrons.

In Council, March 31, 1919. Read and committee amendments agreed to, rule suspended, read three times and finally passed.

Was read.

And on the question, "Shall the resolution become a law notwithstanding the objections of the Mayor?"

Mr. Burke arose and said:

"Mr. President and Members of Council, there is no man more in sympathy

with the idea of allowing children to use the parks of Pittsburgh for recreation purposes than I am, but I want to call your attention to a few things that have come under my observation within the past few days. Only today, when I was on my way over to town, I walked through the parks and I saw seven boys roller skating in the parks, and these boys, through carelessness, would tear up the grass and ground for two or three inches. Another incident occurred when I was going through the park on another occasion. The young boy in my employ at the farm accompanied me, and when we were going through the park we met three boys who whistled to the young man with me, and I asked him who they were, and he said they were boys who broke away from the home at Warrendale. These boys sort of made a rendezvous out of the park, and if this resolution becomes a law these boys would have mingled with the other children in their games and probably done some mischief.

"The resolution does not provide for rules and regulations in the parks; and if there are no rules governing, the children will simply take possession of the park and do what they please. They will have no regard for the trees, shrubbery and flowers. If ball games are played there is always more or less danger of some one being injured.

"I am for the parks being used by the women and children of the city. If more ball grounds are needed, let us put them where they will do the least injury; for instance, set aside a section in the lower end of West Park.

"The former City of Allegheny tried the experiment of allowing the children of the city to use the parks. On account of the excessive damage to trees and other things the practice was stopped.

"I am fearful that the same condition will result if this resolution is put into law. The trees, shrubbery and flowers in the parks will be injured and destroyed if the ground is allowed to be used without any restrictions or regulations.

"If the larger and older boys are allowed to use the parks the small children will be prevented from using them. I say I am opposed to the passage of this resolution, but I will be for an ordinance which will set apart a portion of the park for recreation purposes or provide a day or days each week for use of all the parks. I want to see the women and children enjoy themselves in the parks, but I believe under this resolution, where no restrictions are placed upon the use to which the parks are to be put, the beauty of the parks will be destroyed."

Mr. Robertson arose and said:

"Mr. President, for the reasons given

by Mr. Burke for being opposed to the passage of the resolution, more so should I be for the resolution. He said three boys broke away from the home at Warrendale. Why were these boys committed to this institution? Because they had no place to play and were allowed to sow their wild oats in somebody's back yard or in places where no one could see them. The boys of the North Side are not any worse than the boys of any other district; but if they are not permitted to play in the open, where everybody can see them, they are more or less liable to mischief. One of the objectors to allowing the use of the parks to children came to me and said that he allowed the boys of the district to use his back yard for garden purposes, but instead of the boys making use of the plot for the raising of vegetables and eatables, they made use of the ground for other purposes. They got so bad that he had to restrict them from using the property. They broke his windows. They were concealed in that yard, and nobody knew what they were doing. My purpose is to allow them to play out in the open, where everybody can see them. When children are exposed to view they will not commit crimes.

"If we allow the children to use the parks as playgrounds it will prevent them from being run down on the streets (where they are now compelled to play) by the fast-moving automobile and motor truck vehicles. I believe, too, that they will be better off in the parks than any other place.

"Nobody knows better than Senator Burke that the boy is not as bad out in the open as he would be in some back yard, where nobody can see him.

"The reason no restrictions or regulations were prescribed in the resolution is for the reason that the Director of the Department of Public Works will have jurisdiction of this function, and it will be up to him to make rules and regulations governing these parks. I have confidence in the Director of Public Works that he will see to it that the trees shrubbery and flower beds in the parks will not be destroyed, and that he will set aside special places where the children can play. I don't believe we should wantonly allow the children to use every spot in the park for play purposes. I don't want the children to break down the trees or destroy the flowers. If they do, I believe we have sufficient patrolmen over there to prevent it. Some of the policemen who are sitting around and doing nothing could be used in these parks as watchmen. They do it in other cities; also in River-view Park, Schenley Park and Highland Park, and no one hears of the children destroying the flowers in these parks.

"I believe the children will use and not misuse the parks. The Twenty-third

ward is one of the most thickly populated wards in Pittsburgh, and we should afford every opportunity to these children to prevent them from playing on the streets. I don't think the Mayor understands the matter."

Mr. **Burke** arose and said:

"Mr. President, Councilman Robertson and I are not so far apart on this matter. I fully agree with him, and when I was a boy I loved to play ball and play on the grass.

"Mr. President, there is no question in my mind but that the parks of the City should be open to the people for comfort, for rest and enjoyment.

"During the warm summer months the freedom of the parks to the tired mothers and the little children is a godsend. Stifled by the City's heat, the parks afford a great majority of them the only relief obtainable.

"Our park on the North Side is truly the park of the working people, and is also the pride of the people on the North Side. We want it for the use of the people; we want its beauty kept up; its trees, shrubbery and flower beds taken care of, in order that the enjoyment of the parks may be greater. Unsightly places are seldom attractive, and when repulsive to view, are usually deserted.

"In my opinion it is not good policy to throw open the parks in their entirety for playgrounds. Good judgment should be used in this matter. I believe some restriction should be made, and some part of the parks set aside for playground purposes. We know, for instance, that a group of boys playing ball or any other games are usually so enthusiastic in their games as to be negligent or careless of the rights of others who may be around, some perhaps sitting on the park benches for rest or comfort.

"Recreation for the aged usually takes the form of quietly sitting on the park benches, chatting over past events; mothers securing their enjoyment by seeking shady spots and watching the little tots playing around.

"When parks are open for the public good and for the protection of all and the enjoyment of the greatest number, they serve their purpose, and serve it well.

"As it is my belief that greater good can be accomplished by setting aside a part or parts of the parks for playground purposes, leaving the rest of the park for the enjoyment and benefit of those who find comfort, rest and quiet, I must vote to sustain the Mayor's veto."

Mr. **McArdle** arose and said:

"Mr. President, I think the opposition to this bill is predicated upon a wrong

notion of what the bill is or what it will be after it becomes effective.

"We have, perhaps, appropriated nearly a million dollars for the purchase of playgrounds and recreation centers, and, in addition to that we have converted a great deal more to the same use, which were formerly small parks or property taken on tax liens and in every one of them there is necessity for regulation, even if they are small playgrounds. They are presumed to be there for the benefit of the boy. The Department of Public Works does not take it that a boy is allowed to go in there and do anything he wants. The only thing involved in this is simply a slight change in the policy of the department in the operation of its parks to allow a freer latitude to the children who may make use of it for play purposes; and if the department would not permit in the operation of its playgrounds or recreation centers, boys or patrons of the ground to so conduct themselves as to menace the safety of other patrons of the neighborhood, why they are expected to do the very same thing under this resolution after it passes.

"The Mayor raises the objection about Friendship Park. It seems ridiculous to me that it is presumed by the Mayor or anyone else that we are going to turn Friendship Park into a playground. It is governed already by the rules that govern any neighborhood which surrounds a hospital; and if it is possible to keep the children that live in and around the hospital and Friendship Park within the rules laid down by the department, the same protection will be afforded after the passage of this resolution. The reasons advanced by the Mayor as applying to Friendship Park adjacent to the West Penn Hospital should be no reason why this whole project should be attacked. I don't think the interest of anyone is in danger.

"The measure in time, as the author has explained, will be an element to benefit the boys who are to profit by it, assuming, of course, that the department which will have jurisdiction over them will administer the functions in sympathy with the purposes of the resolution, just as if they were playgrounds bought for that purpose. If the boys in that neighborhood can be controlled, I don't see why they cannot be controlled in the parks. There is lesser danger of them doing evil in the parks, where God's sun is shining upon them and where everybody can see them, than in the dark alleys and by-ways of the City. In the parks the boys and children can spend their energy in constructive play and where their minds can be trained to think of good things. We are now changing our course of thinking more of the grass than the children to that of more of the children and less of the grass."

And the question recurring, "Shall the resolution become a law notwithstanding the objections of the Mayor?" The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Dalley	McArdle
English	Rauh
Garland	Robertson
Herron (President)	Winters

Noes—Mr.

Burke

When the name of Mr. Winters was called, he arose and said:

"Mr. President, the subject to which the parks would be used under the provisions of this resolution was thoroughly discussed prior to the passage of the bill; and, if I recall rightly, the original thought was to allow the women and children in these neighborhoods to take advantage of the green spots in the Allegheny Parks and not in any sense to play baseball or activities of that kind. As I recall it, not even an opportunity is given to do so on those grounds if the boys wanted to do so, because of the trees and shrubbery. That was discussed at the time, and it was the thought of Council that if such things were attempted, it was the duty of the employees of the Department of Public Works in charge of those parks or police department to stop any games that would have a tendency to injure life or property of any person, or mar the pleasure of the women and children.

"We have purchased and set aside the property known as parks for more purposes than merely for people to look at; they have been purchased for the people to use them. I have in mind the statement of the Mayor that the "Keep Off the Grass" signs in the parks should be removed, and I heard different members of Council express themselves on this subject several times, and I think it would be well to try this proposition out; and if the privileges are abused and the abuses continue to such an extent that those in authority cannot stop them, then it will be the duty of Council to rescind its action.

"I believe that all of the objections made by the Mayor can be overcome by sane, sensible and reasonable supervision by those in authority, and that these breathing spots could be enjoyed by those who have little opportunity to get into the country, the outlying districts of the City or in the big parks of the City; and for these various reasons I am for the bill, and will vote for it, notwithstanding the veto of the Mayor."

Ayes—8.

Noes—1.

And there being two-thirds of the votes of Council in the affirmative, the

resolution became a law notwithstanding the objections of the Mayor.

Mr. English moved

That the Director of the Department of Public Works be requested to furnish the Committee on Public Works, by Wednesday of this week, a report giving the names of the officials that gave the Mayor the information he says he received on the Bethoven street ordinance, and also the names of the officials and engineers in the Department of Public Works who prepared the ordinance and submitted it as a proper ordinance for Council to enact into a law.

Which motion prevailed.

Mr. McArdle moved

To reconsider the vote by which Bill No. 2566 (communication from the Mayor) and Bill No. 329 (ordinance widening Bethoven street) were laid over for one week and copies to be furnished each member of Council.

Which motion prevailed.

And the question recurring, "Shall the communication and ordinance laid over for one week and copies furnished each member of Council?"

The motion did not prevail.

Mr. McArdle arose and said:

"Mr. President, my reason for making that motion is to clear the record—to get the ordinance back here and to allow the Chair to declare that there is no action to be taken on the bill by Council."

And

Bill No. 2566.

City of Pittsburgh, Pa.,

April 10, 1919.

President and Members

Was read.

And the ordinance, having been returned by the Mayor without his approval, fails to become a law, under the provisions of the Act of May 22, 1895, which requires that all improvement ordinances under the provisions of said Act be passed by a three-fourths vote of the members of Council and shall be approved by the Mayor.

REPORTS OF COMMITTEES.

Mr. Garland presented

No. 2570. Report of the Committee on Finance for April 8, 1919, transmitting an ordinance and several resolutions to Council.

Which was read, received and filed.

No. 2603.

DEPARTMENT OF PUBLIC WORKS.

Pittsburgh, April 16, 1919.

City Council.

Gentlemen—Referring to Council Bill No. 2101, requesting that:

"The Director of the Department of Public Works be and he is hereby requested to furnish Council with an estimate of the cost of widening and improving Berlin way, between Fifty-first street and Fifty-sixth street."

I beg to advise you that the estimated cost of opening and widening Berlin way, between Fifty-first and Fifty-sixth streets, to a width of 50 feet, is \$343,766.00. The estimated cost of grading and paving is \$43,500.00, making the total net estimated cost of the improvement \$387,266.00.

Yours very truly,

JOHN SWAN,
Director.

No. 2610.

DEPARTMENT OF PUBLIC HEALTH.

Pittsburgh, April 15, 1919.

Mr. E. J. Martin,
City Clerk.

Dear Sir—Referring to your letter of April 8, forwarding a copy of Bill No. 2511, in reference to the Pittsburgh Junction Railroad Company, I beg to advise that in January, 1918, on account of the position taken by the United States Fuel Administrator of this district, this department did not insist upon the use of coke in the locomotives of the railroad in question. At the same

time, the provisions of the general smoke laws were enforced against this company. I have now notified the general superintendent of the Baltimore & Ohio Railroad at Pittsburgh that the use of coke must be resumed.

Yours very truly,

WILLIAM H. DAVIS,

Director.

Which was read, received and filed.

Also

No. 2611. Communication from the Manchester Liberty Loan Committee, asking the members of Council to participate in a parade and mass meeting for the Victory Loan campaign on Tuesday evening, April 22.

Which was read.

Mr. Dailey moved

That the communication be received and filed and as many members as possible participate in the parade and attend the mass meeting.

Which motion prevailed.

Also

No. 2612. Communication from the North Side Board of Trade, thanking Council for its courteous treatment in the hearing given its delegation in the matter of items for the proposed bond issue.

Which was read.

Mr. Rauh moved

That the communication be received and filed.

Which motion prevailed.

Also

No. 2613. Communication from the West End Board of Trade, inviting the members of Council to go over the route of the proposed Saw Mill Run boulevard and attend their regular meeting on Thursday, April 24.

Which was read.

Mr. Dailey moved

That the Clerk inform the secretary of the West End Board of Trade that the members of Council will be unable to accept the invitation as they will be in New York on said date to welcome the Fifteenth Engineers home, and that if agreeable to the West End Board of Trade, the members of Council will be glad to meet with them on Saturday afternoon, April 26, at an hour suitable to the Board of Trade.

Which motion prevailed.

Mr. L. H. Burnett, chairman of the Mayor's Welcome Committee, was given the privilege of the floor and said:

"Mr. President and Gentlemen of Coun-

cil, we have been looking somewhat into the conditions down in New York harbor in reference to welcoming home the Fifteenth Engineers. We find that there are a great many troubles to overcome.

"In order that the City might officially be represented, the Mayor has appointed a committee from the Mayor's Welcoming Committee, including the President and Members of Council, to go to New York to welcome these boys home. He has asked me, owing to the fact that he is unable to be here himself, to convey to you his wishes that as many members of Council, including the President, as can arrange, go to New York and welcome the soldiers.

"Congressman Campbell will go to Washington tonight. We have arranged for accommodations on the boat of the Mayor's Welcoming Committee of New York City. However, Congressman Campbell believes that, since the harbor strike has been settled, he can get a government tug.

"The Mayor is anxious to have as many members of Council as possible go to New York to welcome these boys. Three or four members of the Mayor's Welcoming Committee will also go.

"We have not yet decided on headquarters in New York, but this will be done tomorrow.

"The transport is scheduled to arrive in New York harbor on Thursday. We have no way of knowing whether the boat will arrive in the morning or afternoon, and for that reason it will be necessary for those who go to arrive in New York not later than Wednesday. Most of them will go tomorrow night.

"There is only one question that I desire to ask of Council, and that is, that all who intend to go to New York notify Mr. Schooley, secretary of the Mayor's Welcoming Committee, so that we will know what arrangements to make."

No. 2614.

CITY OF PITTSBURGH, PA.

April 17, 1919.

President and Members of the

Council of the City of Pittsburgh.

Gentlemen—I herewith return without my approval, Bill No. 2285. This bill provides for the payment of one-half the expenses of County Fire Marshal Thomas L. Pfarr for an accident which occurred in the year 1916.

The Law Department report herewith attached says that this is plainly and clearly not a liability of the City of Pittsburgh. I am not in favor of tapping the City's till for moneys the City is not legally liable for. It is quite evident to me that if this was a just claim and should have been paid by the City,

it would have been taken care of by my predecessor in office.

Very respectfully yours,

E. V. BABCOCK,

Mayor.

DEPARTMENT OF LAW.

City of Pittsburgh, Penna.,

March 28, 1919.

Finance Committee of Council.

Gentlemen—On Bill No. 2285, a communication from Mr. Thomas L. Pfarr, Chief Fire Marshal of Allegheny County, asking to be reimbursed by the City of Pittsburgh of a proportion of certain expenses incurred by him by reason of an accident to him by which he was injured at a fire in Arbuckle Brothers' store on November 4, 1916:

The Fire Marshal of Allegheny County is not a City official. He is appointed by the Court of Common Pleas, pursuant to the Act of April 4, 1864, P. L. 465, which Act was supplemented by Act of April 14, 1870, P. L. 1173, and Act of May 10, 1871, P. L. 672. The principal purpose of the creation of this office was to protect property from pillage, theft, injury and destruction at fires; also to investigate and ascertain the origin of fires. For these purposes, he has certain powers conferred by the statute.

So far as Mr. Pfarr's relation to the City of Pittsburgh is concerned, he was only a volunteer in assisting the regular City fire force, and the law is clear that no liability arises in this case for damages or injury received. I express no opinion as to the liability of the County under the circumstances, and make no suggestions as to what course it should pursue in the premises.

Respectfully yours,

CHARLES A. O'BRIEN,

First Assistant City Solicitor.

Which was read and, on motion of Mr. Robertson, received and filed.

And

Bill No. 2285. Resolution authorizing the issuing of a warrant in favor of Thomas L. Pfarr in the sum of \$307.50, being one-half the expensess incurred by reason of injuries sustained by accident on November 4, 1916, while in the discharge of his duties at the Arbuckle fire and charging same to Appropriation No. 42, Contingent Fund.

In Council, April 7, 1919. Rule suspended, read three times and finally passed by a two-thirds vote.

Was read.

And on the question, "Shall the resolution become a law notwithstanding the objections of the Mayor?" the ayes and

noes were taken agreeably to law, and were:

MAYOR'S OFFICE.

Pittsburgh, April 25, 1919.

President and Members of
Council of the
City of Pittsburgh.

Gentlemen—My attention was yesterday called to the fact that two bus lines were seeking the privilege of establishing a transportation business here in the City.

To the best of my information, this privilege was being sought without the knowledge of the Council or the Public Safety Department or the Mayor. I sent Director Pritchard and City Solicitor O'Brien before the Public Service Commission and asked that the matter be held up until we could have a look-in.

I am not necessarily opposed to this proposition, but I want the Council and the Mayor and the administration to have knowledge of anything of this kind that is going on. Hence my request to the Commission.

Very respectfully yours,

E. V. BABCOCK.

Mayor.

Which was read.

Mr. **Rauh** moved

That the communication from the Mayor be received and filed.

Which motion prevailed.

MOTIONS AND RESOLUTIONS.

Mr. Garland presented

No. 2646. Whereas, At this time, due to general conditions building operations are limited and, as a consequence, much labor is unemployed, both skilled and unskilled, and the manufacture and sale of the very many commodities entering into building construction are very much curtailed; and

Whereas, Something should be done, if possible, in the interest of the general welfare of the community to encourage building operations in the City of Pittsburgh; therefore, be it

Resolved, That the City Solicitor be requested to advise Council as to the discretionary power of the Board of Assessors in fixing values on new improvements in the line of building construction for some stated future period, whether same can be properly placed upon the assessment books at pre-war values, in keeping with present buildings, or even at a lower valuation by reason of such conditions, or just what leeway the Board of Assessors is allowed to exercise.

Which was read.

Mr. Garland moved

The adoption of the resolution.

Which motion prevailed.

Mr. Raub read the following from "The Public" of April 19, 1919, and asked to have the same printed in full in the Record:

"NEW YORK'S HOUSING PROBLEM.

"Rising rents make thoughtful people pause. The indifferent are beginning to give heed. The pinch is felt in New York more keenly than elsewhere be-

cause of the extra population brought by the war and the lack of building during the past two years. There are no vacant houses, apartments, or rooms. The only immediate relief is to double up or leave the City. It is not necessary, under these conditions, for landlords to raise rents. Tenants do it for them. Flat hunters are paying agents fees to find them vacant places, and, when found, they bid against other tenants for the privilege of having shelter. It is a landlord's year. Bills have been introduced in the Legislature proposing various remedies. It may be doubted if any of these will accomplish material relief. Grosser abuses may be checked, but there can be no doubt that there will be a heavy advance in rents, and that they will stay up for some time.

"A proposal has been before the people of New York for forty years that would have prevented this advance in rents, and that, if applied now, will reduce it. This plan has been indorsed by the ablest economists and the greatest moralists, yet the rent payers and wage earners have gone on with rent out-running wages, paying little attention to the means at hand for relief. The facts now compel them to give heed. Rents that have steadily gained upon income have suddenly taken such a leap forward that even the indifferent must take notice. We have arrived at the jumping-off place. We can go no further. We must turn back.

"The simple remedy staring the people in the face all these years is to shift taxes from houses to land, taxing the land according to its value, without regard to its improvements. Allan Robinson, president of the City and Suburban Homes Company, has suggested as a practical business proposition that, in order to balance the greater cost in building the city shall exempt improvements from taxation for eleven years. This, he figures, will equal the one-third excess cost at the present time. If exemption for eleven years will equal one-third the cost, a perpetual exemption will be a still greater inducement to build, and the larger number of buildings put up will bring down the rent to a reasonable figure.

"How long are the rack-rented tenants of New York going to ignore this fact?"

And, on motion of **Mr. Garland**,

Council adjourned.

MOTIONS AND RESOLUTIONS.

Mr. McArdle presented

No. 2655. Whereas, It is evident that, due to the shortage of housing accommodations, a large number of people are likely to find themselves without shelter on May 1, and without any prospects of securing the necessary quarters; and

Whereas, Under existing laws, the City has been unable to find any means by which relief can be afforded for this extremely bad condition; therefore, be it

Resolved, That the Council direct the attention of the Mayor to the possibilities above set forth and urge him to get in communication with the University of Pittsburgh and Carnegie Institute of Technology with a view of securing the use, for families, of the buildings upon the grounds of these institutions erected by the Government and used by the soldiers of the United States army, either for the purpose of affording them temporary housing accommodations or for the purpose of storing their goods in the event of their being unable to find suitable accommodations, and that the Mayor be urged to place at the disposal of persons so situated any City property that will lend itself to these needs, special attention being directed to the possibility of the portions of the fire engine

houses now vacant being used; and be it further

Resolved, That, insofar as the above policy may be found practicable, that families having children be given preference in accommodations.

Which was read.

Mr. McArdle moved

The adoption of the resolution.
Which motion prevailed.

Mr. Bauh moved

That a copy of the resolution be sent to the Division of Investigation, with instructions for the investigator and his assistant to make daily investigation of conditions referred to in the resolution, and to submit reports daily of their findings to the Mayor and the Council.

Which motion prevailed.

The Mayor appeared at this time and requested Council to make haste in the preparation of the bond issue and suggested that a conference be held in his office on Thursday, May 1, 1919, at 9:30 o'clock A. M.

Mr. Garland moved

That a conference, as suggested by the Mayor, be held on Thursday morning May 1, 1919, at 9:30 o'clock.

Which motion prevailed.

And, on motion of Mr. Garland,

Council adjourned.

UNFINISHED BUSINESS.

The Chair presented

No. 2691.

DEPARTMENT OF PUBLIC SAFETY.

City of Pittsburgh, Pa.,

May 1, 1919.

To the City Council,
Pittsburgh Pa.

Dear Sirs—Yours of the 23rd ult. re-

ceived with reference to report on Bill No. 2516 of City Council, being a resolution for warrant in favor of Homer E. Crooks for \$320.00.

Accordingly, I attach report of Mr. Crooks as to the attempted arrest of the yegg.

Yours very truly,

CHAS. B. PRICHARD,
Director.

City of Pittsburgh, Pa.,
April 23, 1919.

Mr. Robert J. Alderdice,
Superintendent,
Bureau of Police.

Dear Sir—Replying to the attached communication from Director Chas. B. Prichard, requesting information as to the disposition of the yeggman who caused my injury, wish to state that the yeggman was unknown to me, and when he injured my hand he made his escape and I have not seen him since. I was therefore, unable to cause his arrest.

Immediately after being injured, I returned to the Division of Detectives, City-County Building, and had the telephone operator endeavor to locate the City physician at his office and home, and was unable to do so. I then went out and met Dr. Schilldecker at the corner of Fifth avenue and Grant street, and he took me into McCullough's drug store at the corner and rendered first aid to my hand. Blood poison set in that same night at 10 o'clock, and I called in my family physician, Dr. W. H. Wesley, who attended me at my home until October 12, 1918, when he ordered me to the Pittsburgh Hospital in charge of Dr. Singley. Dr. Singley treated my hand from October 12 to March 22, 1919.

Yours very truly,
HOMER E. CROOKS,
City Detective.

Which was read and, on motion of Mr. Dailey, received and filed.

BILL No. 2516. Resolution authorizing the issuing of a warrant in favor of Homer E. Crooks, City detective, for \$320.00, for expenses incurred by reason of injuries received while on duty, and charging same to Appropriation No. 1147.

In Council, April 28, 1919. Read and laid over for the present.

Which was read a second time.

Mr. Dailey moved

A suspension of the rule to allow the third reading and final passage of the resolution.

Which motion prevailed.

And the resolution was read a third

time, and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Burke	Herron (President)
Dailey	Rauh
English	Robertson
Garland	

Noes—Messrs.

McArdle	Winters
---------	---------

Ayes—7.

Noes—2.

And there being two-thirds of the votes of Council in the affirmative, the resolution passed finally.

MOTIONS AND RESOLUTIONS.

Mr. McArdle presented

No. 2698. Whereas, There is now a bill pending in the State Legislature, the purpose of which is to fix definitely by State law the number and salary of the police magistrates for cities of the second class; and

Whereas, Such legislation is not only not based upon the needs of the City of Pittsburgh, as shown by its experience, but is subversive of the principle of home rule for cities, for which all advanced thinkers on political questions are contending; and

Whereas, The passage of laws imposing additional financial burdens on cities of the second class in matters of purely municipal administration is out of harmony with the needs and desires of the City of Pittsburgh and therefore against the interest and welfare of its citizens; therefore, be it

Resolved, That the Mayor and the Council of the City of Pittsburgh, duly chosen to represent the people of the City in the conduct of its municipal affairs, do hereby respectfully protest against the passage of the bill above referred to and against all other legislation which will, in effect, impose new burdens upon the City and its taxpayers and limit the exercise of reasonable municipal power and discretion on the part of the City itself; and be it further

Resolved, That copies of this resolution be sent to the Governor, the President pro tem. of the Senate the Speaker of the House, and to all members of the Legislature representing districts which are wholly or in part within the limits of the City of Pittsburgh.

Which was read.

Mr. McArdle moved

The adoption of the resolution.

Mr. English arose and said:

"Mr. President and Gentlemen—I am in hearty accord with the idea aimed at in this resolution, but I feel that unless we take up all legislation affecting the taxpayers of Pittsburgh and Allegheny County I don't think it is right to pick out any particular legislation, such as in this case. I might, in this connection, call your attention to the bill in the Legislature providing for the appointment of five mercantile appraisers at \$4,000.00 per annum, and changing the City assessors.

"The Council has some rights in the matter of hold-over magistrates that the Legislature has not taken away from us, and until Council acts on those matters which it does control, I don't think we ought to concern ourselves in the matter of the legislation at Harrisburg regarding the number and salary of police magistrates."

Mr. Garland arose and said:

"Mr. President and Gentlemen—The proposed legislation affecting police magistrates is on a sliding scale, allowing an additional magistrate for each 100,000 increase in population over 200,000, and starting at the latter figure, with a salary of \$2,500.00 the salary is advanced at a rate of \$500.00 for each 100,000 increase in population. On this reckoning the number of police magistrates in Pittsburgh would be fixed at nine and the salary at \$4,000.00.

"I don't believe the salary is too much

for the services performed by the police magistrates.

"This legislation, if enacted into law, would take these positions out of politics.

"I am willing to allow the Legislature to use its judgment in this matter, as I am confident they will legislate for the best interests of the City and State.

"If this bill becomes a law it will not take away from Council the power of approving or rejecting the names of the persons selected by the Mayor for the positions of police magistrates.

"This legislation only affects the cities of Pittsburgh and Scranton, and it may remain on the statute books for a long time before the population of Pittsburgh will necessitate additional magistrates.

"There is legislation of much more importance, pending in the Legislature, affecting the City of Pittsburgh, about which Council has not concerned itself. I am opposed to the passage of this resolution for the reasons stated."

Mr. McArdle arose and said:

"Mr. President, the points covered by Mr. Garland do not seem to be very deeply involved in this resolution. The question of how much pay shall be given the magistrates in the City of Pittsburgh is not fixed in the resolution, and the resolution does not attempt to determine or imply in any sense how much salary shall be paid the magistrates in the City of Pittsburgh.

"Under the existing law \$4,000.00, \$5,000.00 or \$6,000.00 annually might be paid police magistrates in the City of Pittsburgh if it were the wisdom of the governing authorities to pay them that sum. That authority ought to rest with the City authorities, just as I believe the power of fixing the number should rest with the City Council.

"Now, if the bill purports to furnish to each city of the second class the number of magistrates necessary to carry on that function it leaves a very large latitude between one number and another upon its graduated basis and, in doing that, it does not provide any argument why a magistrate, sitting in a district in the City, which has not been affected by the City's increase in population, so far as his work is concerned, should have his salary automatically increased.

"The thing involved in this is much larger than in this one act itself. This City and this County has sat with more or less complacency for the past several years and seen legislation go through the State Legislature which has imposed continued financial burdens upon the County and the City without any regard, so far as the officers of the City and County were concerned, to the needs of either the County or the City.

"Such legislation as this is destructive

of the theory of home rule for Pittsburgh; and whether or not we are sleeping upon our rights regarding other legislation, pending, passed or to be introduced in the future, has nothing to do with whether this is right or wrong in principle, and does seem to me to justify taking action on same.

"We know that every city, with its knowledge and its experience in attempting to deal with city problems, knows that those problems are peculiar to themselves and are not problems that can be acted upon with any great degree of intelligence by men who are familiar only with the affairs of a small country village and who are in the overwhelming majority in the passage of such laws affecting the life and interest of cities like Pittsburgh.

"Now we are concerned with the question of taxation as we have never before been concerned. Everywhere we turn we are met with a new evidence of taxation, from the child who purchases a glass of soda water to the man who buys a silk shirt or the woman who buys some needed commodity for herself; and the City is proposing to go on a program of needed public improvements for municipal purposes and even a large national purpose, and the people are going to be asked to give their approval to incur these new taxations to meet these needs; and I cannot see how we can consistently do it as a city if we are going, at the same time, to take the position that it is the utmost indifference to us what other taxes are imposed upon the people when there is no reason or rhyme why the taxes should be increased. Instead of taking such power away from the City the Legislature should be granting more authority to the City. The cry is for more power for the City and less rule from outside sources. If this were done so as to allow cities to deal with problems that are peculiarly their own, it would give the people, who must bear the burdens, the right to say whether they shall or shall not leave in the hands of those who must in every case respond to the people for their action, and that is not the case where the City is going to be governed in these minute matters by the State Legislature.

"It should be made plain that the Council and the Mayor have sufficient knowledge of the needs of the City, so far as the administration of the magistrates' office is concerned, to know how many they need and what would be a fair rate of compensation to give them. If the Legislature of the State of Pennsylvania wants to say that the City has power to create fifty magistrates for the City of Pittsburgh and that it has power to pay them at the rate of \$10,000.00 a year, I have no objection to that, as that is giving power to the City of Pittsburgh, and the exercise of that power will rest solely upon the people who

must bear the burden of any expense incurred. That is not the case in this proposed law, regardless of whether we have six, nine or twelve magistrates, and regardless of whether the compensation is half or twice as much as we are now paying. We must not only fix the salary at the price fixed by the Legislature, but we must obey the law and provide compensation for the number fixed in the bill. Most of the people who will vote upon the bill will know absolutely nothing of what the needs of the City are."

Mr. Burke arose and said:

"Mr. President, I believe that Council should, on all measures that are offered at Harrisburg, that pertain to the City of Pittsburgh, thoroughly consider them in open meeting, and whatever action is taken on them by the Council should be forwarded by the Clerk to Harrisburg. Mr. Garland well said that there are other bills in the Legislature that Council should take action on. There are other reasons today why we should vote for the resolution before us besides what has been stated by any member of Council who has spoken on the question.

"In 1917, shortly after the Council was installed, the Mayor submitted the names of five police magistrates for approval. Protests poured in against these men holding the office of police magistrates and public opinion rendered its verdict against their fitness. In response to the public protest Council by majority vote, rejected the names of the five men and to date the Mayor has failed to submit the names of any other men, and these five have been continued in office. This, I believe, is in opposition to the will of the people and, as I believe greater public good would have resulted from the appointment of men approved by Council and in whom the people have confidence, I am therefore, under the circumstances and conditions surrounding the offices of the present police magistrates, voting in favor of this resolution."

Mr. Bauh arose and said:

"Mr. President, I wish to put myself on record as being in favor of home rule for cities of the second class. I have always been in favor of home rule for Pittsburgh.

"However, I must agree with Mr. Garland and Mr. English that we should not pick out one or two bills now pending in the Legislature affecting the City of Pittsburgh and take no action on the many other bills which are pending or ready to be passed by the Legislature vitally affecting the interests of Pittsburgh. Some of these bills, if passed, would place a heavy burden upon the shoulders of the taxpayers of Pittsburgh and Allegheny County.

"For the reasons stated I am going to

vote against the adoption of the resolution."

And the question recurring on the adoption of the resolution, Mr. McArdle demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Burke	Herron (President)
Dailey	McArdle

Noes—Messrs.

English	Robertson
Garland	Winters
Hauh	

Ayes—4.

Noes—5.

And a majority of the votes of Council being in the negative, the resolution was rejected.

Mr. Winters moved

That Council meet in special session on Friday, May 9, 1919, at 10 o'clock A. M., for the purpose of taking up Bill No. 2651, an Ordinance authorizing an increase of the indebtedness of the City of Pittsburgh in the sum of three hundred thousand (\$300,000.00) dollars and the issuance of bonds of said City in said amount to provide for the improvement of Bigelow boulevard, and providing for the payment of the principal and interest of said bonds.

Which motion prevailed.

Mr. Burke presented

No. 2699. Whereas, There has been introduced into the House of Representatives Bill No. 1175, commonly called the "Sedition Bill," reading as follows:

AN ACT

Defining sedition and prescribing the punishment therefor.

Section 1—Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same, That the word "sedition" as used in this Act, shall mean:

Any writing, publication, printing, cut, cartoon, utterance or conduct, either individually or in connection or combination with any other person or persons, which tends

(a) To incite or arouse discontent against the government of this State or of the United States.

(b) To make any outbreak or demonstration of violence against this State or against the United States.

(c) To encourage any person or persons to take any measures or engage in any conduct with a view of overthrowing or destroying or attempting to overthrow

or destroy by any force or show or threat of force the government of this State or of the United States.

(d) To disturb the peace and tranquillity of this State or of the United States.

(e) To incite or encourage any person or persons to commit any overt act of any character with a view to bringing the government of this State or of the United States into hatred or contempt.

(f) To incite any person or persons to do or attempt to do any personal injury or harm to any officer of this state or of the United States or to damage or destroy any public property of any kind whatsoever or the property of any public official because of his official position.

It shall also include

(g) The actual damage to or destruction of any public property or the property of any public official perpetrated because the owner or occupant is in official position.

(h) Any writing, publication, printing, cut, cartoon, or utterance which advocates or teaches the duty, necessity or propriety of engaging in crime, violence or any form of terrorism as a means of accomplishing industrial or political reform.

(i) The sale of any prints, publications, books, papers, documents or written matter in any form which advocates, furthers or teaches sedition as hereinbefore defined.

(j) Organizing or helping to organize or becoming a member of an assembly society or group where any of the policies or purposes thereof are seditious as hereinbefore defined.

(k) Knowingly or wilfully renting by the owner, agent, superintendent, janitor or occupant of any building, place or room for any assemblage of persons for the purpose of engaging in any form of sedition as hereinbefore defined or knowingly and wilfully permitting, by any of the persons aforesaid, any assemblage of persons for such purpose.

Section 2—Sedition, as defined in Section 1 of this Act, shall be a felony, and any person convicted thereof shall be sentenced to a fine of not less than one hundred dollars (\$100.00) and not more than ten thousand dollars (\$10,000.00) and to imprisonment not exceeding twenty years, either or both, in the discretion of the Court.

Section 3—All Acts or parts of Acts inconsistent herewith be and the same are hereby repealed.

Now, Whereas, This bill is one of the most nefarious ever introduced into any legislative body and is a blow at the rights and liberty guaranteed the citizens of Pennsylvania by the Constitution of the United States; therefore, be it

Resolved That City Council of Pittsburgh, in session assembled, this 5th day of May, A. D. 1919, goes on record in opposition to the passage of the bill, because it is an insult to the law-abiding and loyal citizens of our City and State; and be it further

Resolved, That Council notify the Governor, the Attorney General and the members of the legislative branches at Harrisburg of our action, disapproving the bill.

Which was read.

Mr. Burke moved

The adoption of the resolution.

Mr. Burke arose and said:

"Mr. President, it is a strange thing to me that at this time, when our boys are returning home from overseas, where they made the great fight for human rights and personal liberty, that in this great industrial State any man would have the temerity to concoct such a notorious piece of legislation as Sedition Bill 1175, and, further, that any man would be so lost to common decency and a sense of shame as to present such a bill.

"This bill vicious in character, subtle in meaning, is the most damnable scheme ever perpetrated against a free and liberty-loving people. It is a blot upon the name of the State. Its sole purpose—and its one intent—is to hold in subjection the working people—to crush labor, to deny the working people the right of public speech, the right of public assembly, the right to offer protest against any intolerable political or industrial conditions.

"During the trying war period, when so much depended upon the industrial plants of this State, we found the Pennsylvania working people laboring heart and soul for the cause. There was no violence—no disloyalty—but every working man, woman and child did their bit for their country, and on the shoulders of the working people fell heavily the burden of the war. The sacrifice was theirs—from the homes of the workers went forth the sons, brothers and the husbands, and into the homes of the workers have entered sorrow and desolation, due to the ravages of war.

"We sent the sturdy sons of toil—the men on whom our country most depended to go to foreign shores to fight and battle for the sacred cause of liberty—and this State government would deny them that for which they fought—for which their blood was shed.

"It is apparent that there is a hidden hand connected with the bill, and I have no doubt, if the true facts came to light, that we would find the Grundy interest and the great Pennsylvania Railroad the real instigators of the measure.

"Council, in justice to the people of this City and as citizens of this State should resent the measure as a criminal act, perpetrated against the common people."

Mr. Garland moved

That the resolution be laid over until the meeting on Friday, in order that the members may look into the bill more carefully.

Mr. Robertson arose and said:

"Mr. President, in support of Mr. Garland's motion I want to state that I am not familiar with the provisions of the bill and would like to have it laid over for a few days, so that I may have an opportunity to read the bill."

Mr. Burke arose and said:

"Mr. President, if there are no objections, I would request that we act on the resolution today. The bill may be passed before our meeting on Friday."

Mr. Garland arose and said:

"Mr. President, I don't know whether all the members of Council are familiar with the provisions of the bill or not. I am familiar with its provisions, and I am ready to vote on the resolution now. I am for the bill now pending in the Legislature, known as Sedition Bill No. 1175, and say it unqualifiedly. I am against the Bolsheviks and the I. W. W.'s and want to put myself on record now as being opposed to anyone who is disloyal to his Nation, State or City."

The Chair said:

"I want to say, in justice to the laboring people of this great City, Council should go on record as being opposed to the enactment of this legislation. Under its strict interpretation organized labor's rights to hold meetings would be jeopardized. The United States Attorney for this District, Mr. Humes, at a meeting of the Civic Club stated that this bill is dangerous and vicious in character and should not be enacted into a law. I am, therefore, in favor of the resolution."

Mr. English arose and said:

"Mr. President, I am not in favor of voting on this protest today, because I am not familiar with the bill now in the Legislature. I would prefer to lay it over for a few days to give us an opportunity to look into it. It may be all right and it may not, but no harm can result to give some of us a few days to get some information on the matter."

And the question recurring on the motion to lay the resolution over until Friday, the ayes and noes were ordered taken, and being taken were:

Ayes—Mr.
Robertson

Noes—Messrs.

Burke Herron (President)
Dailey McArdle

English Rauh
Garland Winters

Ayes—1.

Noes—8.

And a majority of the votes of Council being in the negative, the motion was rejected.

And the question recurring on the adoption of the resolution, the ayes and noes were ordered taken, and being taken were:

Ayes—Messrs.

Burke McArdle
Herron (President) Rauh

Noes—Messrs.

Dailey Robertson
Garland

(Messrs. English and Winters not voting.)

When the name of Mr. Winters was called he arose and said:

"Mr. President and Gentlemen—I am not voting on this resolution, because I do not believe we have sufficient information as to the merits or demerits of the bill now pending in the Legislature, and for the further reason that I don't think it has any place in the deliberations of this body. It is not properly the function of Council."

Ayes—4.

Noes—3.

And there not being a majority of the votes of Council in the affirmative, the motion to adopt did not prevail.

And, on motion of Mr. Garland,

Council adjourned.

Which was read.

Mr. Dailey moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second time.

Mr. Dailey moved

To amend the resolution by striking out the item "Wm. R. Reynolds, \$709.44, Appropriation No. 1147."

Which motion prevailed.

And the resolution, as read a second time and amended, was agreed to.

And the resolution was read a third time, and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Dailey Rauh
English Robertson
Herron (President) Winters
McArdle

Ayes—7.

Noes—None.

And there being two-thirds of the votes of Council in the affirmative, the resolution passed finally.

MOTIONS AND RESOLUTIONS.

Mr. Dailey presented

No. 2736. Whereas, Senate Bill No. 814, now pending in the State Legislature, the purpose of which is to permit the Civil Service Commission of second class cities to certify, before the beginning of each fiscal year the amount required to operate the Civil Service Commission, and Council shall appropriate annually for the use of the Civil Service Commission the sum certified; and

Whereas, Such legislation, if passed, will impose a new burden upon the taxpayers of the City of Pittsburgh and take from Council its right to determine what is necessary to operate the Civil Service Commission and is, therefore, against the interests and welfare of its citizens; therefore, be it

Resolved, That the Mayor and Council of the City of Pittsburgh do hereby commend Governor Sproul for his stand against this legislation (reports in newspapers quoting the Governor as being against taking the power of appropriations away from the Council), and respectfully call the attention of Governor Sproul to the fact that another bill is pending in the State Legislature increasing the number and salaries of the police magistrates for second class cities, which is open to the same objection as that raised by the Governor to the bill relating to the Civil Service Commission.

Which was read.

Mr. Dailey moved

The adoption of the resolution.

Mr. English arose and said:

"Mr. President, I am in sympathy with the purpose of the resolution introduced by Mr. Dailey, as I am opposed to any further curtailment of home rule for the City of Pittsburgh. However, in my opinion, as I stated on the resolution relating to police magistrates on last Monday, I don't think we can accomplish much by picking out any particular subject.

"You will recall that last week I suggested that we should clean up this en-

the situation in one resolution. As I have prepared such a resolution and intend to introduce it after decision is made on the resolution now before us I cannot see my way clear to vote for this resolution."

Mr. Winters arose and said:

"Mr. President, is Mr. English offering his resolution as a substitute for the one submitted by Mr. Dailey?"

The Chair:

"I don't know. He did not say so in his remarks."

Mr. English arose and said:

"Mr. President, if, under the rules, my resolution covering this subject can be substituted for the one introduced by Mr. Dailey I will present it at this time for Council's consideration."

The Chair:

"I can see no objection why it cannot be introduced at this time."

Mr. English presented

No. 2737. Whereas, A number of bills have been introduced in the State Legislature which are of doubtful benefit to the welfare of the City of Pittsburgh, the larger of the two cities classed as second class cities in the State of Pennsylvania; and

Whereas, Certain of the bills referred to are actually detrimental to the welfare of the City of Pittsburgh and seriously interfere with the finances and government of the City; therefore

We, the Council of the City of Pittsburgh, respectfully urge His Honor, the Mayor, to join in the following resolution to be sent to His Excellency, Governor Sproul, and the Honorable Senators and Representatives in the General Assembly of the State of Pennsylvania:

Resolved, First, That the great changes in times and conditions brought about by the progress of recent years indicate that the Constitution of the State of Pennsylvania should be revised and brought up to date; and

Second. Pending action by a convention to consider changes in the State Constitution, we respectfully urge the State authorities to reject any proposed changes in the laws affecting the affairs of the municipal government regarding elections, number of officials, salaries or any other measures which would take from the municipality the right and power to administer the affairs of the City.

Which was read.

Mr. English moved

That this resolution be accepted as a substitute for Bill No. 2736.

Mr. English arose and said:

"Mr. President, in the resolution which I have introduced it is plainly stated that the State Constitution is in need of revision, and if the Council adopts this resolution we would then be on record in favor of the revision of the State Constitution. In the second place, pending such revision, it is our petition to the State authorities that they reject any legislation which interferes with the City of Pittsburgh. You will note that it is my intention to enlist the aid of His Honor, the Mayor, by asking that he join with the Council in the purposes aimed at by this resolution.

"There are so many bills pending in the Legislature affecting our City that would indicate that the best method of attacking them would be to protest against all of them. In my opinion, it is much better to do this than to pick out a few bills which happen to receive some publicity in the newspapers. There may be a dozen snakey bills in the Legislature, apparently harmless, to which attention has not been called, and for this reason it is my judgment that we ask the State to call a halt on all kinds and sorts of measures which would interfere with the government of Pittsburgh.

"As I said before, I am not opposed to the protest against the police magistrate bill or the Civil Service Commission bill, or the bills relating to the assessors or the mercantile appraisers, but I think this one resolution of mine covers the entire subject, and for that reason I deem it the best one for us to pass."

Mr. Dailey arose and said:

"Mr. President, in the inaugural address of Governor Sproul, I believe, he stated he was for a constitutional convention, but not for at least two years.

"The gentleman showed me a copy of his resolution Saturday. It is more camouflage. It is similar in character to the resolution offered by Mr. McArdle at our last meeting and mine on the Civil Service Commission. It is no different and merely aims at the same purpose for which the previous two resolutions provide for.

"If a constitutional convention will not be held for two years this substitute resolution will have no effect on bills now pending. I endeavored to present my resolution at the special meeting of Council last Friday, but it was ruled out of order, as the call for the meeting was for taking action on the bond ordinance and no other business could be transacted at that meeting. In view of that fact, I announced I would present the resolution today. The Council can either accept or reject my resolution, as it sees fit."

Mr. English arose and said:

"Mr. President, I must object most strenuously to the term camouflage in my resolution. The gentleman admits that I showed it to him and that he was given an opportunity to study it. It certainly is not fair to charge me with camouflage after giving him a copy of my resolution. He did not show me a copy of his resolution.

"The remarks I made on the resolution last week applying to the resolution on the police magistrates also apply to Mr. Dailey's resolution. I am entirely in accord with the idea aimed at in his resolution, but don't believe it goes far enough.

"In addition to voicing our protest against legislation regarding elections, increasing salaries of City officials, and fixing their number, we should also go on record that we are for a change of the Constitution. Some of the laws affecting Pittsburgh are antiquated and do not harmonize with the conditions of the present day, and it is high time that we should ask for a change in the Constitution.

"I go a step farther in my resolution than Mr. Dailey or the one presented last week by Mr. McArdle and ask that any and all bills relating to our municipal government be held in abeyance. There are many bills in the Legislature affecting Pittsburgh. I think we are making a mistake in embroiling ourselves into controversies over this subject. My resolution, if adopted, will put the matter up to the Mayor. You will note that it respectfully urges the Mayor, if he approves of our action, to join Council in a protest to be sent to Harrisburg, and I am free enough to say that if the Mayor does not join with us on this, I will urge that we pass my resolution or a similar one at our next meeting as representing the thought of Council."

Mr. Dailey arose and said:

"Mr. President, I repeat that the second resolution is camouflage. It covers the same subject which Mr. McArdle had in his resolution of last week and furnishes an alibi upon which to vote. The resolution does not cover a single point that is of vital interest to the people of Pittsburgh which was not covered in the resolution offered by Mr. McArdle last week and voted down."

Mr. Garland arose and said:

"Mr. President, I want to say this as a contribution to what has already been said on the subject. You know that at the last meeting, when nine members were present, the resolution relating to the police magistrates was defeated by a vote of 5 to 4. That subject was then disposed of. Now Mr. Dailey, in his resolution, injects the subject of police magistrates. I don't think we should be

asked to vote again on a subject that has already been disposed of by Council.

"In regard to the resolution offered by Mr. English, calling for a revision of the State Constitution, I might say that it takes several years to get such legislation through. Governor Sproul is considering the names of men to act on the commission to revise the Constitution of the State of Pennsylvania. I believe it is a step in the right direction. We certainly need such a revision and I am quite sure it will go through.

"I am opposed to Mr. Dailey's resolution, but will vote for the one offered by Mr. English."

The Chair said:

"Gentlemen, I desire to express my opinion as being willing to vote for any legislation which will give to the City of Pittsburgh home rule."

Mr. Winters arose and said:

"Mr. President, I am in favor of the substitute resolution for the reason that it covers the whole subject in a general way. Mr. Dailey's resolution merely refers to the Civil Service Commission and the police magistrates' legislation pending at Harrisburg. His resolution calls attention to two specific bills, while I am informed that there are probably six or seven bills pending affecting the City of Pittsburgh which take away from the Council their right to decide certain things. Mr. English's resolution covers all such bills, and he asks that, pending the time of the convening of a constitutional convention, the Governor disapprove any legislation changing the laws relating to Pittsburgh which deprives Council of its rights.

"Mr. Dailey states that a constitutional convention may not be held for two years. Whether it should be held in two years or ten years, if the Governor coincides with this resolution that no changes detrimental to the City's interests and which deprive Council of its rightful powers, no harm can come to the City's interests.

"I don't like to question the motive of any man. I think it is his prerogative and his right, as a member of Council, to ask questions as to the merits and demerits of any subject presented to this Council, and in this case, where we have two resolutions, I think it is a member's right to vote for the one which he believes is the best. I think the author of the original resolution brought about the presentation of the substitute resolution himself by announcing three or four days before the time set for the meeting the contents of it. Sometimes publicity is a good thing and sometimes it is not, and sometimes it gives the other fellow a chance to investigate what you are doing and if he does and takes advantage of the situation and brings in a

resolution which is stronger and better in form, I think it is the duty of Council to adopt the better resolution—the one which covers the subject thoroughly and to the point and not merely one item out of six or seven, as the case may be. It is the right of every member of Council to vote for the measure which he thinks is the best for the City. I feel like Mr. Garland. I am willing to vote for the substitute resolution, but am opposed to any that merely covers one or two specific items. The reason for voting on the police magistrate resolution is a debatable one—just as it is on the Civil Service Commission measure. I had no information as to what the bill relating to the Civil Service Commission contained, and the only information that I received was through one of the daily newspapers; and before I am willing to judge of the merits or demerits of a measure and condemn those responsible for the presentation of the Act I want more tangible evidence than the mere story carried in the newspapers. With all due respect to the newspapers, there is sometimes a misquotation.

"I believe Council has some rights in this matter, and I don't want to be radical, and I have respect for the members of the Legislature. I don't believe all of them would legislate to the detriment of the City, as some would want to imply. However, I don't want to go into that phase of it. I want to say that I am in favor of home rule. I am going to vote for the substitute resolution, because it covers the subject in a general way."

And the question recurring on the motion to accept the resolution as a substitute for Bill No. 2736, the ayes and noes were ordered taken, and being taken were:

Ayes—Messrs.

English	Robertson
Garland	Winters
Rauh	

Noes—Messrs.

Dalley	McArdle
Herron (President)	

Ayes—5.

Noes—3.

And a majority of the votes of Council being in the affirmative, the motion prevailed.

Mr. Garland moved

The adoption of the resolution.

Upon which motion the ayes and noes were ordered taken, and being taken were:

Ayes—Messrs.

English	Rauh
Garland	Robertson
Herron (President)	Winters

Noes—Messrs.

Dalley	McArdle
--------	---------

Ayes—6.

Noes—2.

And a majority of the votes of Council being in the affirmative, the motion prevailed.

Mr. Winters presented

No. 2738. Whereas It was disclosed, during the hearings before Council of rent payers, that there was an insufficient number of houses in the City of Pittsburgh to properly care for the workmen and employees and other persons who were obliged to live in Pittsburgh; and

Whereas, It had been proposed by the government to appropriate a sum of \$60,000,000.00 to be used, under proper regulation, to encourage the building of homes, particularly for working men; and

Whereas, With the signing of the armistice, the plans heretofore referred to were dropped, but the over-crowded condition and necessity for homes still prevails; now, therefore, be it

Resolved, By the Council of the City of Pittsburgh, Pennsylvania, that the six Congressmen representing this section of Pennsylvania, namely, the Twenty-ninth, Thirtieth, Thirty-first, Thirty-second districts and the two Congressmen-at-large, be and they are hereby respectfully requested to prepare and introduce in the National Congress suitable legislation which will make available to the working men of Pittsburgh funds at a low rate of interest for the construction of homes; and be it further

Resolved, That the plan heretofore evolved by the Congress and the United States government, under which loans are made to farmers, through the federal farm loan banks, be recommended to the aforesaid Congressmen as a plan which might, with certain revisions, be made applicable to the housing situation in Pittsburgh; and be it further

Resolved, That the Clerk of the Council be and he is hereby instructed, immediately upon the passage of this resolution, to transmit a copy hereof to each of the Congressmen aforesaid.

Which was read.

Mr. Winters moved

The adoption of the resolution.
Which motion prevailed.

Also

No. 2739. An Act, authorizing all municipalities of this Commonwealth to purchase and acquire property and to apply, use, improve and develop the property thus acquired and the property now or hereafter owned by the said

municipalities for the purposes of building, constructing and erecting dwelling houses, apartments and homes; authorizing the said municipalities to lease and sell the same, with such restrictions in the leases and the deeds of sale in regard to the preservation of the appearance, light, air, health and usefulness thereof; and providing for the payment for the property purchased and acquired for the building, constructing and erecting of said dwelling houses, apartments and homes; and the appropriation and expenditure of public funds for said purposes.

Section 1—Be it enacted, etc., That it shall be lawful for and the right is hereby conferred upon all municipalities of this Commonwealth to purchase and acquire private property and to apply use, improve and develop property thus acquired and property now or hereafter owned by the said municipalities for the building, constructing and erecting of dwelling houses, apartments and homes, whenever the Councils thereof shall by ordinance determine thereon.

Section 2—That it shall be lawful for and the right is hereby conferred upon the municipalities of this Commonwealth to build, construct and erect dwelling houses, apartments and homes on property thus purchased and acquired and on property now or hereafter owned by the said municipalities, and the said municipalities are hereby authorized to enter into all necessary agreements and contracts in the same manner as now provided by law for the purchasing and acquiring of property for the said purposes and for the building, constructing and erecting of said dwelling houses, apartments and homes, and to lease and sell the properties thus purchased, acquired, used, improved, developed and owned, with such restrictions in the leases and deeds of sale as will fully insure the protection and preservation of the appearance, light, air health and usefulness thereof, and to appropriate and use the public funds of the said municipalities for the said purposes, and to do such other acts as may be necessary to fully exercise the powers herein conferred; provided, however, that the rents and proceeds arising from the leasing and the sale of any such properties so purchased, acquired, applied, used, improved and developed, and owned by said municipalities, shall be deposited in the treasury of the said municipalities and be subject to the general appropriation by the Councils of the said municipalities.

Section 3—That the building, constructing, erecting, administration maintenance, control and operation of such dwelling houses, apartments and homes shall be and are hereby vested in the proper executive officers of the said municipalities; and they shall exercise the powers and rights in relation thereto,

subject to such rules and regulations as may be prescribed by the Councils of the said municipalities.

Section 4—All acts or parts of acts inconsistent herewith are hereby repealed.

Which was read and, on motion of Mr. Winters, ordered printed in full in the Record.

The Chair presented
No. 2740.

COUNCIL OF THE CITY OF
PITTSBURGH.

Pittsburgh, Pa.,

May 12, 1919.

Mr. John S. Herron,
President of the Council of the
City of Pittsburgh,
Pittsburgh, Pa.

Dear Sir—I hereby tender my resignation as a member of Council, to take effect immediately.

It is with deep regret that I sever my connection with the councilmanic body of my native City, but having been elected by the people of the State as Congressman-at-large, and the Sixty-sixth Congress having been called into extra session on the 19th of May by our President, it makes it imperative that I give up my duties in Council.

In the trying reconstruction period ahead of the people and the nation it shall be my endeavor as a national legislator to labor unto the end that the best interests of my country and its people are protected, and to be worthy of the trust reposed in me by the people of the great State of Pennsylvania.

Yours truly,

W. J. BURKE.

Which was read.

Mr Winters moved

That the communication be received and filed and that the resignation be accepted.

Mr. Raub arose and said:

"Mr. President, Mr. Burke has served in the Council of the City of Pittsburgh and also served in the Senate of the State of Pennsylvania, and now he is going to serve in the Congress of the United States. It simply shows what a great country we live in—that the poorest man or woman can rise from the bottom of the ladder.

"I want to say that Mr. Burke always gave us the very best that was within him, and I also wish to state that he was never misunderstood. Nature has endowed him with a magnificent voice, and whatever he said could be heard. No man had ever to say to him in this Coun-

oil, 'Louder,' and I wish him God-speed and good luck in his future work."

Mr. Robertson arose and said:

"Mr. President, in accepting the resignation of Senator Burke from this Council, I want to say that I do it with deep regret. The Senator has been a life-long friend of mine. I have known him for twenty-five years. He was a member of the old Council of Pittsburgh; was elected to the State Senate, then as a member of the small Council; then to the office of Congress. He told me when he was a candidate for Congressman-at-large that he wanted to become a Congressman and that it would be the last political position to which he would aspire. He wanted to prove to his friends who had confidence in him that he was a real statesman. I think, from his actions in Council, he will make a good statesman. Like Mr. Rauh, I wish him God-speed."

And the question recurring, "Shall the communication be received and filed and the resignation accepted?"

The motion prevailed.

Mr. Dailey moved

That a committee of five be appointed to draft a suitable resolution on the resignation of Mr. Burke.

Which motion prevailed.

And the Chair appointed as members of said committee, Messrs. Dailey, Garland, Robertson, McArdle, English.

Mr. Garland moved

That Council proceed to an election for the purpose of electing a member to succeed Hon. William J. Burke, resigned.

Which motion prevailed.

The Chair appointed Mr. Garland as a committee of one to inform the Mayor that Council was now ready to proceed to an election for the purpose of electing a successor to fill the vacancy caused by the resignation of Hon. William J. Burke.

And Mr. Garland, having performed the duty assigned him, returned to the Council Chamber accompanied by His Honor, Mayor E. V. Babcock.

Mr. Robertson arose and said:

"Mr. President, I take great pleasure in presenting the name of John H. Henderson to fill the unexpired term of Senator Burke for your consideration.

"I want to say this for Mr. Henderson. I have known him intimately practically all of my life. He has been a member of the Allegheny County Bar thirty years. He was in the Allegheny Councils one term. He served in the Legislature from the Eighth Legislative Dis-

trict for four successive terms. His record, as far as I am able to find, is as clean as a whip.

"I feel that if the members of Council will vote for Mr. Henderson it will be a credit to Council to have a man of his caliber in this body.

"I therefore present the name of John H. Henderson for this position."

Mr. Garland moved

That the nominations close on the name of Mr. Henderson.

Which motion prevailed.

And the Clerk was instructed to call the roll on the name of John H. Henderson, and the roll being called, the result of the voting was as follows:

For John H. Henderson:

Hon. E. V. Babcock Mayor

Messrs.

Dailey	McArdle
English	Rauh
Garland	Robertson
Herron (President)	Winters

When the name of Mr. McArdle was called, he arose and said:

"Mr. President, I am going to vote for Mr. Henderson, but in doing so I want to say that I am handicapped by the lack of an acquaintanceship with the gentleman. I have heard many kind things said of him, and I have no personal misgivings as to the results that will be attained as the result of his membership. Had circumstances been different and physical conditions permitted, it would have been my pleasure at this time to have cast my vote for another gentleman; but, he not being able to permit the use of his name, I join the other members in supporting Mr. Henderson."

When the name of Mr. Rauh was called he arose and said:

"Mr. President, it gives me pleasure to vote for Mr. Henderson."

Before the announcement of the vote, Mr. Garland arose and said:

"Mr. President, in addition to what Mr. McArdle has said, I would also have voted for the other man mentioned, but, unfortunately, the gentleman from the North Side whom we had in mind is in poor health and, on the advice of his physician declined to accept the position. However, Mr. Henderson is a North Sider, a good man and a good citizen, and will make a good Councilman."

Hon. E. V. Babcock, Mayor, arose and said:

"Mr. President and Gentlemen of Council, the man referred to by Mr. McArdle and Mr. Garland is David

Hunter, Jr. It is fair to the Senator to say that his name had been considered in this election as the successor of Mr. Burke. It is putting it mildly to say that Senator Hunter had many warm friends, both in and out of Council, who are strongly in his favor. Mr. Hunter is a good man and has been in public life many years. He was at the head of the North Side light plant, and he gave the people there a better system of electric lighting than they ever had before. He earned the good will and friendship of a great many of our citizens.

"It was only on last Saturday that his name was declared out of the contest by himself. He called up at my office and said it was his physician's instructions that he should not undertake any active work upon himself, such as the duties of a Councilman. He said he was going to follow his doctor's advice and try to gain his strength back. The only reason for the withdrawal of his name was that his health forbade him to serve.

"I am glad to say that Mr. Hunter is a splendid man and would no doubt have made a good Councilman."

Mr. Robertson arose and said:

"Mr. President, I want to say one word since the Mayor has mentioned the name of Mr. Hunter. Mr. Hunter is a neighbor of mine and has acted like a father to me for the past eighteen years. I have the highest regard for him. He has served in the Senate and in the House of Representatives, and his record, like Mr. Henderson's, is above reproach. I am sorry that his physical condition is such that it prevented the use of his name for the position."

Mr. English arose and said:

"Mr. President it would be well, without disclosing everything that took place at the conference held in the Mayor's office, to say that several names were mentioned for our consideration, and that it was finally narrowed down to the two names, John H. Henderson and David Hunter, Jr. It was only when the Mayor and Council finally understood that, under no circumstances, could Mr. Hunter accept the place because of the condition of his health that his name ceased to be considered. It is only fair to his family and his friends to say this."

And John H. Henderson received 9 votes.

And John H. Henderson, having received a majority of the votes of Council, in conjunction with the Mayor, was duly elected a member thereof, in accordance with the provisions of an Act of Assembly, approved May 31, 1911.

And the Chair appointed Messrs. Dailey, Bauh and Garland a committee to escort Mr. Henderson to the Council Chamber.

The committee then retired and returned with John H. Henderson, the member-elect, who was duly sworn by the Mayor, at the request of the Chair.

Mr. Henderson arose and said:

"Your Honor, the Mayor, Mr. President and Members of Council, I am highly gratified with the honor that you have conferred upon me, and I wish to thank you now publicly and collectively for your kind consideration, as I will thank you personally and privately later. I hope our relations will be amicable and friendly and that my association with you, as a member of Council of the City of Pittsburgh, will not only be pleasant and agreeable, but will redound to the benefit of this great City, which we all earnestly wish to serve well."

Mr. Bauh moved

That the following members be excused for absence from Council and committee meetings:

Mr. Burke on March 31, April 1, 8, 15, 16, 29, and May 9, 1919.

Mr. Dailey on April 1, 8, 1919.

Mr. English on April 22, 28, 29, 1919.

Mr. Garland on April 7, 8, 22, 30, and May 6, 1919.

Mr. Bauh on March 31, April 1, 8, 22, 1919.

Mr. Robertson on April 8, 22, 28, 29, 1919.

Mr. Winters on April 28, 29, and May 7, 1919.

Which motion prevailed.

And, on motion of Mr. Garland,

Council adjourned.

PRESENTATIONS.

The Chair presented
No. 2741.

CITY OF PITTSBURGH, PA.

May 19, 1919.

To the Honorable, the
President and Members
of Council.

Gentlemen—It affords me great pleasure to transmit today for introduction into your Honorable Body seven (7) bond ordinances, which are a result of our numerous conferences and discussions of the subject matter, in final form for action and expeditious passage.

I thank you sincerely for your response for definite action in this direction and your co-operation in putting into form the greatest and most important project for municipal improve-

ment in Pittsburgh which has ever been undertaken in the history of the City.

Very respectfully yours,

E. V. BABCOCK,

Mayor.

Which was read, received and filed.

Also

No. 2742. An Ordinance signifying the desire of the corporate authorities of the City of Pittsburgh that the indebtedness of said City be increased in the amount of nine million five hundred seventy-nine thousand dollars (\$9,579,000.00) for the following purposes, namely: For the cost and expense (including engineering expenses) of repaving, repairing, reconstructing and otherwise improving the streets of the City generally and for the City's share or part thereof of the cost, damage and expense (including engineering expenses) of opening certain new streets and improving certain new and certain existing streets, including, as may be required in the case of each such street, vacating, widening, establishing and changing grades, grading and regrading, curbing and recurbing, relaying sidewalks, laying and relaying sewers and drains, constructing and reconstructing retaining walls, street foundations and surfaces (including any and all such improvements as may be incidentally necessary to intersecting and adjacent streets), and providing for a special election to be held in said City for the purpose of obtaining the assent of the electors thereof to such increased indebtedness, and providing for a notice of such election.

Also

No. 2743. An Ordinance signifying the desire of the corporate authorities of the City of Pittsburgh that the indebtedness of the City of Pittsburgh be increased in the amount of six million dollars (\$6,000,000.00) for the purpose of paying the cost, damage and expense (including engineering expenses) of providing transit facilities, consisting of a subway in the First and Second wards of the

said City adapted to the use of either the street surface cars or high-speed trains, or both, as may hereafter be determined, together with the necessary approaches, stations, buildings, works, appliances, equipment and appurtenances, upon such routes and according to such plan as may hereafter be determined by ordinance and approved by such public authorities as may be required by law; providing for a special election to be held in said City for the purpose of obtaining the assent of the electors thereof to such increased indebtedness, and providing for a notice of such election.

DEPARTMENT OF PUBLIC HEALTH.
City of Pittsburgh, Pa.,
May 20, 1919.

Mr. E. J. Martin,
City Clerk.

Dear Sir—Referring to your letter of May 6, in reference to the use of fuel on the Pittsburgh Junction Railroad, I beg to advise that the use of coke on that road was resumed prior to my last communication. The road has been under constant inspection and no violation of the law has been detected, except on one occasion, when smoke was made

for a period of one and one-quarter minutes, which was not due to the fuel, but was probably due to careless firing.

In your communication you informed me that the company is still using soft coal on its locomotives. I would like to have something specific on that matter, as I cannot find that it is using soft coal.

Yours very truly,

WM. H. DAVIS,
Director.

Which was read and, on motion of Mr. McArdle, received and filed.

And, on motion of Mr. Garland,
Council adjourned.

OFFICE OF THE MAYOR.

Pittsburgh, May 21, 1919.

President and Members of

Council of the

City of Pittsburgh.

Gentlemen—For your information, beg to append herewith copy of letter which I have received from the Mayor of the City of Nancy, France, in acknowledgment of receipt of a City of Pittsburgh flag and a United States flag, presented through M. Mercel Knecht, of the French High Commission in America, on July 14, 1918, the occasion of the celebration of Bastille Day.

Very respectfully yours,

E. V. BABCOCK,

Mayor.

RELEASED BY THE MAYOR'S OFFICE.

May 21, 1919.

As a feature of the celebration of Bastille Day in Pittsburgh last year, a flag of the City of Pittsburgh and a flag of the United States of America were presented to the City of Nancy through her distinguished son, M. Mercel Knecht of the French High Commission in America. The Prefet of the Department of Meurthe-de-Moselle acknowledged the receipt of the flags and advised that they were immediately sent to the Mayor of Nancy, thus observing official French etiquette. Since that time no word has been received by Mayor E. V. Babcock until yesterday, when the official acknowledgment of the City of Nancy was received. It was dated October 8, 1918. It came to the Pittsburgh postoffice addressed "Monsieur Le Maire, de la Ville

de Pittsburgh, Etats Unis d'Amerique." The postal authorities here did not recognize the letter as belonging to the Mayor. They instituted a directory search, advertised the letter and then returned it to the Mayor of Nancy unclaimed. The Mayor of Nancy then sent it to the American Ambassador in Paris who, under date of April 30, 1919, forwarded it to Mayor E. V. Babcock, with explanations for delay.

The letter follows:

"I have the honor to acknowledge the reception of your very cordial letter of July 18, with the flag of the great City of Pittsburgh and that of the United States.

"By a most happy coincidence, your letter came to us on the very day when the American army launched its attack on the Meuse, and in one magnificent, irresistible bound which awoke the admiration of all the armies of the Entente, wiped out the famous St. Mihiel pocket.

"The sentiments which you so nobly express toward Nancy and her courageous population have profoundly moved us, and have gone straight to our hearts.

"And we shall piously keep in the archives of the city the admirable letter which translates your thought.

"We shall show in the place of honor the precious emblems which you have so kindly given us.

"These pledges shall prove to all who see them, and in an eloquent fashion, the close union which exists between the two great democracies of America and France, and the warm and mutual sympathy which prevails among their children, whose blood fraternizes on the fields of battle.

"In the name of the City of Nancy and the Municipality, I beg you to thank most cordially your fellow citizens for the friendly sentiments they have expressed toward us. Give to them from us the patriotic greetings of 'the Pittsburgh of France,' and accept the expression of our lively and grateful affection."

DEPARTMENT OF LAW.

City of Pittsburgh, Pa.,

May 26, 1919.

To the Honorable, the
President and Members
of the Council.

Gentlemen—The seven bond ordinances, as returned to your body from the Finance Committee, have received my full approval as to every detail of form, as also that of Messrs. Hawkins, Delafield and Longfellow, as will appear by copy of letter addressed to me from said law firm under date of May 24, 1919, hereto attached.

I might add, in explanation of the reference in this letter to multiples of 30 000, it would have been impossible to have had these seven multiples, allowing denominations of even \$1,000.00, in all bond issues, without increasing the total indebtedness by some \$400,000.00.

Respectfully yours,

CHARLES A. O'BRIEN,
City Solicitor.

HAWKINS, DELAFIELD & LONG-
FELLOW.

Attorneys and Counsellors at Law.
20 Exchange Place, New York.

May 24, 1919.

Charles A. O'Brien, Esq.,
City Attorney,
City-County Building,
Pittsburgh, Pa.

Dear Sir—We have examined copies of the seven ordinances relating to the increase of the indebtedness of the City, which we understand were introduced in the Council on Monday, May 19, 1919, and, in our opinion, the form of such ordinances is satisfactory.

We have heretofore advised you that, under the decision of Raff against Philadelphia, 256 Pa. 312, the expenditures for the purposes stated in the ordinances (except in the case of the sewer and water system) will be limited to the amounts approved by the electors, and cannot be increased by councilmanic action without the assent of the electors. The ordinances could be worded so as to avoid this limitation if you desired.

We also call your attention to the fact that the amounts stated in the ordinances for the several purposes are not in all cases multiples of 30,000, so that in some cases bonds cannot be issued in even denominations of \$1,000.00. This is not very material, however, as the

amounts are such as to permit the odd bonds to be in multiples of \$100.00.

Yours very truly,

HAWKINS, DELAFIELD & LONG-
FELLOW (Signed).

L.I.D., Jr./M

Which was read and, on motion of Mr. Garland, received and filed and ordered printed in full in the Record.

Also, with an affirmative recommendation.

Bill No. 2742. An Ordinance entitled, "An Ordinance signifying the desire of the corporate authorities of the City of Pittsburgh that the indebtedness of said City be increased in the amount of nine million five hundred seventy-nine thousand dollars (\$9,579,000.00) for the following purposes, namely: For the cost and expense (including engineering expenses) of repaving, repairing, reconstructing and otherwise improving the streets of the City generally and for the City's share or part thereof of the cost, damage and expense (including engineering expenses) of opening certain new streets and improving certain new and certain existing streets, including, as may be required in the case of each such street, vacating, widening, establishing and changing grades, grading and regrading curbing and recurbing, relaying sidewalks, laying and relaying sewers and drains, constructing and reconstructing retaining walls, street foundations and surfaces (including any and all such improvements as may be incidentally necessary to intersecting and adjacent streets), and providing for a special election to be held in said City for the purpose of obtaining the assent of the electors thereof to such increased indebtedness, and providing for a notice of such election.

Which was read.

Mr. Garland moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. Rauh arose and said:

"Mr. President, after many conferences with boards of trade, civic bodies, our Law Department, Public Works Department, and others, extending over some months, Council and the Mayor submit the bond ordinances for contemplated public improvements, and which will in the near future be presented to the voters of Pittsburgh for their approval. Other worthy improvements were suggested, but we were told by high authority for the present not to

exceed the bond borrowing power of the City above amounts submitted.

"I intend, by my vote and voice, to support each and every bond ordinance introduced today.

"And will strongly advise the voters of this City to do likewise.

"In addition to the value of these necessary improvements work will be furnished a great many of our working people and others for three or four years to come.

"I regret that some other worthy improvements could not have been added to the list presented today, but for reasons stated it could not be done.

"I particularly regret that \$500,000.00 could not have been added to the list for the buying or building of an incineration plant for the collection and disposal of garbage and rubbish, as it has been frequently shown that this work now is not being properly done, and I believe that the City and not private contractors should do this. As stated, however, I intend to support every item, knowing same will help to improve and benefit the entire City."

And the bill as read a second time was and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Dalley	McArdle
English	Rauh
Garland	Robertson
Henderson	Winters
Herron (President)	

Ayes—9.

Noes—None.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also

Bill No. 2743. An Ordinance entitled, "An Ordinance signifying the desire of the corporate authorities of the City of Pittsburgh that the indebtedness of the City of Pittsburgh be increased in the amount of six million dollars (\$6,000,000.00) for the purpose of paying the cost, damage and expense (including engineering expenses) of providing transit facilities, consisting of a subway in the First and Second wards of the said City adapted to the use of either the street surface cars or high-speed trains, or both, as may hereafter be determined, together with the necessary approaches, stations, buildings, works.

appliances, equipment and appurtenances, upon such routes and according to such plan as may hereafter be determined by ordinance and approved by such public authorities as may be required by law; providing for a special election to be held in said City for the purpose of obtaining the assent of the electors thereof to such increased indebtedness, and providing for a notice of such election.

Which was read.

Mr. Garland moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. English arose and said:

"Mr. President, it is with a feeling of pride and satisfaction that I rise on this occasion to speak in favor of these bond ordinances. I am mindful of the great responsibility resting on me as a member of Council and on the Council itself, as constituting the law-making body of this great City.

"For many years our City has suffered untold damage because of the lack of street, sewer and water improvements. It is true, of course, that the Council and the Executive have tried to provide some improvements, but it has not been possible to finance any considerable number at one time. The result is that certain sections of the City claims to have been neglected.

"In response to the appeal of the people, through boards of trade, committees and various organizations, we are today placing before them the answer to their numerous petitions. No one can charge this Council with any failure to consult the people on this bond issue. No citizen or body of citizens can honestly or truthfully say that we have ignored any requests for hearings on the matter of public improvements.

"I am proud of our action in going over this matter carefully and taking plenty of time to hear and consider every request made by anybody and everybody. If ever a Council in any city has responded to the will of the people I am quite certain that this Council of 1919 has, with great care and patience, given earnest and deliberate consideration to this important public business.

"I am confident that most of the people are familiar with most of the fifty items covered by the seven ordinances, which express our desire for an increase in the public debt. Hence it is not necessary to enumerate the various items. As the vote in conference and

committee has been unanimous on almost every item, it is sufficient for me to say that I am satisfied that each and every item is worthy, and I hope the result of the election will show the approval of the people.

"Inasmuch as the vote on the subway item appears to be singled out for attack, I think it well at this time to present a few brief reasons for my support of this particular item.

"The first and all-important reason is that of furnishing an opportunity for the people to vote on the question of a subway. If our vote today was the last act required to build a subway, the genuinely conscientious opposition might have developed some real reasons for opposition. However, inasmuch as our vote today is only the first step in a long series of legal and technical proceedings, I am surprised that any member of Council would hesitate to help in placing the issue before the people for decision.

"In a few months we will hear the candidate for office shout that he proposes to be the servant of the people, and yet, in this enlightened day of a non-partisan Council, open primaries, splendid registration laws and all the safeguards around the ballot that it is possible to have, we find a few people here and there who are opposed to giving the people an opportunity to express approval or disapproval on any subject.

"I insist that, whether a member of Council favors or opposes a subway or any other item in this bond issue, it is clearly his duty in this case to assist in giving the people an opportunity to vote on the matter. What right has any servant of the people to set himself up as final arbiter and dictator in a matter that is to go before the people for judgment? Even if one were opposed to a subway or any other item, it is my opinion that he ought to consider it a great privilege to give the people who support the government an opportunity to consider and vote 'yes' or 'no' on any question.

"The fundamental power of all government is vested in the people. Our own beloved Declaration of Independence is clear on this subject, to-wit: 'Governments are instituted among men, deriving their just powers from the consent of the governed.'

"Is it possible that the great world war for civilization has made no impression on members of Pittsburgh City Council? Is the progress of this great city to await the will and pleasure of Councilmen or any others who might have the power to say that the sovereign people are to be denied even the right to vote?

"Surely no man can afford to set himself up as the one individual on a plain

question of 'Shall the people be permitted to vote their approval or disapproval on any subject?'

"Gentlemen of Council, permit me, in a friendly spirit, to urge each and all of you to vote your approval of the matter of submitting the subway item and all other items to a vote, even if you are opposed to a subway or any other item. Frankly say that you are opposed to the item and go out and vote against it, and talk against it, and campaign against it, but do not let it be recorded that you, the elected representative of a great City, would deny or deprive any voter or taxpayer of an opportunity to pass HIS judgment on any of these items.

"If any item in these bond ordinances is not worthy of public approval, such an item ought to fail. On the other hand, if it is worthy of public approval, give it a chance to reach the public at the polling place. Remember, we are representatives of all the people, not only those who happened to vote for us, but representatives, also, of those who voted for others. Perhaps some voters were sick or absent or failed to register, and certainly there are thousands of women and children who did not vote at all, but surely we are their representatives also.

"The City of Pittsburgh has spent vast sums of money, running back several years, in a vain effort to solve the matter of transportation. We have cursed and discussed the Pittsburgh Railways Company, in season and out of season, until finally the war has hastened the end of this famous waterworks.

"Now, what relief does the opposition to a subway propose? What remedy do they suggest? None at all. They sit down, like Dicken's Micawber, waiting for something to turn up.

"Every member of this Council and thousands of people in Pittsburgh know that the Pittsburgh Railways Company is slowly sinking and that, unless some energetic action is generated, our City will suffer more in the future than it has in the past. We had the nerve and the courage to step up and adjust the electric light and power business in a spirit of decent and dignified compromise and, if the arrangement now effected is carried out in the good faith in which it has begun, I am confident it will be successful and satisfactory to everyone and Pittsburgh will make rapid progress.

"Is the opposition to the subway real or fancied? Do we not know that this subway will be the first step or link in a real rapid transit system for the City of Pittsburgh? Is it because the Mayor has urged it? If that is the objection, then why not tell that to the people who

voted for the Mayor, and give that as the reason.

"My position has not changed since I placed my name before the voters as a candidate for office. I shall support every good thing and oppose all the bad things. If the Mayor or any other person offers a good suggestion or ordinance, it should be adopted. Certainly one cannot say that submitting a subway proposition for discussion and vote of the people is wrong or bad for the people.

"Even if one has his own ideas about street car transportation, nothing has been presented by any member of Council to show, or even attempt to show, that a subway would be a bad thing for Pittsburgh.

"Who can guess at what will emerge when the bondholders, stockholders, court and receivers are through with the Pittsburgh Railways Company? Is any member of Council wise beyond the rest of the community, that he has the solution of the transportation problem? We have several volumes of reports, and we have had engineers working on the matters for years at great expense to the taxpayers, but no authority is greater than the people to say what shall be done in this or any other matter.

"From a standpoint of cost in dollars and cents there can be no argument against trying to get some relief. Take the fare increase from 5 cents to 7 cents, which cost the community close to four million dollars a year, based on 200,000,000 fares (in 1917 the Pittsburgh Railways Company carried 282,000,000 people). Figuring the \$6,000,000.00 subway at 8 per cent., which includes interest and sinking fund charge the annual cost would be \$480,000.00, as compared with \$4,000,000.00 on account of increased fare, and still no improvement in the Pittsburgh Railways Company operation. In this one item of increased carfare the annual cost to the community is ten times the cost of the subway.

"If you add to this the losses of individuals, due to bad streets, broken vehicles, injuries to horses and loss of time, you should begin to realize that it is high time to do something to improve the present transportation system.

"On first thought some may say, 'Why do anything until we have some agreement with the Pittsburgh Railways Company?' Well, why don't you who oppose the subway go ahead and make such an agreement? On what will you start? The City is unable to make any agreement, and the receivers are unable to make any kind of agreements, much less provide real rapid transit.

"Every intelligent person who was in or near Pittsburgh or Allegheny County ten days ago knows that the receivers

of the Pittsburgh Railways Company could not even keep the cars moving for several days. Certainly the Council cannot get any satisfaction on Chartiers avenue, Warrington avenue, Carson street or even on the repaving schedule for several years past. Have we had any results from the past year under the receivership?

"My opinion is that we should, as a matter of conscience, put this question before the people of Pittsburgh and tell them the truth, that at present no one knows what will happen in the matter of the Pittsburgh Railways Company troubles. However, the City of Pittsburgh must get ready for anything and everything which might happen, and the City ought to be prepared to do something to provide some kind of relief from an intolerable situation. If the people approve the item of a subway then the City will be able to do something; if the people do not approve the subway, then something else will have to be tried. If any other member of Council has some other plan, why has he kept silent all this time?

"I had a plan to ask the people to give authority to spend \$24,000,000.00 on a complete municipal transportation system, using the 10 per cent. debt limit as provided by the State Constitution. It is not violating any confidence to put in the Record that I did not get any support for my suggestion, and, in addition to that lack of support, the attorneys would not venture an opinion on the constitutional question.

"Having given my best efforts by suggesting a new and complete rapid transit system, and my suggestion being rejected, I deem it my duty to assist in placing before the people the next best plan of a subway, as proposed by the Mayor.

"Whether the people approve or disapprove the subway, I shall always feel that I have done right in helping to place the matter before them, and will accept the verdict of the people as final.

"Let the people rule."

Mr. McArdle arose and said:

"Mr. President, I consider it to be one of the distinct advantages of Americanism that men are permitted to make up their minds for themselves and to place their own construction upon what is their private and their public duty, and that same right reflects itself in a rather liberal way, though, perhaps, not so extensively, with a man who holds a public office; and because of that fact I am committed in this action to a project—the subject before us—with an entirely different viewpoint than that possessed by some other men. I take myself to be in the position of a public official about to vote upon an ordinance known as a desire ordinance, and it sets out

specifically in its language, in unmistakable terms, that it is the desire of the City to expend \$6,000,000.00 for the building of a subway, and that, I take it, will imply to the voting public of Pittsburgh that those who are responsible for the passage of that ordinance have formed the desire therein expressed after having reached very definite conclusions about the merit of the project upon which they are asking the voting public to give them authority. In other words, I take myself as a public official to be performing or about to perform a public function that is expected of me, and that that public function is not the submission of a question to the public of Pittsburgh for their judgment upon it. We are asking for authority, for consent, to do the thing we say should be done when we pass this ordinance. I think that is the way the public of Pittsburgh is looking at me as a member of the City Council, and that is the way my vote will be determined.

"I am not in the position of applying the principle of referendum in government; on the contrary, I am meeting a strict provision of the Constitution of the State, from whence the power of this Councilmanic body originates, and that if I support or oppose the measure now before us that I will be regarded by the citizens of Pittsburgh as either being opposed to the project or believing in its merits, and if I am for it I expect it to be quite reasonable for them to suppose that I think it to be a meritorious way in which \$6,000,000.00 of the public's money should be expended in the interest of the public of Pittsburgh.

"I am opposed to the passage of Bill No. 2743, expressing the desire of Council to spend six million (\$6,000,000.00) dollars for the building of a subway in the First and Second wards of the City for the following reasons:

"First—It has never been recommended by any agency or persons selected by the City of Pittsburgh to make a study of and report on the transportation problems of the City.

"Second—It makes no provision for greater rapidity in travel on electric lines than that now provided, except to the limited degree that relief might be had by a partial escape from the results of vehicular traffic congestion.

"Third—Neither the City officials nor the public have any information as to whether any agreement could be made with the Pittsburgh Railways Company for the operation of such a subway. It is also plain that the company would dictate the terms under which it would lease it or allow it to remain unused.

"Fourth—No one can tell in advance of the definite readjustment of the financial affairs of the Pittsburgh Railways Company whether that company can

make an agreement by which it could compensate the City for the use of a \$6,000,000.00 investment, the use of which would not increase the company's revenue a single dollar, and I am sure that the people of Pittsburgh are not yet ready to invest \$6,000,000.00 for the use of a privately owned public utility and carry the burden of the interest and sinking fund charges themselves in their municipal tax rate.

"Fifth—The passage of this ordinance and its approval by the people would tie up \$6,000,000.00 of the City's bonding power during such time as might elapse before such subway was built, which would necessarily be several years.

"It cannot be considered as a real beginning of a subway system, because it could not be used for the presently contemplated uses and at the same time be used by a subway rapid transit system using heavy trains and running on fast schedules. Further, nothing has been developed to show that a subway or transit system fitting into this subway plan would meet the most urgent demands of the City, or whether it would be self-supporting.

"I am opposed to the submission of this desire ordinance because I believe it to be so ill-timed and inadequately considered that it will prove a handicap to the favorable consideration of the other items that will appear on the ballot about which there is such unanimity of favorable opinion among those who have studied them, and because of the total lack of public demand for an expenditure of so large a sum for such a doubtful purpose."

Mr. Winters arose and said:

"Mr. President, I want to register my disagreement with Mr. McArdle on this question. It is the duty of the Council to submit so large a proposition as this to the people of Pittsburgh for their approval or disapproval. For this purpose Council is required, in its line of public duty, to pass desire ordinances which express its desire to submit to the people of Pittsburgh a schedule of public improvements and the cost of same, for which the final decision is made by the people by a referendum vote. I believe it is our duty to submit this subway question to the people for their approval or disapproval. If five members of Council were opposed, for any reason to this item being submitted to the voters of Pittsburgh, they could prevent the people from registering an opinion on it, though it might be popular.

"I disagree with Mr. McArdle when he says that we commit ourselves to the merits of this project when we express our desire that it should be submitted to the people for their approval. Although I might be opposed to this subway, yet I believe it should be incor-

porated in the items to be put before the people, in order that they may have the final say, and I am fully convinced that it ought to be submitted to the people because it has been a subject of controversy for many years, and I have confidence in the people doing the right thing.

"The people of Pittsburgh have spent vast sums of money for traction experts. Men of great learning and men in public life have been for and against this project, and there has taken place much discussion as to the merits and demerits of the proposition.

"We now propose to submit it to the people, when it will be given full publicity and allow those in favor of it to present an attractive argument why it should be approved by the people, and those who are against it are given the same privilege, and can express their reasons why it should not be incorporated in the list of items to be approved by the voters of Pittsburgh and, if they have sufficient merit in their arguments to bring about such a result, then it shall fail, proving thereby that the people don't want it.

"There is nothing personal at stake for the members of Council in this matter; it is only expressing their desire to allow it to go to the people for a vote.

"As far back as 1910 the late George W. Guthrie, when he was Mayor, speaking on the railways subject said, 'With the development of the City, subways will become necessary—in fact a subway under Smithfield street would be a great relief today.'

"Following that period I remember Mr. Bion J. Arnold, a traction expert, was brought here, and the City paid nearly \$40,000.00 for his expert opinion in regard to relieving the traffic congestion in Pittsburgh and transit problems. In his report to the Mayor and the City Mr. Arnold recommended the construction of a downtown subway. He said in his report, on page 11:

"The Pittsburgh district must look for real rapid transit from the building of subways and the electrification of the steam suburban lines. Subways will, in the course of time, become desirable and even necessary in order to relieve the congestion of cars from the surface of the downtown streets, and in order to overcome the topographical disadvantages of hills and rivers which now divide the City into a number of separate communities."

"Then he goes on to say that the subways shall be built and owned by the City of Pittsburgh.

"While it is true that Mayor Magee did not go along with the plans that were submitted, yet nothing was offered as a substitute. The citizens of Pittsburgh and every man interested in Pitts-

burgh affairs grants and agrees that the transportation system and the service rendered by the Pittsburgh Railways Company is wretched and ought to be improved, and something ought to be done to relieve the congestion on the downtown streets of Pittsburgh. Yet, in view of all these facts, nothing acceptable has been offered.

"I want to say to those who oppose this ordinance, if you don't believe this is a good thing, offer something else as a substitute.

"During Mayor Armstrong's administration there was a bill passed in the Legislature at Harrisburg enabling cities of the second class to build subways. The Chamber of Commerce has endorsed a municipal-owned downtown subway some time ago.

"I want to say, if for no other reason, whether I believe or don't believe this subject is a good proposition, I believe this question should go before the people for its decision, because Mayor Babcock, in announcing his candidacy for the office to which the people elected him, submitted this to the people in these words, which appeared in the Pittsburgh papers of August 13, 1917:

"I favor the building, by the City, of an underground downtown subway street car loop, to relieve the daily increasing congestion of our streets and secure greater safety and better facilities for the public to conveniently attend their respective daily pursuits in the use of our highways."

"Mayor Babcock went around the City offering that to the people of Pittsburgh as one of his pledges if he were elected the Mayor of Pittsburgh. He was elected Mayor, and he has the right to go before the people, for their approval of one of the fundamental pledges of his platform.

"The Pittsburgh Post at that time, on August 13, 1917, said editorially:

"One of the most important of Mr. Babcock's declarations is for the construction of a downtown subway loop by the City. As early as November 27, 1912, the Post advocated this as the solution of the traffic congestion problem. Nowhere but in the downtown district is the trouble experienced. Traction experts, the Chamber of Commerce and others who have investigated the subject have agreed that the subway loop is the solution, and legislation has been obtained to enable the City to build it and lease it to a private corporation."

"In numerous speeches before the people Mayor Babcock repeated this pledge, as the following extract from the Pittsburgh Press of October 24, 1917, shows:

"After we have done all we can do to improve the surface lines, we should look to the construction of a subway, confined at first, possibly, to a downtown

loop. This can be undertaken by lending the City's credit for the cost of the construction and then leasing for a period of years, the rental to be fixed by the amount necessary to pay interest and sinking fund charges."

"Now, then, with this subject being so thoroughly discussed before the people and having the endorsement of the Director of the Department of Public Works and the Superintendent of the Bureau of Engineering, Mr. Sprague, and having been a live question for many years in Pittsburgh, and having been in the Mayor's platform (and if elected he would carry it to the people, and he was elected), I see no reason why any member of Council cannot conscientiously, even if opposed to the project, allow the people to render their opinion.

"The principal trouble with legislative bodies in the past has been their refusal to submit questions like this to the people and holding in committee real live questions in which the people are interested and which they are clamoring for.

"For the several reasons stated I am voting to have the building of the subway placed in the bond issue and, as it is placed in an item separated from all others, I think we will have a fair decision rendered."

Mr. Dailey arose and said:

"Mr. President, I would like to interrogate the gentleman."

Mr. Winters:

"You may, sir."

Mr. Dailey:

"You state that the Mayor, in his campaign speeches, pledged himself to the subway. Do you know why the item for the downtown subway loop was not included in the first list of bond items submitted to Council?"

Mr. Winters:

"No, sir."

Mr. Dailey:

"Do you know the reason for the subway item coming in as a second addition, or supplement to the first list of items submitted by the Mayor and the Planning Commission?"

Mr. Winters:

"No; the Mayor should explain that. I don't propose to inject something that does not pertain to the subject now under discussion."

Mr. Dailey:

"I want to call your attention, Mr. President, to the fact that the subway item came to us after the list of items

had been submitted by the Mayor and approved by the Planning Commission, and no loop was even suggested. I recall we were holding a committee meeting; the Mayor sent a communication to us, and it came as lightning out of the clear sky. This project, if passed, ties up \$6,000,000.00 of the City's money. The Controller informs us that if the item is approved by the people, whether the City sells the bonds or not, it will be a charge against the bond indebtedness. The Mayor and his departmental chiefs agree that the City will not go ahead with the building of the subway unless they have an agreement as to rental and use, but I repeat it is a \$6,000,000.00 charge against the City.

"During the hearings before Council on the items for incorporation in the bond issue, this loop item did not receive the endorsement of any of the representatives of the civic organizations who appeared before us. The Chamber of Commerce nor any other body endorsed it before our Finance Committee. I remember we had the Municipal Affairs Committee of the Chamber of Commerce present at one of these meetings, and they submitted an elevated railroad plan.

"We made no effort to confer with Mr. Arnold or Mr. Morse in regard to this downtown subway loop. We all know Mr. Morse does not recommend a downtown loop. Do the Allegheny cars go into it? What will the Pittsburgh Railways Company give up or surrender in exchange for the privilege of using the subway? Will they take any of their tracks off Fifth avenue or Forbes street? An agreement was reached that for use of the Exposition buildings a rental for part of the building was agreed upon but not an agreement of any kind in regard to the use and operation of their cars in this proposed subway. I don't think it is a good proposition to impair the bonding power of the City of Pittsburgh by \$6,000,000.00. I don't believe we should ask the voters of the City of Pittsburgh to vote to spend \$6,000,000.00 to help out a bankrupt corporation without a hearing from those in charge of the affairs of the Railways Company or without any endorsement from any organization. I know of no great public demand for this subway. It is not even a start to improve rapid transit in Pittsburgh; and, if built and used, it will not be for the interest of the people who ride on the street cars; it will be for the interest of the bondholders of the defunct Pittsburgh Railways Company.

"For the reasons given, I am opposed to the ordinance."

Mr. Winters arose and said:

"Mr. President, I desire to ask the gentleman a question. Is it not true that the Mayor and Council have agreed

not to build the subway if the item should be approved by the people unless satisfactory terms can be made with the Pittsburgh Railways Company; and, if said terms are not made, will the bonds be sold?"

Mr. Dailey:

"I say the bonds will not be sold if the agreement is not reached. However, and the Controller will bear me out, this \$6,000,000.00 will be a charge against the Councilmanic borrowing power, whether the bonds are sold or not."

Mr. Winters:

"Yes but as the City will not float another bond issue for several years, this will be of no consequence. Is it not the intention of all that the City should own the subway if built?"

Mr. Dailey:

"Yes, sir."

Mr. Winters:

"If there is no more merit in it than you can see, you admit it will be defeated?"

Mr. Dailey:

"I am not able to state what the people will do."

Mr. English arose and said:

"Mr. President, I would like to ask the gentleman a question. He refers in his original question that the only statement from the Mayor on a subway came in after the bond issue had been placed before Council. I want the gentleman to give me a straightforward answer. Suppose this Council, by a majority vote, whether the Mayor favored it or not, decided as the Councilmanic program, without any requests from the Mayor or others, had voted to include this item of a subway in a bond issue, would the gentleman have favored it?"

Mr. Dailey:

"If it were a real subway project, Mr. President, getting the people some place, I would say yes."

Mr. Garland arose and said:

"Mr. President, I am for all the contemplated improvements for the following reasons, stated briefly:

"Pittsburgh in proportion to its population, has a greater unexpended borrowing power than any other American city, and very much greater than the average American city. General trade and employment conditions indicate that this is an opportune time to make necessary improvements.

"Pittsburgh is the center and hub of the fourth metropolitan district of the country, and is destined to be what it

is in reality in all other respects excepting population—the fourth American city. We are, therefore, in a measure, preparing ourselves for that day in the near future when we will have our Greater Pittsburgh.

"The items submitted in the bond issue have all received careful and comprehensive consideration, with a view to doing those things generally throughout the City that are most needed at this time.

"In a separate ordinance will be submitted for a vote of the people the downtown subway proposition. This is one of three steps necessary to obtain relief from a present and rapidly growing congestion, and also to afford rapid transit facilities. In time we will have tunnel connections with the outlying districts, and it is probable that we may have a few elevated railroad lines. The same cars that would go through these tunnels or over the elevated, would go through the downtown subway. Some initial step must be taken towards relief, and, while there may be a difference of opinion as to which step should be undertaken first, it is my opinion that the people, when they understand the general subject of rapid transit and the imperative demand therefore, will, by their votes, endorse the subway project, as they will all the other improvements deemed necessary by the Mayor and Council in the desire ordinances submitted."

Mr. Bauh arose and said:

"Mr. President, I wish to state that I happened to be in Council when Mayor Magee vetoed the subway ordinance, and I supported him. My reason for doing so was because this franchise he vetoed was for a private corporation. I feared then that if this were granted that before long it would have become the property of the Pittsburgh Railways Company, directly or indirectly. This proposition before us is entirely different. The City of Pittsburgh will build and own it. The City will say who is to operate it. That is why I am for this proposition—because it will be owned by the City of Pittsburgh. And, with unanimous consent of Council, I would like to submit, as part of my remarks, the argument of Mr. Sprague on the downtown subway loop. This is a strong argument in favor of the subway and should be inserted in the Record. The statement is as follows:

ARGUMENT OF N. S. SPRAGUE,
SUPERINTENDENT OF BU-
REAU OF ENGINEERING,
CITY OF PITTSBURGH.
TRANSPORTATION STUDIES.

The subject of transportation in the downtown district has been studied for

the past several years, and numerous reports submitted thereon, the latest being that of the Transit Commissioner, which differs from previous reports heretofore submitted in that the downtown triangular district of the City is bisected by two subways, one extending north and south and the other east and west, whereas all other reports suggested a terminal or loop in the downtown district.

There are many elements which enter into the rendering of an ideal system of transportation. The traveling public desires to have the transportation facilities so arranged and located as to make them as close to their point of destination as possible and to reach it in the shortest possible time, consistent with safety. To meet these requirements it is necessary to determine where the majority of the people wish to go, and then to provide such transportation facilities as will best meet these requirements.

I think we are all agreed that the time has arrived for improved transit facilities for this City; the question is how shall they be attained and what section of the City shall receive first consideration to do the most good and furnish the greatest relief. The downtown business district of the City is confined, by natural barriers, to an extremely small area, characterized by narrow streets and tall buildings and with consequent concentration of traffic.

RELIEF OF TRAFFIC CONGESTION.

Relief for present traffic congestion has heretofore been attempted by various expedients, including the installation of one-way traffic and parking restrictions for automobiles. The relief thus afforded is temporary in character and inadequate to meet the demands of traffic. Certain streets in the downtown district have been widened and other street widenings are now contemplated. The widening of these streets is expected to furnish a certain measure of relief to existing traffic congestion, but will not provide or be adequate in itself to meet the growing demands of traffic. The cost of street widenings in the downtown district involves a very great financial burden upon the City and, aside from this financial burden and aspect upon the City, the disturbance to business and properties affected is a serious matter. There is, therefore, a limit to street widenings from whatever point of view considered. It is generally realized that sufficient streets in the downtown district cannot be widened, aside from economic consideration, to furnish adequate street capacity.

The solution of traffic congestion in the downtown district must therefore, be obtained by other means. Here is a problem with which we are confronted at the present time, and the solution

of it affects the present system of surface car operation and therefore involves the question of what disposition shall be made of the surface cars now operating upon the streets in the downtown district.

PLAN OF TRANSIT COMMISSIONER.

It is contended by the Transit Commissioner, while recognizing the traffic congestion in the downtown district, that the necessity for building rapid transit lines connecting outlying districts and passing through the downtown business district is paramount, and that action should be taken by the City looking toward the building of such rapid transit lines. It is admitted that the building of these lines will relieve, in a measure, the traffic congestion on the downtown streets of the City, but, on the other hand, it is denied that such expedients will adequately relieve the street congestion; moreover, the plan proposed limits the territory which would receive the benefits of such rapid transit lines. The cost of the first installation of such a rapid transit line is estimated at about \$12,000,000.00.

CONDITION OF RAILWAY BUSINESS.

Before entering upon a discussion of the proposed surface car subway loop, I think it is pertinent and germane to the subject to invite your attention to the present status of street railway and transportation companies throughout the United States. At the present time there are about 169 companies in the hands of receivers, including the New York Railways, Philadelphia Rapid Transit International Railways Company of Buffalo, Brooklyn Rapid Transit Company, Bay State Railway of Massachusetts, the Pittsburgh Railways Company and many smaller companies. The electric railway industry during the past year has suffered many financial embarrassments, due to inadequate revenue, caused by the high cost of labor and materials and a reduction in the number of passengers carried. The companies have been unable to pay dividends, interest on bonds, mortgages, leases, etc.

To secure increased revenues, the companies have resorted to additional fares. The system of fare increase has differed with various companies, some installing a flat rate increase, others by the establishment of zones, and by other methods.

To the average person, an increase in fare from 5 to 6 cents would produce a theoretical increase of 20 per cent. in gross receipts, but, instead of this theoretical increase of 20 per cent. in revenue, the increase has only been from 8 to 14 per cent.; likewise, a 7-cent fare instead of producing an increase of 40 per cent. the increase has been from 1 per cent. of 24 per cent. The Boston

Elevated Railroad increased its fare from 5 cents to 8 cents, being a 60 per cent. increase, and the revenue thus derived was inadequate to meet its expenses.

The question that is being asked by railroad officials all over the country is, "What system of fares will enable the companies to get out of their financial difficulties?" I have brought this matter to your attention merely to show the great uncertainty of the electric railway business, which is not alone confined to the local company, and the difficulty of securing new capital for new enterprises, making extensions, or for the purchase of new equipment.

With these facts before us and with the present need for improved transportation facilities in our City, it would seem the part of wisdom that our first installation of such facilities should contemplate making use of the existing system and to derive therefrom such improvement as lies within the financial means of both the City and the Railways Company.

ELEVATED OR SUBWAY.

Assuming that we are correct in our assumption that the first step in the matter of improved transit facilities should be inaugurated in the downtown section of the City, the question arises as to what type of structure should be provided and where same should be located. In other words, should the structure consist of a subway or an elevated railway.

There are many objections to elevated railroads in busy city streets, and these objections have been recognized to the extent of excluding them from the congested districts. The advantages claimed for an elevated structure are, firstly, that the cost per mile is considerably less than the cost per mile of subway, and secondly, that an elevated structure can be built in less time and with less disturbance and interference with the street and business upon which the structure is located. The objections to an elevated structure are as follows:

Damage to abutting property and consequent depreciation of property values; they are noisy and obstruct light and ventilation to buildings; interfere with the fighting of fires; service is subject to interruption from the elements; in case of derailments, serious accidents will follow. Where elevated railroads are built upon narrow streets, the property damages are liable to be so great as to make the cost per mile of elevated railroad equal or exceed a mile of subway. The merits of a subway have been clearly set forth by the Boston Transit Commission in its first annual report, under date of August 15, 1895, when the subject was under consideration by the City of Boston:

THE MERITS OF A SUBWAY.

First—The subway destroys but little property. The widening of streets renders necessary the destruction of much property.

Second—The subway eliminates the danger which pedestrians now encounter in crossing tracks. In widened streets this danger would not be obviated.

Third—The subway increases traffic capacity by removing from the surface one important class of traffic. A street from which street cars are excluded is more useful and more safe, both for pedestrians and for vehicles, than a widened street would be with cars on the surface. The wider the street and the greater the amount and variety of traffic thereon, the more difficult and dangerous it is to cross.

Fourth—The subway relieves the streets from the posts and the network of wires necessary in the overhead trolley system. These posts and wires make the street less attractive. They are a source of danger to those passing underneath, and they increase the difficulties of the fire department.

Fifth—The subway relieves the street of the noise of the street car, the rumble and jar of the wheels, the hum of the motor and the clang of the bell.

Sixth—The subway renders it possible to run cars between stations at speed and with safety. Speed and safety are not possible on the surface, no matter how wide the street. The frequency of cross streets in the heart of the city renders this statement true, even if between the cross streets a space is reserved for the sole use of the cars.

Seventh—In the subway it is possible, by the use at junction points of a subway, to avoid the crossing of one track grade by another track for cars going in an opposite direction. This arrangement avoids the danger of collision, avoids delay, and increases the capacity of each track. The elimination of crossings at grade is not so practicable under any other system. The subway gives the largest traffic capacity per track.

Eighth—The descent to the station platform of the subway is less than the ascent to the platforms of the New York elevated system. The proposed platforms of the subway are 16 feet below the surface. The minimum height of the platforms of the New York elevated road is 19 feet.

Ninth—The estimates indicate that, on the route of the subway, it will be cheaper to build a subway than to widen the streets by the width of the subway.

Tenth—The subway will increase several fold the capacity for street car traffic through the city, and will, at the same time, relieve other traffic on the streets from the interference to which

such traffic is now subjected by the street cars.

Eleventh—In pleasant weather it is preferable to take the cars and ride in them on the surface rather than in a subway. On the other hand, the subway will be preferable in stormy weather or in excess of cold or heat. In a subway lighted by electricity, and in which electricity is used as a motive power, the air can be kept pure and equable in temperature. If it were proposed to use fuel-consuming locomotives the subway plan would not be so desirable.

Twelfth—In the maintenance of a subway and in the operation of cars within it there are several items of saving in expenditure for repairs and operation, namely:

(a) Maintenance of track, roadbed and electric line. The track in the subway may be constructed like an ordinary steam railroad track. It will be accessible in all parts, the joints may be kept up, and the cost of repairs, as well as the loss by depreciation, will be much less for this portion of the road than if the tracks were laid on the surface of the street surrounded by pavement. The electric line equipment will also be less costly, less liable to injury from exposure to snow, sleet and rain, more easily accessible for repairs, and not subject to interruption in case of fires or other contingencies.

(b) Removal of snow and ice. The portion of the road within the subway will not be subject to obstruction by snow and ice, and the cost of removing the same will, therefore, be saved. It will only be necessary to keep the entrances clear.

(c) Saving in power. On account of fewer stops and the better track the power required in moving cars through the subway will be less than in moving them on the surface.

(d) Saving in time. With the present congested condition of our streets, the slow rate of speed of cars through the length covered by the subway, and the large amount of time consumed in stopping, both to take on passengers and on account of obstructions, a large amount of time is lost. In the subway these stoppages and obstructions will be largely or entirely eliminated, and there will, therefore, be a greater amount of business done by each car in the same time.

(e) Saving in damages for accidents. Since there will be no crossing of tracks by pedestrians or vehicles in the subway, the damages for accidents on this portion of the route will be largely eliminated.

(f) In addition to the items enumerated the subway will allow of a greatly increased traffic and a correspondingly increased revenue.

Tending to offset these items are some elements of expense, such, for instance, as the interest on the cost of construction, the maintenance of the structure, exclusive of track, the cost of pumping, ventilating and lighting, and the expense of maintaining stations.

B. J. Arnold, in report, City of San Francisco, 1913, page 70, states:

A decided tendency in modern rapid transit development is to depart from elevated construction within the business district in favor of subways, owing to the avoidance of noise, extra climb and inconvenience to abutting property. Elevated roads constructed with cushion roadbeds have the objectionable noise minimized but the light in all abutting buildings would be practically cut off. Elevated lines cannot be considered in any sense a solution of the rapid transit problem in San Francisco's business district.

B. J. Arnold, Pittsburgh's Transportation Problem, 1910, page 11, states:

Communities having elevated structures in their streets are making efforts to do away with them in favor of sub-surface construction. It is reasonable to assume that future elevated structures are limited for urban transportation, particularly in congested sections. The fundamental need of subways in Pittsburgh is to provide terminals for electric systems.

In addition to the foregoing, there are other authorities on street transportation matters who are unanimous in their opinion that elevated railroads have no place upon congested city streets, and that the saving in the first cost is more than offset by the objectionable features heretofore mentioned. As to the effect of subways on business and real estate values, the City Club of New York made an investigation in 1908, in the Borough of Manhattan, and I quote from this report:

"The aggregate rise in land from One Hundred and Thirty-fifth street to Spuyten Duyvil was about \$69,300,000.00. If an estimated normal rise of \$21,100,000.00, based upon the rise of the previous seven years be subtracted, from this, it leaves a rise of about \$49,200,000.00, apparently due to the building of subways."

As regards the effect on land values in the Borough of Bronx, the same report says:

"The aggregate increase in land values (of a district extending about a half mile either side of the subway) due to the building of the subway and in excess of a normal rise of \$13,500,000.00, was about \$31,300,000.00."

The report continues:

"The property benefited in the districts above noted could have paid the entire cost of subways and yet have had

a net profit, due solely to their construction and operation, of over \$27,500,000.00. Had it paid only for the portion running through its own territory, there would have remained a profit of over \$67,425,000.00."

We merely quote the above as striking instances of the direct benefit upon outlying real estate values and, consequently, upon all business and residence property—of transportation improvements.

PROPOSED TRANSIT IMPROVEMENTS IN OTHER CITIES.

The City of Boston was confronted with a problem of street congestion, owing to its narrow streets and the inability of operating surface cars thereon, similar to what now exists in the City of Pittsburgh. The subject was investigated by the Transit Commission of that City, and the solution was found in the building of surface car subways, which was the initial step in the development of its present transportation system.

The City of Detroit has been studying the matter of electric railway transportation and street congestion in its downtown business district, and the plan which has been recommended contemplates the utilization of the present street car system by the building of subways and a loop at the end of the Woodward avenue line.

The City of Chicago has recently issued a very voluminous report upon the subject of improved transportation, which also contemplates the building of a surface car subway in the congested district. As an illustration of the similarity in the principle, involved in the solution of this transit problem, I quote from page 24 of the Chicago report:

"Street congestion in the central business district of Chicago has already reached the point where relief has become imperative. With the extremely limited possibilities of providing further street capacity, there remains but the alternative of depressing surface lines beneath the streets. Hence surface line subways are recommended by the commissioners on the score of necessity, even if they cannot fully justify the investment required. As one element of the broad general plan recommended such surface line subways should be constructed through the congested central business district to form the nucleus of a downtown terminal system of subways into which as many surface line cars as possible should be diverted from the start."

The City of Cleveland has a street railway problem, which is under consideration and upon which a report is being prepared by expert engineers. I am informed by reliable authority that the report will recommend the building

of a surface car subway with a loop in the central business district.

From the foregoing, it appears that the present trend of thought in the matter of improvements to street railway transportation is to utilize the present systems and to secure as much improvement as possible in the matter of transportation with a reasonable expenditure of funds. We have, therefore, ample authority and precedent for the further development of the surface lines in this City.

SURFACE CAR SUBWAY LOOP.

The downtown surface car subway loop will accomplish the following results:

- (1) Remove all surface cars within the area bounded by the loop, and thus relieve traffic congestion upon the streets therein.
- (2) Form the nucleus of a downtown terminal for any rapid transit system.
- (3) Furnish rapid transit in all sections of the downtown district.
- (4) Reduce running time on some of the important lines to the outlying districts.
- (5) Provide greatly improved service in the downtown business district.
- (6) Enhance the value of downtown properties.
- (7) Benefit all people entering the downtown district, estimated at 280,000 daily.

The proposed downtown surface car subway is located upon Liberty avenue, Ferry street, Second avenue and Grant street. The plan contemplates a two-track subway, with all the cars operating around the loop in one direction. All of the surface cars in the City will enter this subway with the exception of the North Side, West End and Lincoln avenue cars, which will loop upon Liberty avenue, between Federal and Stanwix streets and around the Court House. The Penn avenue, Fifth avenue, Forbes street, Second avenue and South Side cars will enter the loop by means of portals constructed above high water.

At the Union Station, it is proposed to make a connection to conform with the improvements proposed by the Pennsylvania Railroad. The length of the loop is 8,400 feet, and the estimated cost including the acquisition of property for the building of portals is \$6,000,000.00.

There are six stations proposed, their location being determined by certain well-defined conditions. These stations will be adequate to promptly load and discharge passengers, and will have a length of about 400 feet. The center of gravity of the area within the loop is approximately at Fifth avenue and Wood street. There are two stations on Grant

street—either side of Diamond street—and one at the Union Station. On Liberty avenue a station is located at Wood street and also at Fifth avenue. On Water street the station is located at the intersection of Wood street. The average distance between stations is 1,280 feet, the shortest being 760 feet and the longest 1,860 feet. The average length of walk from any subway station to Fifth avenue and Wood street is about 800 feet, or equivalent to two blocks.

There are 573 cars per hour entering the downtown district during the rush hour, and of this total, it is proposed to divert 335 of these cars into the subway and operate them around the subway loop, leaving 238 cars on the West End, North Side and Hill districts, turning short on the outskirts of the loop district. All cars within the loop, as hereinbefore described, will be removed from the surface of the streets and leave them free for vehicle and pedestrian traffic. Passengers from the Lincoln avenue, North Side and West End cars can transfer to the subway cars in case they desire to reach some distant point in the downtown district.

The surface car subway is designed so that high-speed trains can be operated therein and extensions made across the rivers to the North and South Sides and out Penn avenue, Fifth avenue and Second avenue, should the proposed service and method of operation become inadequate to meet the growing demands of transportation.

The plan contemplates the building of the subway by the City and leasing it to an operating company, provided a satisfactory agreement can be made between the City and the company relative to its use. It is upon this assumption that the City proposes to submit the question to the public. The terms and conditions of the said agreement would have to first receive the approval of the City Council and the Mayor and also the Public Service Commission. In any event actual subway construction would not be undertaken until such time as agreements satisfactory to the controlling parties of interest had been made. In order to make a start, in the matter of securing improved transportation facilities, it is proposed to submit the proposition to the public, with the idea of securing their consent for the expenditure of \$6,000,000.00, contingent upon making a satisfactory agreement with an operating company.

It has been stated that a downtown surface car subway will not be a financial success and that no company could afford to pay the interest on the investment and capital charges. It should be borne in mind that the subway proposition is primarily for the relief of congestion upon the downtown streets of

the City and if the building of a subway is the proper means of securing relief from traffic congestion there is no valid reason why a portion of the cost of such subway should not be borne by the City in lieu of the cost of street widenings and other improvements, which would necessarily have to be made to secure a much less satisfactory degree of relief. Furthermore, it is unfair to assume that the downtown subway is the complete and entire system, for as soon as extensions to the loop are made in any direction, the downtown subway becomes a terminal for all trains entering or passing through the downtown district, and when that time arrives there would be no question as to the ability of the operating company to pay the interest and capital charges upon the money invested therein.

In justification of the City's assuming a portion of the capital charges, the experience of other communities leads us to believe that the City will receive an indirect return by the enhancement of property values and increased taxes.

Mr. McArdle arose and said:

"Mr. President I would like to ask Mr. Winters a few questions."

Mr. Winters:

"All right, Mr. McArdle."

Mr. McArdle:

"What is to be the answer of Council, if your contention is correct, that this is merely affording the voters of Pittsburgh an opportunity to express their opinion on the subject; what is to be the answer of Council to the people who are interested in a bridge at Flowers avenue, and the people who wanted a bridge on Troy Hill, which we cut out, because of this and that, and twenty other projects that were presented to the committee for its consideration and rejected?"

Mr. Winters:

"Why, my answer would be, Mr. President, that we had many other meritorious propositions in the bond issue and Council originally set the figure at \$25,000,000.00, and on the advice of the legal department and the City Controller and his solicitor, who guides him in his financial transactions, said that it was absolutely necessary to reduce it \$5,000,000.00, and in doing that we had to take out some things that had merit and we retained those items which we thought were the most meritorious to submit to the people of Pittsburgh for approval. In regard to the item for the bridge on Troy Hill, I want to say that I fought for this item until the last minute, when the Director of the Department of Public Works and the Superintendent of the Bureau of Engi-

neering advised that the grade was prohibitive and could not sensibly be agreed upon."

Mr. McArdle:

"I take it that the people of Pittsburgh would have as much objection on the matter of grade as on any other matter of government importance. The thing is quite clear that my opinion, based on the language of the ordinance, is that we ask for this and we desire to do it. If this action is to be taken or we are to be interested in any degree by the fact that the Mayor, in his campaign speeches, advocated the building of a downtown subway loop or any other kind of a subway, and that he ought to have an opportunity to redeem his promises to the people, what about the Mayor's general program of financing the City's business as outlined in the same campaign, wherein he said, I think with some repetition, that he did not believe in spending large sums at one time, but he believed in issuing bonds as bonds were retired. Now, if we are going to help the Mayor redeem his campaign assertions how are we going to explain our responsibility for \$24,000,000.00 of items, including the subway item?"

Mr. Winters:

"I will explain my responsibility in that direction. Since the Mayor made his promises and his induction into office this country entered into the greatest war in the history of the world, and we expended millions of dollars for the welfare of our soldiers and the destruction of the enemy. We successfully concluded that war, and now the government asks that building be again resumed. It has instituted a policy of reconstruction, advocating building and spending to the extreme limit of the Nation, State, County and City, and, in co-operating with that policy, the City of Pittsburgh had decided to float a bond issue to the limit of its power, so that we might provide work for idle men and make improvements that the City is badly in need of, and aid the Nation in its industrial reconstruction policy. The promise of a subway by the Mayor when a candidate, and he having been elected by the people to represent them as their Chief Executive, I believe he has a perfect right to go back to the people and ask them, if they believe the subway is a good proposition, to approve it. If he is not able to explain how it will be financed and prove advantageous to the people of Pittsburgh, the people will not vote for it, and if the people don't want it, he nor we don't want it."

Mr. English said:

"I would like Mr. McArdle to interpret the language of Section 2 of this desire ordinance and explain how this lan-

guage should or could be interpreted: 'Shall the indebtedness of the City of Pittsburgh be increased in the amount of \$6,000,000.00 for the purpose of paying the cost, damage and expense (including engineering expenses), of providing transit facilities consisting of a subway in the First and Second wards of the said City, adapted to the use of either street surface cars or high-speed trains, or both, as may hereafter be determined, together with the necessary approaches, stations, buildings, works, appliances, equipment and appurtenances, upon such routes and according to such plan as may hereafter be determined by ordinance and approved by such public authorities as may be required by law.' What does this language mean? How does he interpret it? In my opinion, it means that this question of route must finally be determined by Council by ordinance, and certainly the only body that could determine any route is the Council of Pittsburgh. I want to know whether there can be any other construction placed upon this section?"

Mr. McCordle:

"The limitations of the subway to the First and Second wards answers the question, because it limits the kind of service it can render. We know that there can be no high-speed lines go into that."

Mr. English:

"Well, do you agree that even that matter, according to the language, must be determined by the members of Council and, after all, this merely amounts to whether or not Council shall or shall not submit the subway matter to the people for their approval or disapproval."

Mr. McCordle:

"Yes, for the purpose of getting the voters to assent to a program that you agree is meritorious, and there isn't any way by which that language can be twisted in the light of any interpretation or court decision which will shift the responsibility for the leadership or carrying out the work of the corporate authorities of the City to the people of Pittsburgh. Everyone knows that certain bills passed Council and went to the people and received their approval, only to fall in court because it did not express the desire of the corporate authorities of the City."

Mr. English:

"If the people approve the item, then the entire matter is in the hands of Council."

Mr. McCordle:

"Everybody knows that the carrying out of this project will mean additional

legislation. You cannot build a subway from Horne's store to Oakland if you could build it for \$3,000,000.00 out of this fund."

Mr. English:

"Why not?"

Mr. McCordle:

"Because it limits the route."

Mr. Henderson arose and said:

"Mr. President, I have been a member of Council two weeks, and during that time I attended but one meeting when the items for the bond issue were discussed. I heard something at this meeting that rather astounded me, and that was the amount of work it was necessary to do to put these propositions in the form in which they have been presented to us. I think the members of Council, the Mayor, the Department of Public Works and the Law Department gave the items careful consideration. It seems to me, beyond a doubt, that the results obtained from the combination of so many elements, thrashing out these questions by the legislative and executive departments of the City, and involving so many individuals in a series of compromises, are the best that could be desired. I therefore regard these ordinances as the embodiment of hard work of a considerable number of men, honestly, conscientiously and ably performed and being as near right as their unanimous judgment and their best thought could give, human limitations considered."

Mr. McCordle arose and said:

"Mr. President, I would like to make one more observation. The references that have been made here to the Mayor by other speakers and myself, so far as I am concerned, has nothing to do with this discussion or my attitude upon this bill. If the Mayor or if any member of Council, in his heart, thinks that this is a good thing for the City of Pittsburgh, I would have much less respect for him if he failed to try to promote it, and I have no criticism for any member of Council or the Mayor or anybody else exercising to the fullest their judgment and their right to express their judgment and defend their action, and by the same yardstick I will consider myself entirely unfit for service in this body if, having the opportunity that is presented upon this project, standing alone as it does, if I failed to voice my opposition to it while my judgment upon it is as it is. I am against it because I don't think it has merit, and I haven't the slightest objection to the Mayor for promoting it for any reason he thinks sufficient."

The Chair:

"Gentlemen, Mayor Babcock is with us

and wants to say something on this subject."

Hon. E. V. Babcock, Mayor, arose and said:

"Mr. President and Members of Council—You know that I am vitally interested in all the items in the bond issue and greatly favor each and every one of them. It is the result of the best study that I was able to give the subject, both in joining you and the Public Works Department and every avenue of help I could get on the subject. On this one item you are now discussing I would like to add the following:

"With respect to Council Bill No. 2743, being an ordinance providing for increasing the indebtedness of the City of Pittsburgh in the amount of \$6,000,000.00 for the construction of a downtown subway, I beg to say:

"The transit problem of the City of Pittsburgh has been carefully studied and large sums of money have been paid out in investigations. For ten years past expert engineers and rapid transit committees of various commercial and civic organizations have recommended the building of a downtown subway. In my judgment, the time for positive action has now arrived. Passage of this ordinance will permit an expression of opinion from the electorate as to whether or not they desire an actual start made to improve the transit facilities of the City.

"The awful traffic congestion upon our downtown streets requires immediate relief. This will be accomplished by the building of the proposed subway and, at the same time, will improve the general transit facilities of our City. No better evidence of this can be produced than the fact that by the removal of all street cars from the surface of the streets in the downtown district during the recent strike, free, easy and unobstructed passage was permitted of a greater volume of traffic than ever before.

"What is needed by the Mayor and City Council is definite and positive authority upon which to negotiate and proceed with the making of agreements and plans to carry into effect a subway project. It would be futile to start such negotiations and formulate such agreements until authority from the electorate is secured.

"In conclusion, let me say that the language of this ordinance is broad, and permits the City to exercise reasonable latitude in the selection of routes, location of stations, method of operation, construction, etc. I sincerely hope this measure will meet with your approval. It will permit the City of Pittsburgh to take the one pre-eminently necessary forward step for the relief of intoler-

able traffic congestion and will result in general betterment of all our citizens."

The Chair said:

"Gentlemen, I have not prepared a statement on this ordinance. In fact, I did not propose to say anything. I knew I would not be able to convince any member by argument to change his views on this subject; therefore I was quite satisfied to vote 'No' and let it go at that. However, I have lost patience at listening to the insinuations that because the Mayor suggested this loop we are opposing it. I pity the brain that could conceive such a thought. One gentleman said that if any member was opposed to this method of relieving traffic congestion, let him propose something that will be better. I have no patience with the inference of the gentleman who would have it go out that at no time was any other plan or any other thought given to this subject to relieve congestion in the downtown district. It is surprising to me that he professes no knowledge of the Transit Commissioner's plans. I, therefore, take exception to the remarks made by the gentleman when he says that no other plan was suggested.

"I want to say to the members of Council and the Mayor that a real rapid transit system that would bring the people to work and take them home again rapidly had been presented by E. K. Morse, our Transit Commissioner, and I was for that plan; but the plan before us is not rapid transit, it is a life-line thrown out to the Railways Company. It offers only temporary relief, and that to the Pittsburgh Railways Company.

"As to the matter of subway operation, we have an object lesson in the City of Boston where, I am told, the subway, similar in character to the loop proposed here, bankrupted the operating company and the City had to come to its rescue.

"My interpretation of this desire ordinance is that I desire the people to approve this item, because it goes out to the voting public with my endorsement. If I should vote for it.

"Something has been said about the increased carfare, and an attempt has been made by one member that it has cost the citizens \$4,000,000.00 and, by further deductions, attempts to show that this subway will cost the taxpayers but a small portion of that extra fare, and yet neither he or any other member of Council has any authority to say that this will bring a reduction in the car fare or relieve the taxpayers of one single cent, but, on the contrary, adds \$480,000.00 annually to the first cost of the subway, namely, \$6,000,000.00.

"Nobody promises that this loop will bring any reduction in fare. Mayor Bab-

cock, I believe, said the former car fare would be restored, but up to this time it has not. Furthermore, there has been said something about the Mayor's pledge to build this subway loop. I never heard it, and I am quite anxious to have it said that he did make such a statement.

"I am opposed to this ordinance for the subway because it does not accomplish anything except temporary relief for the Pittsburgh Railways Company. It is not worth \$6,000,000.00 to the City.

"I will say, further, that I will vote for Mr. Morse's plan, which some members of Council say they never heard of. Mr. Morse, who is retained in his position by the members of Council, because they think he knew his business, said he did not approve this plan.

"It is said that if the people don't approve the item there isn't any more to it; and if they do approve the item and the Mayor or whoever takes the matter up cannot come to satisfactory terms with the Railways Company the bonds will not be sold. I don't believe there is anybody who gives much credence to this, because the next Mayor and the next Council can sell them, if they so desire. They have the law and authority, and they could authorize them to be sold. You say to the people that this is the desire of Council, and I, for one, don't, and I am, therefore, going to vote against it, and do so regardless of the position you gentlemen and the Mayor may take. Let your conscience be your guide."

Mr. English arose and said:

"Mr. President, I cannot let go unchallenged some of your statements. You said you did not care to answer some of the things included in my statement, and yet you attempted to answer some in a general way. I must remind the President of Council that on many occasions, in Council and committee meetings, he has frequently said that facts were stubborn things.

"I want to remind him now that it is merely Council's desire to give the people of Pittsburgh an opportunity to vote on this item of \$6,000,000.00 for the downtown subway. It is not like the Boston subway, going to be built by private capital, but, if the people authorize it, the people's money will construct it, so it will be owned and controlled by the City of Pittsburgh. And should the City officials be authorized to spend \$6,000,000.00 on a subway by the people it is manifest that then will be time to negotiate with the Pittsburgh Railways Company or their successors. We have just come to an agreement with the officials of the Duquesne Light Company in the matter of electric rates in Pittsburgh, and I am confident that the City officials will be able to come to some terms with

the Railways Company for the use of this subway in case it is decided to build it. This is a step in the right direction to relieve the traffic congestion in the downtown section of the City.

"The Council is asking the approval of the people on this item, and if it is not approved that's the end of it. The question of building and equipping the subway is a subject for further legislation by Council, and when that question comes up the question of the kind and character of transportation in the subway can be settled. However, you cannot do one single thing in the matter of transportation unless you take it to the people.

"This does not mean that the services of Mr. Morse will be discontinued. Whether this subway is constructed or not Mr. Morse should be continued in his position until the whole transportation question is finally settled. We should not sit idly by and refuse to make some effort to do something to relieve the present conditions in Pittsburgh. Something must be done in the matter of transportation service, even if it is only temporary.

"Our duty is to submit this question to the people and allow them to say whether we will or will not do this. All the talk about agreements with the Pittsburgh Railways Company, getting the approval of the court and this and that proposition being injected into the discussion is piffle. We want to bring all the energy and ingenuity we can get to put forth the best program it is possible before the people, and then it is up to them to say whether or not the subway should be built."

And on the question, "Shall the bill as read a second time be agreed to?"

on Lincoln Highway, connecting Chateau street and California avenue, and East street bridge to connect Charles and Essen streets, for one-half the cost thereof, the other one-half to be paid by Allegheny County; and providing for a special election to be held in said City for the purpose of obtaining the assent of the electors thereof to such increased indebtedness, and providing for a notice of such election.

Which was read.

Mr. Garland moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. Dalley moved

To amend the bill in Section 2 by striking out the words, "East street bridge to connect Charles street and Essen street, for one-half the cost thereof, the other one-half to be paid by Allegheny County, \$210,000.00," and in the title by striking out the words, "and East street bridge to connect Charles and Essen streets, for one-half the cost thereof, the other one-half to be paid by Allegheny County."

Mr. English arose and said:

"Mr. President, I am opposed to cutting out the bridge over East street, because I voted for it in good faith from the beginning. I was on the ground with County Commissioner Gumbert over a year ago and it was practically agreed then that the City and County would co-operate in building this bridge. Several times since then the people in that district have come before Council and insisted that if the Council would agree to pay one-half the cost of this bridge the County would pay the other half. We are certainly justified in placing this item in the bond issue for the approval or disapproval of the voters. By eliminating this item from the ordinance we would be breaking faith with the people who appeared before Council and petitioned for this bridge."

Mr. McArdle arose and said:

"Mr. President, I seconded the motion to amend the bill because I believe this item involves as I estimate it, \$350,000.00, an expenditure of the money of the people of Pittsburgh that is absolutely unwarranted. The people are not there to serve; there is not a public demand for the bridge; there is not a public service for it to render. In addition to that, it would entail upon the County of Allegheny, plus the amount collected from the citizens of Pittsburgh, thousands of dollars and necessitate the building of roadways which, in view of

the constant and pressing needs of communities of already developed districts, is entirely unwarranted."

And the question recurring on the amendment as offered by **Mr. Dalley**, **Mr. English** demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were ordered taken, and being taken were:

Ayes—Messrs.

Dalley	McArdle
Herron (President)	

Noes—Messrs.

English	Rauh
Garland	Robertson
Henderson	Winters

Ayes—3.

Noes—6.

And there not being a majority of the votes in the affirmative, the motion did not prevail.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Mr. Dalley moved

That Council now take a recess until tomorrow (Tuesday May 27, 1919) at 1:30 o'clock P. M.

Mr. Garland asked

That Lt. Col. G. A. Dillinger be given the privilege of the floor.

And the privilege of the floor having been granted to Lt. Col. Dillinger, he arose and said:

"Mr. President, Mr. Mayor and Gentlemen of Council—I believe I could call all the members of Council out of order after the heated debate of this afternoon.

"I just want to tell you briefly of some of the things accomplished by the Twenty-eighth Division. First of all, I want to say just a word about the splendid reception given the boys on their

return to Pittsburgh. The Mayor and this Council have shown a wonderful welcome to the boys of the Twenty-eighth upon their return. You have been generous and courteous, and your splendid treatment has been appreciated by the boys returning from overseas. In return for that the boys who went overseas and did your fighting—representing every city, town and village in this grand old State of Pennsylvania—appreciate this treatment and will always remember what you did for them. The boys of the Twenty-eighth Division have earned all the glory that has been bestowed upon them.

"On the 14th day of March last, when General Pershing was reviewing the Twenty-eighth Division at Colombey Les Belles, France, he told General Boullett and General Boullett told General Hay that of all the troops he reviewed the boys of the Twenty-eighth Division were the best in the A. E. F. that he had seen. This was told by General Hay at a dinner given the officers, and I am bringing that word home from the commanders. I am putting them on record as making that statement, as it had not heretofore been mentioned by anyone.

"In the Twenty-eighth Division were all kinds of boys—Italians, Hungarians, Jewish, and so on. They made a splendid showing during the war, and Pittsburgh can feel proud of her soldier boys for the splendid part they played in winning this war. These boys have come back better and bigger American citizens; they will have more respect for the United States and what it means; they will have more respect for their flag and more respect for their American women. These boys will be the ones who will fight Bolshevism and prevent the uprising of anarchy in this country.

"The boys in the American army appreciate the splendid work that was done at home in raising subscriptions for this and that purpose and subscribing to the various Liberty Loans, which went over the top every time. This money which you loaned to the Government helped to feed and clothe the boys of the A. E. F. I thank you for this privilege to say a few words to you my friends."

And the question recurring on the motion to take a recess, the motion prevailed.

And the **Chair** declared a recess of Council until Tuesday, May 27, 1919, at 1:30 o'clock P. M.

AFTER RECESS.

Pittsburgh, Pa.,
Tuesday, May 27, 1919.

No. 2823.

CITY OF PITTSBURGH, PA.

May 21, 1919.

President and Members of
Council of the
City of Pittsburgh.

Gentlemen—Please find enclosed, for your files, a copy of the Duquesne Light Company's communication, which has been the topic of recent study by Council and the Mayor.

The original will be retained in the Mayor's office.

Very respectfully yours,

E. V. BABCOCK,
Mayor.

DUQUESNE LIGHT COMPANY.

A. W. Thompson, President.

Pittsburgh, Pa., May 20, 1919.

His Honor, the Mayor, and
City Council of the
City of Pittsburgh,
Pittsburgh Pennsylvania.

Gentlemen—The Duquesne Light and Power Company beg to submit to you for consideration the following proposition in connection with the domestic rate of Pittsburgh published in public rate sheets now in effect on compliance of the Public Service Commission of the State of Pennsylvania and to which rate there has been some objection on part of the City of Pittsburgh, represented by your Assistant City Solicitor, Mr. C. K. Robinson, such inquiry leading to conferences resulting in the proposition which this company proposes.

Because of the necessity for the Duquesne Light and Power Company to have a situation which will permit of immediate financing for the purpose of expanding its properties at once in order to take care of the constant and growing demand for light for domestic consumers, as well as an even greater demand for additional power, it is proposed to go further at this time than originally anticipated in a reduction of domestic rates in order to clear the situation for a period of years to permit of the most economic and favorable financing, which amount will be in the neighborhood of thirty millions of dollars, and financed principally in the nature of bonds.

It is considered by the owners of this property, as well as the officers, that the financing must be done as soon as possible in order to provide for these

growing demands. The bankers advise that this is the time, rather than later, to accomplish the best results in financing.

To provide safe and economic financing at this time it is necessary that the controversy, or, rather, the inquiry of the City, be satisfied and eliminated for a reasonable period. The Duquesne Company, therefore, agrees and proposes to put the following domestic schedule in effect July 1, 1919, provided assurance is given by the City of Pittsburgh that these rates will be stabilized on the basis as presented in this schedule, as follows:

DOMESTIC RATES.

First 30 hours use of demand per mo.,
9c per kwh.

Second 60 hours use of demand per
mo., 7c per kwh.

Excess above 90 hours per month, 3c
per kwh.

With a reduction of 1 cent on the first
two blocks for prompt payment of bills.

There will also go into effect at the
same time a new power schedule, as
follows:

POWER RATES.

First block or *—hours use of de-
mand per month, 2.8c per kwh.

Or, for prompt payment of bills, 2.6c
per kwh net.

Second block or *—hours use of
demand per month, 1.4c per kwh.

Or, for prompt payment of bills, 1.3c
per kwh net.

Third block or excess .007c per kwh.

*See old schedule. No change.

In order to prepare for new financing, and which new financing covers a retirement of ten million dollars of three-year notes outstanding, together with the building of a new power plant at Cheswick on the Allegheny river, also a number of high-tension power lines in the district, sub-stations, etc., it is necessary, as mentioned above, to have a certain stable situation in regard to rates. Hence the above schedule, which we feel should prevail on a program of upbuilding of these properties covering a period of three years, during which time it is proposed to spend a million dollars a year out of earnings for the purpose of improving service and operations and promote economics in operation. As such economics develop the Duquesne Company will co-operate with your representatives to bring about when and at such time as conditions permit, further reductions in rates.

It is proposed to continue the present payment of dividends on the stock.

It is understood that the Assistant City Solicitor, Mr. C. K. Robinson, will withdraw the case now pending before

the Commission, and which is set for hearing on Thursday of this week, asking the Commission to approve this case or give the order for these rates to go into effect on July 1, 1919.

Respectfully yours,
(Signed) A. W. THOMPSON.

Note.—In the domestic rates the basis of calculation for first thirty hours use of demand is as follows:

First 10-lamp outlets considered as 30 watts each; next 20-lamp outlets considered as 20 watts each; excess considered as 10 watts each.

Number of outlets figured on above basis is taken as demand, and for first thirty hours use of demand per month the charges will be made in accordance with rates as mentioned above.

Which was read and, on motion of Mr. Dailey, received and filed and ordered printed in full in the Record.

Also

No. 2824. Resolution authorizing the Law Department and the Special Assistant City Solicitors to withdraw complaints against the Duquesne Light Company before the Public Service Commission of this State, in consideration of reduction in rates and other considerations.

Whereas, By an ordinance duly enacted on February 7, 1917, provision was made for the filing of complaints before the Public Service Commission of this State against the Pittsburgh Railways Company and the Duquesne Light Company, and said ordinance provided for the retaining of Special Assistant City Solicitors; and

Whereas, Pursuant thereto, complaints were filed against all the then existing rates and, subsequently, complaint was filed against increases in the power and commercial rates; and

Whereas, Pursuant to said complaints, the matter of municipal domestic, commercial and power rates was duly investigated and considered by the Special Assistant City Solicitors and by electrical engineers duly employed for this purpose and, following their recommendations, a contract for municipal lighting was heretofore entered into, effecting material savings in municipal light rates; and

Whereas, The Duquesne Light Company is now willing to make certain reductions in their domestic, commercial and power rates in adjustment of the matters set forth in the aforesaid complaints; and

Whereas, the Duquesne Light Company is preparing to provide additional facilities for this district by the expenditure of \$15,000,000.00 for the con-

struction of a new power plant at Cheshwick; and

Whereas, The Duquesne Light Company has agreed to set aside an adequate depreciation allowance and to properly and adequately maintain its properties, and to furnish information freely to the City officials respecting the policy, maintenance and financing of the Duquesne Light Company and the results thereof; now, therefore, be it

Resolved, That the Law Department of the City of Pittsburgh and the Special Assistant City Solicitors be and they are hereby authorized and directed to withdraw the said complaints before the Public Service Commission of this State against the Duquesne Light Company, without prejudice to the rights of the City of Pittsburgh. The foregoing to be in consideration of the agreement of the Duquesne Light Company to reduce its rates on July 1, 1919, as follows: The domestic and small commercial lighting to 8 cents per kilowatt hour for the first thirty (30) hours of demand per month; 6 cents for the next sixty (60) hours use of demand per month, and 3 cents thereafter. The demand to be determined as follows: The first ten (10) lamp sockets at 30 watts each; the next twenty (20) lamp sockets at 20 watts each; all additional lamp sockets at ten (10) watts each.

In existing schedules "F" and "G" of the Duquesne Light Company, the first step of the energy charge to be reduced from a net charge of 2.8 cents to 2.6 cents per kilowatt hour. The second step in the energy charge to be reduced from 1.4 cents to 1.3 cents per kilowatt hour; and the third step in the energy charge to be reduced from 8 mills to 7 mills per kilowatt hour, and in further consideration of the carrying out of the policies and arrangements herein set forth in the foregoing recitals.

In Finance Committee, May 20, 1919. Read and ordered returned to Council with an affirmative recommendation, same to be approved by Council.

Which was read.

Mr. English arose and said:

"Mr. President, the passage of this bill marks a new step in the City of Pittsburgh in the matter of public service corporations rendering proper service to the people of Pittsburgh.

"I am very proud, indeed, that I was a member of Council three years ago, when we initiated the proceedings against all the public service corporations under the Public Service Company Law.

"It was my good fortune, privilege and pleasure to assist, with five other members of Council, notwithstanding the veto of Mayor Armstrong, in placing at the disposal of Council and the

City of Pittsburgh the services of C. Elmer Bown.

"Our first attack was directed toward the Pittsburgh Railways Company, but, knowing the Railways Company was tied in with the Duquesne Light Company and the Philadelphia Company controlling all the natural gas privileges, or most of them in our City, we felt that the time had come for the people of Pittsburgh to get a reckoning from all these corporations. The past three years have been ups and down in this controversy. It is a sign of the times that the public service corporations all over the country are beginning to realize that they are servants of the public and not stock jobbing corporations.

"I am very glad, indeed, that those in control of the Duquesne Light Company have seen the handwriting on the wall in the illustration of the Pittsburgh Railways Company and have at last come in to the people's elected representatives and are willing to transact business in the open and above board. It is refreshing, indeed, that they now realize that the first duty of a public service company is to serve the people and that their profits are secondary.

"It seems to me that they should receive encouragement in this new line of procedure and it seems fitting that we should give credit to those who had the courage of their conviction to bring about this condition, and it is no more than right that some measure of credit should be given to C. Elmer Bown, who helped to initiate these proceedings.

"As a matter of respect, I deem it my duty to place this in the Record. It should be stated that we were not and are not trying to wreck the public service companies of Pittsburgh, but believe there should be an honest effort set forth by all of us for the purpose of securing better service for the people of Pittsburgh, at reasonable prices, and that capital should get fair returns on honest investments.

"Credit is also due the administration of Mayor Armstrong, which, after Council's employment of Mr. Bown over the veto of Mayor Armstrong, he repented and offered us the assistance of Mr. C. K. Robinson. Most of us are familiar with the history of these proceedings since the matter has been in the hands of Mr. Robinson.

"I firmly believe if the officials in charge of the Pittsburgh Railways Company and the owners of the property will co-operate with the officials of the City and help, rather than hinder, they will receive just and fair and generous treatment from the members of Council.

"I think it is well also to place in the Record at this time that those who have been handling these matters Messrs. Robinson and Munro, as well as Mayor

Babcock, and the Law Department, should be given credit for their co-operation with the Council in this fight for the people, which started some years ago. It is my duty to make this public statement and to say this action lends hope and encouragement for all of us in the future."

And the resolution, as read, was approved by the following vote:

Which was read.

Mr. Dailey moved

That the resolution be recommended to the Committee on Finance for further consideration.

The Chair:

"What is the purpose Mr. Dailey, of referring this resolution back to the committee?"

Mr. Dailey:

"Mr. President, I was informed that the Superintendent of the Bureau of Recreation proposes to purchase an automobile out of this fund. This resolution specifically states that the money is to be used for the purpose of purchasing playground equipment. I want to ascertain whether the superintendent proposes to purchase an automobile out of this fund or not."

Mr. Winters arose and said:

"Mr. President, I haven't any special objection to sending this resolution back to the committee for further consideration; but the superintendent of the bureau stated that he was badly in need of this equipment, and for the reason of not delaying the passage of the resolution I would suggest, if there are no objections, that the superintendent be sent for to explain this matter."

Mr. Charles F. Ball, Superintendent of the Bureau of Recreation, was sent for and appeared before Council.

The Chair said:

"Mr. Ball, Council has sent for you to explain what the money is to be used for as provided in the transfer resolution now up for action by Council. This resolution provides for a transfer of \$2,420.00, and it has been stated that you intend to purchase a new automobile out of this fund. Is that correct?"

Mr. Ball said:

"Mr. President, I have about \$600.00 worth of equipment requisitions awaiting this transfer. These requisitions are for items of equipment for the playgrounds. When the budget was set up for 1919 the Council had granted us an appropriation of \$750.00 with which to purchase an automobile. This money had been used for the purchase of playground equipment; and if Council has no objection we would consider that item as being included in this \$2,420.00, to replace that which had been used for the purchase of an automobile, for the reason that our automobiles at present are in bad shape, and they are really a bill of expense to maintain."

The Chair said:

"It is your intention if you have a balance of \$750.00, to use it for the purpose of purchasing an automobile?"

Mr. Ball:

"That is what I would like to do, Mr. President. If there are no objections by Council."

Mr. McArdle arose and said:

"Mr. President, it ought to be understood that if the bureau buys an automobile out of this fund later and Council, in making up its budget for 1919, made an allowance of \$750.00 for the purchase of a new automobile and no greater sum than this is expended, there is no breach of faith involved in this by the bureau."

Mr. Garland moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second and third times, and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Dalley	McArdle
Garland	Rauh
Henderson	Robertson
Herron (President)	Winters

Ayes—8.

Noes—None.

And a majority of the votes of Council being in the affirmative, the resolution passed finally.

The Chair presented

No. 2949.

CITY OF PITTSBURGH, PA.

June 12 1919.

President and Members
of Council of the

City of Pittsburgh.

Gentlemen—Your Bill No. 2807. The Legal Department of the City recommends that this bill be withdrawn for further consideration owing to the fact that it is not in satisfactory form and might give rise to considerable confusion in the process of making the adjustments set out in this ordinance.

If you will comply I will be pleased.

Very respectfully yours,

E. V. BABCOCK,

Mayor.

Which was read and, on motion of Mr. Garland, received and filed.

Also

No. 2950. Resolved, That the Mayor be and he is hereby requested to return to Council, without action thereon, Bill No. 2807, Resolution authorizing the issuing of warrants in favor of persons, firms and corporations, refunding amounts paid for license to buy, sell and deal in junk, etc., in excess of the license fee as fixed by ordinance of December 30, 1904, for further consideration.

Which was read.

Mr. Garland moved

The adoption of the resolution

Which motion prevailed.

And the Mayor having returned, without action thereon.

Bill No. 2807. Resolution authorizing the issuing of warrants in favor of such persons, firms and corporations who obtained junk licenses for the year 1918,

as required by the Ordinance of December 30, 1904, and who paid the full license fee for the year 1918 under the provisions of the ordinance of August 5, 1918; the City to retain 25 per cent. of such amounts as paid during the year 1918 under the provisions of the ordinance of December 30, 1904, for all business which such dealers may have been engaged in during the months of January, February and March, 1918, the said refunds to be charged to Code Account No. 42, Contingent Fund.

In Council, June 9, 1919. Rule suspended, read three times and finally passed by a two-thirds vote.

Which was read.

Mr. Garland moved

To reconsider the vote by which the resolution was read a second and third times and finally passed.

Which motion prevailed.

And the question recurring "Shall the resolution be read a second and third times and finally passed?"

The motion did not prevail.

Mr. Garland moved

That the resolution be recommitted to the Committee on Finance.

Which motion prevailed.

Mr. Eash presented

No. 2951. Communication from A. J. Fitzgibbon, 410 Union Bank Building, complaining of Special Officer Jones striking a prisoner on Saturday evening, June 14, 1919.

Which was read and referred to the Committee on Public Safety.

The Chair:

"Gentlemen, there are a number of young men, former soldiers, sailors and marines, who are interested in the Soldiers' and Sailors' Club, and desire a hearing before Council. What is your pleasure, gentlemen? Do you want to adjourn Council and go into a committee meeting, or do you prefer to hear them now?"

Mr. Winters arose and said:

"Mr. President, in anticipation of what these boys might say to Council, I have prepared a resolution and, before I offer this resolution, I would ask that they be heard."

The Chair:

"Gentlemen if there are no objections, we will hear these boys now. Mr. Dalley has presented the name of Mr. Herring."

Mr. F. C. Herring arose and said:

"Mr. President and Gentlemen of Council, City Council, by resolution, which

was approved by the Mayor, turned over to a citizens' committee appointed by the Mayor the Public Safety Building, to be used as a Soldiers' and Sailors' Club.

"This committee, after establishing the club, turned it over to the War Camp Community Service. A difference over policy of operation has arisen between the officials of the War Camp Community Service and Captain Shadle, director of the club, elected by the citizens' committee, a Pittsburgh boy who spent eighteen months in the trenches and made a gallant war record, rising from the rank of private to that of captain on the field of battle, and winning the Croix de Guerre for distinguished service.

"The paid officials of the War Camp Community Service, all of whom come from New York and other places, now insist that Captain Shadle be dismissed.

"The signers to this petition are all soldiers and sailors who have seen much of the club under the direction of Captain Shadle and want to be recorded as saying that they feel that the success of the club is largely due to Captain Shadle.

"We, therefore appeal to you and City Council, by whose pleasure the Public Safety Building is now occupied as a Soldiers' and Sailors' Club, to notify the directors of the War Camp Community Service that it does not approve of putting a Pittsburgh soldier boy out of his job, especially as he has made good, both on the field of battle and in the club, to satisfy a civilian who was sent here from New York by the War Camp Community Service.

"We further appeal to you and City Council to stand by Captain Shadle, as we know that it has been due to his untiring efforts that the Pittsburgh Soldiers' and Sailors' Club has made a record that is not surpassed by any other organization in the country.

"This appeal is addressed to you because the club was originally started by you and you have the control of the property in which it exists. We feel that minor internal dissensions should not be allowed to spoil the great record this club has made and that it should continue as at present until its present work is done.

"Since the club opened, over a year ago, Captain Shadle has done wonderful work in the interest of the boys coming home. He has done splendid work in placing returned service men in places of employment. He has placed at least 500 returned soldiers; at one place in New Kensington he placed 150 men. Not only did he perform this splendid service, but he gave out of his own funds money to different boys to buy medicine, clothing, railroad ticket, etc.

"We have the endorsement of the man-

agers of the Nixon Theater, the William Penn Hotel, the Nixon and Davis cafeterias and Mr. Sampson that the club under the leadership of Captain Shadle, is a success. We also have the endorsement of the Superintendent of Police, the Police Magistrate at Central Station, and from at least 100 citizens of Pittsburgh who have signed the petition asking that no change be made in the present management of the club.

"Mr. Duffus makes certain charges against Captain Shadle, which he is not justified in doing. I have here a citation from Major R. C. Ditto, of the Seventh Infantry. He says: 'Leadership excellent; ability to instruct, excellent; military training and bearing, excellent. Service: Enlisted in the Fifth Reserve Engineers, April 16, 1917. Called into active service May 21, 1917. Appointed First Sergeant, Company A, Fifth Reserve Engineers, May 21, 1917. Date of appointment as a temporary Second Lieutenant about January 1 1918. Awarded Croix de Guerre and mentioned in orders for directing the defense against an enemy raiding party, consisting of 300 Germans, this while attached to the French army. Lieutenant Shadle did not request this recommendation, nor did any person request it in his behalf. He is in no way related to me. This recommendation is based on this officer's services as I saw them while commanding Company L, Seventh Infantry, in the training area and in active service. He is fitted in every way to command a company. I consider him most efficient Lieutenant.'"

"This is a recommendation from Major Ditto and one which any soldier could well be proud of.

"Captain Shadle is a Pittsburgh boy, and we earnestly request that the Council take some action on this case to see that Captain Shadle is retained in his present position."

The Chair:

"What is their reported reason for wanting to get rid of Captain Shadle?"

Mr. Herring:

"Ever since the club opened Mr. Duffus, who, I understand, is from New York, has been bucking Captain Shadle. Mr. Duffus does not tell Mr. Shadle anything at all. If anything goes wrong he does not say anything to Captain Shadle, but goes and tells the boys. That sort of thing has been going on ever since the club opened. Then, the other evening, they had some trouble over the disappearance of money. Captain Shadle was not responsible for that, as he was out of the City on an errand. I believe for Mayor Babcock.

"Captain Shadle, under pressure, submitted his resignation to the directors of the club, but has since withdrawn it. I trust Council will take a hand in this

matter and see that no change is brought about in the management of the Club. I thank you, gentlemen."

Mr. Winters presented

No. 2952. 1—Whereas, A great number of our returned soldiers have protested against any change in the management of the Soldiers' and Sailors' Club, which would affect Captain Charles S. Shadle, and have expressed their hearty approval of the manner in which he has conducted it.

2—The club is being operated solely for our soldier boys, and they are the ones to be satisfied primarily and finally.

3—The War Department has announced that entire demobilization will be completed by September 1 and at the latest by October 1.

4—The purpose for which the club was created, to provide a temporary home for our service men during the war and demobilization, will have been served in two or three months.

5—If the club is not closed then it will have to be reorganized along different lines, and such a step should be taken only after careful thought.

6—The War Camp Community Service is purely a war activity; there have been no war camps in Pittsburgh for some months; soon there will be no war camps in the entire country. The reason for this agency is, therefore, fast passing away. If it continues its work will be so limited in scope as not to justify the Mayor and Council placing a large building at its disposal.

7—While there have been slight differences as to the policy of operation, we understand they are not vital and there appears to be no pressing necessity to make any changes until the club's present work is finished in the near future; therefore, be it

Resolved, In view the creditable record the club has made, for which Captain Shadle deserves a fair share of credit, as attested by his comrades, and in view of his gallant record as a soldier—17 months "over there"—that Council and the Mayor, donors of the building and founders of the club, advise the directors of the War Camp Community Service, tenants of the Public Safety Building, as follows:

1—That we deeply appreciate the work they have done and the substantial help they have given the club.

2—That, in our opinion, the club should continue to operate as it has until the time arrives to cease its present activities and be reorganized along other lines, September 1 or October 1.

3—That Captain Shadle should be allowed to finish his work and that he should not be displaced, placed on fur-

lough, or interfered with, until he does so.

4—That the Mayor, at his convenience, prior to September 1, call a conference of the directors of the War Camp Community Service, the citizens who composed the original "organization committee" of the Soldiers' and Sailors' Club, and the members of Council, and that said conference decide on future plans for the club, and, if it is to continue, as to how and by whom it shall be operated.

Which was read.

Mr. McArdle moved

To amend the resolution by striking out the entire sixth paragraph in the preamble, reading as follows:
"6—The War Camp Community Service

is purely a war activity; there have been no war camps in Pittsburgh for some months; soon there will be no war camps in the entire country. The reason for this agency is, therefore, fast passing away. If it continues, its work will be so limited in scope as not to justify the Mayor and Council placing a large building at its disposal."

Mr. Winters moved

That the resolution, as amended, be adopted.

President and Members,
City Council.

Gentlemen—In July, 1918, your Honorable Body passed legislation exempting property owners for water used in public war vegetable gardens, and authorizing this department to issue street permits and corporation cocks for the installation of the necessary water services free of charge under certain conditions.

I am under the impression that this was intended only as a war measure; however, the legislation is still in force. Would you kindly favor me with a suggestion as to whether your body still desires to continue this service.

Yours very truly,

JOHN SWAN.
Director.

No. 2987.

June 23, 1919.

President and Members of
Council of the
City of Pittsburgh.

Gentlemen—I have received a communication from Representative Stephen G. Porter relative to aerial mail service for Pittsburgh and have this afternoon received a personal call from him to discuss the same subject. Herewith enclosed is a copy of Congressman Porter's communication.

There are no funds at present available for the installation of this system by the Postoffice Department. It is Mr. Porter's purpose to have proper provision made for this service in the next postoffice appropriation bill, which will be taken up by Congress on the first Monday in December. An effort will be made to have a proper investigation before that time so as to get favorable consideration from the Postoffice Department.

I have given Congressman Porter assurance that any reasonable arrangement that Pittsburgh could make would have my enthusiastic support. I believe that air service, as developed by the war activities of the past two or three years, has come to stay, just as the automobile, which only a few years ago came, has stayed. It is our duty as City representatives to give this subject careful consideration.

Very respectfully yours,

(Signed) E. V. BABCOCK,

Mayor.

HOUSE OF REPRESENTATIVES.

Washington, D. C.,

June 16, 1919.

Hon. E. V. Babcock, Mayor,
Pittsburgh, Pa.

My Dear Mayor—About one month ago I made an application to the Postoffice Department for the extension of the aerial mail service to the City of Pittsburgh.

This service has been in operation between Washington and New York for upward of a year and recently was installed between New York and Chicago. It has passed the experimental stage and, in my judgment, will be looked upon as a necessity within the next few years.

I am today in receipt of a letter from Postmaster General Burleson informing me that the department intended going over the route and examining terminal facilities with a view of including service to Pittsburgh in the next postoffice appropriation bill.

I feel quite confident that this service

will be granted to Pittsburgh provided reasonable arrangements for a terminal in that City can be made. I have in mind the Schenley Oval, which is midway between the main office and the East End sub-station, and only about five minutes' run by auto from the Oakland sub-station. Aerial mail, as you know, is taken up by auto and delivered to the nearest postoffice or sub-station, thence delivered by special messenger. The nearer the landing place to the center of Pittsburgh the quicker the service.

I expect representatives of the Postoffice Department to visit Pittsburgh in the near future, and I think it would be prudent to ascertain the views of Council with regard to offering the department the use of Schenley Oval for this service.

It requires a large amount of space to give safe landing to these airplanes, and it is also vitally important that landing be reasonably near for the post-offices. If the Council see fit to permit the department to use Schenley Oval, free of cost, it would be a very great inducement toward bringing the service to Pittsburgh.

Very truly yours,

(Signed) STEPHEN G. PORTER.

Which was read.

Mr. McArdle moved

That the communication be received and filed.

Which motion prevailed.

Mr. Dailey called up

Bill No. 428. An Ordinance entitled, "An Ordinance regulating municipal contracts, stipulating for the employment of competent and first-class workmen only, defining the words competent and first-class workmen hours and wages to be paid, requiring an affidavit to be filed with the City Controller, showing compliance and providing certain reductions as liquidated damages for the violation thereof."

In Council, May 13, 1918. Bill read and laid over for three weeks.

Which was read.

Mr. English arose and said:

"Mr. President, I think it would be unwise to pass upon this bill today for two reasons. First, you all know that one member of Council who last year was bitterly opposed to the passage of this ordinance is out of the City, and the second reason is the effect its passage may have on the proposed bond issue. My notion is that this ordinance should be referred to the bond attorneys, Messrs. Delafeld, Hawkins & Longfellow, who have handled this bond question for the City, and find out whether the passage of the ordinance would have

any effect on the bond items if approved by the people on July 8. Perhaps we should send it to the Mayor and have him communicate with the bond attorneys, as he has had charge of all the bond matters we have referred to the attorneys. I don't believe we should take action on this ordinance today in view of Mr. Garland's absence from the meeting, and until we are given an opportunity to get legal advice on this question. I don't believe any time will be lost if we laid the ordinance over for one week, at which time all members could intelligently act on the ordinance. If all members could not be present next Monday, a special meeting could be called for some day this week.

"I believe sufficient time should be given organized labor to decide whether or not they favor the bond issue. I think they are entitled to that consideration.

"I therefore move that a copy of this bill be referred to the Mayor with a request that he communicate with the bond attorneys and ascertain whether it would have any effect towards invalidating our bond issue."

Mr. Dalley arose and said:

"Mr. President, I am certain this ordinance will not in any way have any influence on the bond issue. It was introduced in Council, March 25, 1918, and on May 13, 1918, by motion of the member to my left (Mr. English) it was laid on the table for three weeks in order to allow a copy to be sent to the War Labor Board at Washington for its opinion and report. The ordinance was sent to the War Labor Board, and up to this time we have no reply. It has been here for over a year. If the members of Council do not want it, let them say so, so we can dispose of it one way or another."

Mr. English arose and said:

"Mr. President, I would like to ask the gentleman a question. Wasn't my motion to refer this matter to the War Labor Board defeated? I am positive of this, and I would ask for the record on same?"

Mr. Dalley arose and said:

"Mr. President, my recollection is that the Committee on Finance, by a vote of 7 to 2, ordered the ordinance returned to Council with an affirmative recommendation, and it was upon the motion of Mr. English, in Council that a vote be taken so the matter could be referred to the War Labor Board to see if there were objections to the bill. I would like to ask the Clerk if this is not correct and the bill referred to the War Labor Board?"

The Clerk (Mr. Martin) said:
"Yes, sir; Bill No. 428."

Mr. English said:

"Mr. Clerk, what was the motion?"

The Clerk:

"It is a resolution."

Mr. English:

"What is the resolution?"

The Clerk:

"It is a resolution presented by yourself."

Mr. English:

"Read it."

The resolution, as follows, was read:

No. 790. Whereas, Mr. Frank, as the spokesman for the Employers' Association of this vicinity, has notified the members of Council sitting in the Committee on Finance, that the passage of Ordinance No. 428 is contrary to the spirit and the rules adopted by the National War Labor Board; and

Whereas, The National War Labor Board is the body appointed by President Wilson to consider and adjust all differences between employers and employees during the war; and

Whereas, The members of the Council of the City of Pittsburgh desire to help the National Government by all the means in the power of said Council, and do not wish to pass any ordinance or ordinances which could be considered as any obstruction to the winning of the war; therefore, be it

Resolved, That Ordinance No. 428 be submitted to the National War Labor Board, together with the written statements or briefs of the arguments for and against the Bill; and be it further

Resolved, That Council respectfully requests the National War Labor Board to pass its opinion on this ordinance and whether or not it is contrary to the spirit and rules adopted by the said board as a guide for employers and employees during the war.

Mr. English said:

"Mr. Clerk, was there a roll call on this resolution?"

The Clerk:

"Yes, sir."

Mr. English:

"What was the vote?"

The Clerk:

"Five to three. Messrs. Dalley, English, Garland, Rauh and Robertson voted in the affirmative, and Messrs. Burke, Herron (President) and McArdle opposed it."

Mr. English:
"Did you send it to the War Labor Board?"

The Clerk:
"Yes, sir."

Mr. English:
"Did you ever receive an acknowledgment or a reply of any kind to your communication?"

The Clerk:
"No, sir."

Mr. English:
"Have you ever reported this fact to the Council prior to this time?"

The Clerk:
"No, sir."

Mr. English arose and said:
"Mr. President, perhaps the gentleman did not see as far as I did. The first question the attorneys would ask is, At what rate did you figure the wages to be paid workmen in making up this schedule? Are those rates in accordance with the union wages paid around this territory, and would there be enough money to pay for the services of the men engaged in the different lines of work in case these bonds are approved by the people and the contracts awarded for doing the work provided for therein? Is there enough money for these different improvements without additional money being required from the annual tax levy or councilmanic bonds to meet the additional increase caused by the passage of this ordinance if there is any? Take the case of a carpenter: No doubt the department, in making up its estimate of the different improvements on which carpenters would be engaged figured the wages at the prevailing rate of pay of today; and if there were an increase in the carpenters' wages there would be that much less money to pay the carpenters or that much work would not be done. For that reason I wanted the information from the bond attorneys. If the members of Council would not second my motion to get an opinion on this from the bond attorneys, well and good, then I withdraw my motion for delay of one week. I am prepared to vote for the ordinance today. I pay taxes, and I am willing to pay my share of the additional increase should there be any in case this ordinance becomes a law. However, had the department figured the wages of the men to do the work under this bond issue at less than union wages there will not be sufficient money to make any of the improvements and there will surely be some complication if the bond issue is approved by the people."

Mr. Winters arose and said:
"Mr. President, I move that action on the bill be postponed until next Monday. I offer that motion because I am sure it is agreeable to those who are sponsors for the bill and that such a course will be satisfactory to them. There are at least two members of Council who have no knowledge of the bill or its previous history. I believe, in justice to them, that this delay should be taken so they might be able to discuss and vote intelligently upon it."

Mr. Robertson arose and said:
"Mr. President, I second the motion."

Mr. Henderson arose and said:
"Mr. President, I am one of the members who is not familiar with the ordinance under discussion; in fact, I don't know what the talk is about today. This proposition came up last March and as I understand it, it appears to be an ordinance with some merit. I have not seen it yet."

Mr. Winters arose and said:
"Mr. President, I desire to amend my motion by adding, that during the interim of the one week the Mayor be notified of our action and the Mayor be furnished a copy of the ordinance, and that it is within the province of the Mayor or anybody to present such information as they care to either for or against the bill by next Monday."

Mr. Robertson arose and said:
"Mr. President, I second the motion as amended."

Mr. McArdle arose and said:
"Mr. President, what is the purpose of the latter portion of this motion?"

Mr. Winters arose and said:
"Mr. President, my thought is that the Mayor be notified by the Clerk of Council of our action here today and that the members of Council who have any thought on the ordinance as to its legality or relationship to the bond issue can present same, and it will give any member who wants to know the opinion of Messrs. Delafield, Hawkins & Longfellow an opportunity to learn whether the passage of the ordinance would be a handicap, and if he does not want to get that information from that source we don't need to consider it."

The Chair:
"Gentlemen, the motion is that the bill be laid on the table for one week and that the Mayor be notified that this will come up next Monday, and any member who cares to can communicate with the bond attorneys and ascertain whether the passage of the ordinance

will have any effect on the bond issue. Are there any further remarks?"

Mr. McArdle arose and said:

"I would like to know, Mr. President, the necessity for the latter provision of the motion."

The Chair:

"There is no necessity for it, except that it will give any member of Council an opportunity to consult with the bond attorneys."

Mr. McArdle:

"I refer to that portion of the motion of Mr. Winters advising the Mayor of the status of this ordinance."

The Chair:

"It is for the purpose of notifying the Mayor so that he can be prepared to act on it when it is sent over to him for his approval or disapproval."

Mr. Winters arose and said:

"Mr. President, isn't the Mayor as much interested in this bill as any member of Council?"

The Chair:

"That is the reason, no doubt, why you want it sent to him before Council acts."

Mr. McArdle arose and said:

"Mr. President, then, for that reason, I am opposed to the motion to delay action on the bill. The bill has been here for much more than a year and action was delayed on it by Council after the Finance Committee, as Mr. Dailey correctly states, by a decided majority, recommended it to Council. Its consideration was delayed for the purpose of permitting it being sent to the War Labor Board for an opinion, and in the meantime, the war has been fought and won, and the bill has been called up by a member of Council, I presume, at the request of someone who was originally interested in its introduction. Now we propose another week's delay. In the meantime we are going out to ask the men who are interested in this bill to support a very considerable schedule of public improvements. While I have not discussed it with them as to why the thing is being revived now, if it is being done on their motion, I take it to be because of the question confronting them. We propose delaying it for a week and notifying the Mayor that it has come here, and we do it in the face of the fact that the question will be disposed of, as far as these men are concerned, in about fifteen days, we take another week in considering it. We place on top of that one or two days before it is submitted to the Mayor and then, under the law, the Mayor has ten

days in which to reach his conclusions, and where he must, in all ordinary matters, or extraordinary, for that matter, as far as the law is concerned, reach his conclusions as to what he shall do upon it, and then, if his attitude is unfavorable another week elapses before Council decides whether it shall affirm it regardless of his objections if he files them here. In the meantime the bond question, that is going to provide for a large expenditure of money, and to which the provisions of this bill will be applicable if it becomes a law, will be disposed of. If we are going to consider them we ought not to further delay the consideration of this bill.

"It is spoken of here as though it was a new subject. This subject has been very much discussed around City Hall and, as the result of its discussion in the newspapers for the past seven years, at least, the principles in this bill are understood and are thought to be fairly well known to everybody who has even a casual knowledge of the affairs of the City, because it has been very much debated pro and con.

"For these reasons I am not disposed to add further to the delay of its consideration since it has been brought up here."

Mr. English arose and said:

"Mr. President, I want to warn the members of Council that this is a very dangerous proceeding at this particular time. Mark my word, passage of this bill may cause organized labor to oppose the bond issue; and, on the other hand, in view of the attitude of the manufacturers' association against the adoption of this ordinance, the passage at this time may cause them to oppose the bond issue. But, thanks be to God, I have the courage of my convictions and propose to vote for the bill. Let the chips fly where they will. I believe in honesty, in justice and common ordinary decency and for that reason I believe it is indecent to push this bill at this time in view of one member who is opposed to it being absent from this meeting, and without some statement from the bond attorneys.

"I believe it would have been much better to have had this matter disposed of before the bond issue came up or while we were preparing the bond ordinances. Had we received advice from the War Labor Board in accordance with our request to them this bill could have been disposed of long ago. And, since the Clerk will stand upon his record that the War Labor Board did not answer his letter, that removes my former objection. If the War Labor Board was not interested enough to even acknowledge receipt of our letter, certainly I cannot be held responsible for their neglect. I have always favored the employment of

competent men and the payment of good wages for competent workers.

"If we cannot get a sufficient majority of votes to pass the bill today on account of the two new members not knowing anything of the hearings held by Council committee on it, which occurred some months ago, then these members, in my opinion, are justified in not voting on the question, because they don't know what it means, I shall not be held responsible for the delay. If the ordinance should pass Council and the Mayor should veto it, it will jeopardize the bond issue, because organized labor would be arrayed against the bond issue; should the ordinance pass Council with a unanimous vote and be signed by the Mayor, it is possible that the manufacturers' association would start a campaign to defeat the bond issue. And this thing, before it is through, might start a bitter fight between union labor and those organizations who are opposed to organized labor unions. Be that as it may I am sincerely and honestly in favor of this kind of a bill.

"It may cost the citizens of Pittsburgh more money if we are compelled to pay more money to get competent and first-class workmen, and as this City is made up of competent and first-class workmen, and as every good American citizen is opposed to the I. W. W.'s and similar government-wrecking organizations, I don't fear any offense towards the working people or the good people of Pittsburgh on this question. I will explain to them that we must do what we can to uplift labor. I doubt the wisdom of pressing this question for decision today unless we have some advice from the bond attorneys and, hence, I made a motion for one week's delay, but as I failed to get a second to my motion I am prepared to vote for the bill if the members present desire a vote today.

"It does not matter to me whether this ordinance is laid on the table for one week. Mr. Garland could be telegraphed as to whether he is still opposed to the bill, and the two new members could be consulted. If it is the desire of a majority of the members of Council to take the ordinance up for final action in special meeting this week before the next regular meeting of Council on Monday, June 30. However, should it pass Council and be vetoed by the Mayor, I want to state here that I will lend every effort towards passing it over the Mayor's veto. As I propose to stand by the working people. I have always been for the passage of the ordinance; and it was through courtesy, honesty, common decency and fairness that I made the motion last year to refer the ordinance, along with the typewritten statements of those for and against to the War Labor Board for its opinion upon same. The Clerk says that the War Labor Board never replied to our

request. I want to ask the Clerk again. Did you ever receive any word from the War Labor Board acknowledging receipt of your communication to them?"

The Clerk (Mr. Martin):

"No, sir."

Mr. English:

"If they are willing to ignore the great City of Pittsburgh, I shall not concern myself over them. I made the motion to refer the matter to the War Labor Board in all honesty and sincerity."

Mr. Winters arose and said:

"Mr. President, I offered this motion because I thought it was agreeable to both those for and against the bill, and I had assurance before I made the motion that it was satisfactory to the sponsors of the bill. The sponsors of the bill know me and my attitude towards organized labor as well as they do any other member of this body.

"I ask that this be held over in order that the new members (Mr. Henderson and myself) might have an opportunity to study the bill. We have never had the bill brought to our attention and, without a moment's study, we are asked to vote on an important measure like this without being allowed same. I don't believe it is the desire of any member of Council to take away from us the right to an intelligent discussion of or a review of the statements made before Council on this bill. But, if this is denied us, we must vote without that information.

"I take it that the Mayor will have some opinion on this ordinance and that he can, under my former motion, be prepared to present same next Monday when action would be taken on the bill than to wait until action is taken and then prepare a statement. In any event I see no reason why there should be any lengthy discussion over this bill; this being material to the merits or demerits of the bill.

"It was only as a matter of courtesy that I asked that the Mayor be notified. Since the question has been raised that there might be something in this that would greatly concern the payment of the bond issue and the amount set up for the various items involved in that question. I think it is no more than right that the member who raised that question should be allowed to have it definitely decided before he is asked to vote on the ordinance if he desires that information. If that is done nobody is hurt and no harm will be done Council.

"Attention has been called by the previous speaker of the possible attitude at the polls of organized labor as the outcome of the vote on this ordinance. Now, I made the motion without any

consideration or regard to any political significance it might have, and I had no thought of organized labor being instigated to begin a campaign for or against the bond issue. The real answer of the wages and conditions on this work incorporated in the bond issue will not be needed until the bond issue is passed, and if the bond issue is not passed there will be no work to do. I made the motion without regard to the political effect or political significance it might have on any one."

Mr. English arose and said:

"Mr. President I hope the last speaker will not think that I was charging him with anything. I was giving Council my unbiased opinion and did not intend any reflection upon any person, whether a member of Council or not."

Mr. McArdle arose and said:

"Mr. President, I would like to say concerning the reference as to the effect it might have on the bonds, it is so palpably plain as to deserve no consideration at all. The Law Department or the bond attorneys pass upon the manner in which the bonds are authorized and issued and, once they are authorized and issued in accordance with existing laws, there is no chance in the world for any rights of the possessors of those bonds being interfered with, either by the passage of or by the operation of this law as proposed in this bill, any more than there would be if somebody came in and stole the money for the payment of all the bonds after they were authorized and sold by the City. We have our obligations and would have to meet them, and our bond attorneys never attempt and never will follow up the expenditures to see whether or not they are made in accordance with the law."

Mr. Dailey arose and said:

"Mr. President we could hold a special meeting of Council on Wednesday afternoon to act on the ordinance."

Mr. Robertson arose and said:

"Mr. President, I expect to be out of the City on Wednesday."

Mr. Winters arose and said:

"Mr. Kelly, of the carpenters' union, I believe, said it would be satisfactory to them to withhold action on the ordinance until next Monday. Isn't that true, Mr. Kelly?"

Mr. W. J. Kelly, president of the carpenters' union, arose and said:

"Mr. President, the reason that we agreed to the change was on the possibility of it going over to the bond attorneys and, naturally, when Mr. English changed his decision to refer it to the

bond attorneys our position has changed also."

Mr. Winters said:

"You are not objecting to it coming up next Monday?"

Mr. Kelly:

"No, we are not objecting to it coming up next Monday."

Mr. Winters said:

"I think I understand some of the maneuvers that have been made since I spoke to you. I understood you to say to me before the meeting that it would be agreeable to you to permit the ordinance to go over until next Monday. Isn't that true?"

Mr. Kelly:

"We thought it no more than fair to allow the two new members to study the ordinance."

Mr. Winters:

"Mr. President, I don't want to be understood as being afraid to vote now. Some members seem to want to deny us the right to intelligently consider the bill; so I will withdraw my motion."

The motion of Mr. Winter's, with the consent of the seconder, was withdrawn.

Mr. Robertson arose and said:

"Mr. President, I move that the bill lay over for one week for the benefit of Mr. Henderson and Mr. Winters."

Which motion was not seconded.

Mr. Henderson arose and said:

"Mr. President I am not familiar with the bill and I cannot imagine why there is so much speech-making on it unless there is something hidden in it. I don't think it a fair thing to ask me to vote on this question on a few minutes' notice after Council has had it before them for the past seven years, as Mr. McArdle has stated. I am not familiar with the provisions of the ordinance and would ask that I be given some time to study it."

Mr. Bauh moved

That, out of consideration to the new members of Council, this bill be laid on the table for one week.

Mr. McArdle arose and said:

"Mr. President, I don't think anybody can complain that I have not at all times since my inception as a member of Council been courteous to every other member, and I tried to make myself clear why I objected to the bill being laid on the table for one week, and I thought the maker of the motion would see the

wisdom of leaving the latter part of his motion out, and on the motion to lay over for one week I offer no objection against it either in voice or action. I think the members of Council are entitled to all the information they desire on any measure pending before this body."

The Chair said:

"I have already expressed myself on this bill. I am thoroughly conversant with its provisions, but, in justice to the new members of Council who are not familiar with the ordinance, I believe action should be postponed for a few days at least, so these new members can intelligently study and vote on the ordinance when it comes up for final action. They are entitled to this consideration by Council."

Mr. Rauh moved

That the bill be laid over for one week.

Upon which motion Mr. English demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were ordered taken, and being taken were:

Ayes—Messrs.

Dailey	McArdle
Henderson	Rauh
Herron (President)	Robertson

Noes—Messrs.

English	Winters
---------	---------

Ayes—6.

Noes—2.

And a majority of the votes of Council being in the affirmative, the motion prevailed.

Resolved, That the City Controller and the City Treasurer be and are hereby requested to furnish Council a report, as soon as possible, as to why these pay-rolls are held up, and if they cannot devise some means so that it will not occur in the future.

Which was read.

Mr. Robertson moved

The adoption of the resolution.
Which motion prevailed.

Mr. Bauh presented

No. 2997. Whereas, The City of Pittsburgh having title to a large number of vacant lots the majority of which being so situated as to afford suitable location for the erection of tents by citizens who, on account of housing conditions, are practically shelterless; it is

Resolved, That Council, or its committees, grant a hearing on Tuesday of this week, at 2 o'clock P. M., to a committee who desire to explain the matter to the members of Council.

Which was read.

Mr. Bauh moved

The adoption of the resolution.
Which motion prevailed.

Mr. McArdle at this time arose to a question of personal privilege, and said:

"Mr. President, I arise to a question of personal privilege. I am informed that on last Saturday a meeting was held in the Mayor's office to discuss ways and means to promote the bond issue, and that all members of Council were invited to participate except those who voted against the desire ordinance submitting an item of \$6,000,000.00 for the building

of a subway loop in the First and Second wards.

"This would indicate that it is the opinion of the Mayor that the co-operation of Messrs. Herron, Dailey and myself is not desirable in the promotion of those groups of improvements that received the unanimous support of all the members of Council.

"If this seems a satisfactory policy for the Mayor to pursue, I presume that it will have to be submitted to by the taxpayers, whose money is being spent for the purpose of enlightening the voters on the questions submitted to them.

"However this may be I deem it my duty to define publicly what my attitude is going to be toward the bond question now before the people for their study and action.

"I supported, in Council, on final passage, every ordinance upon which the people are asked to vote, except that providing for the subway in the First and Second wards. This will continue to be my policy until these questions are disposed of by the voters on July 8.

"I shall take whatever opportunities present themselves to express my belief in the necessity of those public improvements which I supported in Council and shall use whatever influence I possess to get the voters of Pittsburgh to support these projects in the interest of Pittsburgh's future. By the same token I shall give the people who may care to have it my judgment on the question of the subway. I have been and still am opposed to that project, and I deem it my duty as well as my right to give to the public the reasons why I pursue that course. I believe that the voters of Pittsburgh want to cast intelligent votes in the interest of their City, and I shall be pleased to render them such help as I am capable of, allowing them, as is their inherent right, to place their estimate of value on the judgment I express.

"I believe the subway project to be bad for Pittsburgh at this time, and will continue to say so to the people of the City, even though it displeases some of those who are favorable to it."

And, on motion of Mr. Robertson,
Council adjourned.

CITY TREASURER'S OFFICE.

Pittsburgh, June 26, 1919.
Hon. John S. Herron,
President of Council.

Dear Sir—Replying to your resolution passed at meeting held Monday, June 23, regarding the delay in the payment of City employees in various departments and bureaus, I have to advise you that there is no delay after the payrolls are turned over to this department.

Some of the payrolls may at times be late reaching the paymaster, but after they have been received in that division they get immediate attention and the payments are made as rapidly as it is possible to get them out.

Yours very truly,

CHAS. S. HUBBARD,
City Treasurer.

No. 3038.

DEPARTMENT OF CITY CONTROLLER.

Pittsburgh, June 28, 1919.
To the Council.

Gentlemen—In response to your resolution in regard to Bill No. 2996, I would state that the payrolls are not held up in this office, unless for the purpose of correction where payrolls have been retained on that account. Instancing the Highways and Sewers roll for laboring men, the payroll for the half month, June 15, shows the following record: Sworn to by the Director June 20, audited by Mr. Garaghty June 20, 2 P. M.; sent to the Mayor's office June 21, 8:45 A. M.; delivered to the paymaster June 21, 10 A. M.

The speedy delivery of these rolls to this office might result in remedying the evil of which complaint has been made. The paymaster has the time fixed for payment of these men. I think on the fifth or sixth working day of the period. The only delay in this office would be occasioned by the errors made in the Bureau or in the Director's office, which, of course, must be revised and corrected by that division.

One way of acquiring speedy action would be to enforce the payment by the paymaster for all rolls for office force and general employees. These complaints have been filed in this office a number of times from all bureaus. The fault has been found in the office of the Superintendent of the Bureau or the Director, where the bill has not been speedily put through. I believe that the method I suggest, if directed by Council, were enforced, the rolls would reach this department with greater promptness. I might remark, in passing that the delay in payment is laid at the door of this office, which is never true, except in the case of error, which will delay the roll until the correction is made and returned to us.

Respectfully,

E. S. MORROW,
City Controller.

Which were read and referred to the Committee on Finance.

UNFINISHED BUSINESS.

Bill No. 428. An Ordinance entitled, "An Ordinance regulating municipal contracts, stipulating for the employment of competent and first-class workmen only, defining the words competent and first-class workmen, hours and wages to be paid, requiring an affidavit to be filed with the City Controller, showing compliance and providing certain reductions as liquidated damages for the violation thereof."

In Council, June 23, 1919. Bill read and laid over for one week.

Which was read a second time.

Mr. **Rauh** arose and said:

"Mr. President, I saw the City Solicitor last Saturday relative to this bill, and he informed me that he has legal opinions that he would like to put before Council and that he would be glad to come to this meeting and show them to us. I, therefore, move that the City Solicitor be asked to come here and give us these opinions."

The **Chair** stated:

That, if there were no objections, the City Solicitor would be sent for.

And Mr. Chas. A. O'Brien, City Solicitor, having been sent for, appeared before Council.

The **Chair** said:

"Mr. O'Brien, Mr. Rauh made the statement that you had informed him that you had some opinions to give Council on the ordinance requiring contractors on City work to employ competent and first-class workmen, and that you would like to come before Council

and explain your position on the bill pending before us. We will be glad to hear from you now."

Mr. **O'Brien** said:

"Mr. President, I stated to Mr. Rauh that if Council desired me to be present at their meeting, I would be glad to come and answer any questions relating to the matter under discussion."

The **Chair**:

"However, you are here, and the members can state what their pleasure is. The bill is before Council for consideration and action."

Mr. **Rauh** arose and said:

"Mr. President, I would like to ask the City Solicitor whether, in his opinion, this bill is legal. If it is legal he is to give us his opinion to that effect; and if it is not legal, to give us his opinion as to its illegality."

Mr. **Dailey**:

"Do you mean verbally or in writing?"

Mr. **Rauh**:

"If the City Solicitor desires it on this matter, I will be glad to have it in writing. It is up to the members of Council to decide whether they want his opinion in writing. Perhaps we haven't given the City Solicitor sufficient time on this matter and, if there are no objections, I move that this bill be referred to the City Solicitor for a written opinion and report."

The motion was seconded by Mr. **Dailey**.

Mr. **English** arose and said:

"Mr. President I object to any further delay on the vote on this bill, because on last Monday it was understood that anyone who desired any information on this ordinance should obtain it and be prepared to vote on the ordinance today. Now, to refer this ordinance to the City Solicitor would be in contradiction to that program, and for that reason I am going to vote against the motion to refer to the City Solicitor. However, I want it understood that I don't fear anything from the City Solicitor's opinion, whether it is for or against this bill."

"As I stated at the last meeting of Council, I presented a resolution to have the ordinance, together with a copy of the arguments of those for and against the bill, sent to the War Labor Board at Washington for its opinion and report. I don't know whether the complete arguments of those who appeared before the Finance Committee on this bill were sent to the National War Labor Board or not or whether the resolution only was sent to Washington. I would like to ask the Clerk to tell us what

papers were referred to the War Labor Board?"

The Clerk (Mr. Martin) said:

"A copy of your resolution and a copy of the ordinance, only just the two papers, were referred to the War Labor Board."

Mr. English:

"Evidently the arguments for and against the bill were not referred to the War Labor Board. In any event, the War Labor Board has ignored our request by failing to even acknowledge our letter. With all due respect to the City Solicitor, if his opinion would be that this ordinance is not legal, we would still have our own personal opinion on it. It would be like the Adamson eight-hour bill. Quite a number of distinguished lawyers and others said the Adamson bill was contrary to the Constitution of the United States. As in that case, we should leave that kind of business to the law and lawyers. If the ordinance is not legal the Manufacturers Association is strong enough to take the matter to the Supreme Court for its decision; and if it is legal, well and good. If it is a good thing to pay good wages to competent workmen we ought to try it. We ought to square off here and not quibble about this thing."

"I don't think any man who votes against the ordinance can be called an enemy of organized labor, and any man who votes for it cannot be called an enemy of the manufacturers of our City whose shops and factories are not organized. Anything, like our subway, is worthy of a trial. If we had unanimity of opinion here on every question there would be no use of our services here."

"If this ordinance is contrary to the Constitution of the United States and the State of Pennsylvania that question can be determined later. If it is constitutional, it will be no disadvantage to the contractors bidding on City work, as they would all be compelled to base their bids on the hours and rates of wages on the scale fixed by the ordinance. As I said before, if the ordinance is illegal, let the courts so decide, and I shall be governed by their decision."

"If this ordinance is passed and, after a trial, it is found to be a bad thing for the City of Pittsburgh and we cannot get contractors to bid on our street and sewer work if we cannot get the work done, then it is time to talk about repealing the ordinance. I don't think, in this connection, that the Manufacturers' Association will concern themselves about our street and sewer improvement contracts. They are not involved in it. It is a matter to be determined by the community's spirit and feeling. The more workingmen we have in the City and the better skilled they are, the

wages will be better and the entire community will be contented and happy. We ought not to fool with this matter; we should pass the ordinance and allow it to go to the Supreme Court if necessary, to be determined as to whether it is legal or not."

Mr. Garland arose and said:

"Mr. President, the gentleman is out of order. I also think he made a mistake when he said this matter simply concerned organized labor and that it did not interest the manufacturers. This does interest the manufacturers very much, because it not only affects the mills, factories and workshops, but practically every line of endeavor. I wish to call your attention particularly to the structural iron workers of this district. There is not one of the many bridge companies in and around Pittsburgh who could take a contract with the City of Pittsburgh under this ordinance. If the ordinance had been a law when the City-County Building, in which we are now housed, was being constructed, it could not have been built by Pittsburgh contractors."

"It does not make any difference to me whether we wait for the City Solicitor's opinion on the legality of the ordinance or not. However, I am willing that the City Solicitor's opinion should become a part of our Councilmanic Record on account of this being a new Council, and for the further reason that there are two members of Council who have not had knowledge of the Law Department's report and opinion on this ordinance. We understand the legal decision given by the Law Department, and I am confident that the opinion of the City Solicitor would be as heretofore, that the ordinance is in violation of the Constitution of the State of Pennsylvania and the United States. Those of you who have been in Council when the original opinion of the Law Department was made on this matter know it, and the gentleman who just spoke knows it."

"I am not afraid to vote on this question today; and when I vote No on the ordinance I will have the satisfaction of knowing that I am not violating my oath of office. When we took our seats in Council we pledged ourselves to obey the law; and if we cannot obey the Constitution of the State of Pennsylvania and the United States, in the name of God, what should we obey! There is not a man sitting in this Council that doesn't know that this ordinance is unconstitutional. If we pass it, it is camouflage and the workmen know it, because they have discussed it."

"Let any Councilman who is in doubt as to the opinion of the City Solicitor refer it to his own attorney. He will be informed, as our City Solicitor has in-

formed us, that it is class legislation and that it is in violation of the Charter provisions.

"Organized labor has its good points as well as bad, and there are just as good men among organized labor as well as outside of its ranks. Under the provisions of this ordinance you could not get certain contractors in Pittsburgh to bid on City work. If you want Booth & Flinn to bid on City work, don't pass this ordinance. If contractors like Booth & Flinn don't want City work under these conditions, where are you going to get the men?"

"If the ordinance is not passed, I understand that organized labor is going to vote against the bond issue. I don't believe that, though. They will vote for the bond issue items because I believe they want to see the returned soldiers get the work.

"I will vote to refer this to the City Solicitor again for the benefit of the two new members of Council who have not seen the opinion of the City Solicitor on this ordinance made some time ago, hoping the City Solicitor will make it in stronger language this time. I am, therefore, in favor of referring the ordinance to the City Solicitor for his written opinion."

Mr. Bauh arose and said:

"Mr. President, in making this motion to refer the matter to the City Solicitor for an opinion and report, I do so feeling that if the City Solicitor tells me that this is a legal bill I shall vote for it. If he says it is not legal, I will vote against it. I am not an enemy of organized labor and never have been. My record in Council will convince anyone of my stand on this matter. But I want to say right here that I am here to live up to my oath of office and I cannot vote for a measure that is not legal. If the City Solicitor tells me that it is illegal, I shall not vote for it.

"If it is the desire of Council that a vote be taken on this today after we hear from the City Solicitor, I am perfectly willing to do that. However, I think that it is no more than right to give the City Solicitor some time to prepare his opinion and report; and that is the reason why I offered the motion today."

Mr. English arose and said:

"Mr. President, for the benefit of the previous speaker, who was absent from the last meeting of Council, I would like to give him some information. If he will refer to the minutes of the last meeting he will see that I protested against action being taken then, and said, 'I think it would be unwise to pass this bill today for two reasons. First, you all know that one member of Council who last year was bitterly opposed

to the passage of this ordinance is out of the City, and the second reason is the effect its passage may have on the proposed bond issue.' In connection with that, I made a motion to delay action on the ordinance until today. I did not get a second to my motion, and withdrew the motion.

"We went through an interesting discussion, and it was learned from the Clerk that the War Labor Board did not answer our request of last year; then Mr. Winters made a motion that action on the bill be postponed until today to give ample time for any member to get legal opinions or any other information he desired during the week so that a vote could be taken today. He added this statement in explanation of his motion: 'My thought is that the Mayor be notified by the Clerk of our action here today and that the members of Council who have any thought on the ordinance as to its legality or relationship to the bond issue can present same, and it will give any member who wants to know the opinion of Messrs. Delafield, Hawkins & Longfellow an opportunity to learn whether the passage of the ordinance would be a handicap and if he does not want to get that information from that source we don't need to consider it.'

"He wanted to give the Mayor an opportunity to present any information he cared to on the ordinance, and I take it from what transpired last Monday it was a notice to everybody to be prepared to vote on the bill today.

"Knowing Mr. Garland's position in the matter, I didn't think there was any necessity in debating the merits of the bill at all today. Out of common courtesy, I offer this information so that the gentleman may know what transpired at the last meeting of Council on this bill."

Mr. Henderson arose and said:

"Mr. President, I am one of the new members and want to hear what the City Solicitor has to say as to the legality of this bill. However, I think it is more important to hear what the attorneys for the banks who would purchase the bonds, as provided in the bond issue, would have to say on this ordinance, as I believe they would be interested in this matter.

"If the City Solicitor can write his opinion and report better than he can say it, I believe he should be given the opportunity to write it. I think it is important that we ascertain what effect this ordinance will have upon the sale of the \$22,000,000.00 worth of bonds that we have under consideration at this time and upon which the people are asked to give their approval on July 8."

Mr. Garland arose and said:

"Mr. President, the City Solicitor has

already submitted an opinion on this matter to the effect that it is unconstitutional. There is a very serious question involved here. We had Delafield, Hawkins & Longfellow, who are bond experts, pass upon this bond issue even to the formula of putting it before the people for their approval or disapproval; and if you cast any shade or shadow on this bond issue, I believe my friend, McArdle, will say it is unconstitutional."

The Chair said:

"Mr. Garland, speaking for myself, I say it is not."

Mr. Garland said:

"If you are going to try to sell these bonds with some shadow, or, you may say, some blight upon them, I am afraid that it will be pretty hard to get buyers for them. I am not going to refer this to the City Solicitor in order to put off action for a week. I will come here tomorrow prepared to vote if the City Solicitor can have his report ready by that time. I believe we should also have the opinion of the bond attorneys on this."

"I think you are wasting a lot of time discussing it. It don't amount to much, in my judgment. If John F. Casey and the Booth & Flinn companies are the low bidders on any City work, they will get the contract and will perform it with unorganized labor, and nobody will or can stop them."

Mr. McArdle arose and said:

"Mr. President, I would like to ask Mr. Garland a question. In his first speech, are we to infer from it that if the ordinance is not passed organized labor has threatened to be against the bond issue?"

Mr. Garland arose and said:

"The talk has been that way. The threat has been made."

Mr. McArdle:

"I have not heard it."

Mr. Garland:

"It is commonly rumored that the Labor Temple is against the bond issue if this is not put through."

Mr. McArdle:

"I had heard that those opposed to the passage of the ordinance has threatened to spend \$50,000.00 to defeat the bond issue if this ordinance becomes a law."

And the question recurring on the motion of Mr. **Rauh**, "That the bill be referred to the City Solicitor for a written opinion."

Mr. **Rauh** demanded a call of the ayes and noes, and the demand having been

sustained, the ayes and noes were ordered taken, and being taken were:

Ayes—Messrs.

Dalley	Henderson
Garland	Rauh

Noes—Messrs.

English	McArdle
Herron (President)	Winters

Ayes—4.

Noes—4.

And there not being a majority of the votes of Council in the affirmative the motion did not prevail.

Mr. **Rauh** arose and said:

"Mr. President, I would ask that we hear from the City Solicitor now."

The Chair:

"If there are no objections, we will hear from the City Solicitor."

Mr. **Rauh**:

"Mr. President, I would like to ask the City Solicitor whether this bill is legal, in his opinion, or whether it is illegal, and whether he has any authority to prove it that way?"

Mr. **O'Brien** said:

"Mr. President, I read this bill over since I came to the Chamber and I have seen it before. According to established authority, not only in the State of Pennsylvania, but practically in almost every State in the Union, an ordinance of this kind is not valid, because of its conflict with the provisions of the City Charter relating to City contracts and how they shall be awarded. Article 15, Section 1 of the Charter Act of 1901, provides, 'All contracts relating to City affairs shall be let to the lowest responsible bidder after reasonable notice.' This provision, gentlemen, is mandatory and must be strictly complied with. The provisions of this ordinance are also a violation of the Fourteenth Amendment to the Constitution of the United States. It is not my personal, professional opinion, but is based upon reports as they have occurred from time to time and upon decisions made by the Supreme Court in this as well as many other States. I have reported on this question three different times. I am assuming this, that this is a union labor bill."

Mr. **English**:

"Why do you assume that?"

Mr. **O'Brien**:

"The reason is this: As I read the bill, it fixes the minimum scale of wages to be paid under these contracts by the several contractors the same as those which shall be paid to organized labor."

In other words, it is an organized labor bill requiring contractors to pay no less than the wages fixed by organized labor for that kind of work. It has been held by all courts and one court in Allegheny County that such limitations in a contract is void. This ordinance is construed to mean that each contract shall have a condition embodied in it requiring the contractor to employ none but first-class and competent workmen, and 'no workmen shall be regarded as competent and first-class within the meaning of this ordinance except those who are duly skilled in their respective branches of labor, and who shall be paid such rate of wages and for such hours of work as shall be the established and current rates of wages paid for such hours by employers of organized labor in the doing of similar work.' I take this to mean that all contractors on City work under this ordinance must pay the rates of wages for such work as those paid by employers of organized labor. Am I right?"

Mr. McArdle said:

"They would be required to pay the rate of wage agreed upon for the particular kind of work done by the employers of organized labor and be required to employ them for the number of hours fixed in the same way."

Mr. O'Brien:

"That is a fixed standard wage. practically, and in the case of *Frame vs. Felix*, 167 Pa. 47, it was held that the City of Reading, a City of the third class, could not specify in municipal contracts that the contractor should employ no one not a citizen of the United States."

Mr. McArdle:

"What other decision have you on this?"

Mr. O'Brien:

"Well, the case known as the *Commonwealth vs. Casey*, Quarter Sessions Court of Allegheny County, on the question as to whether there was a violation of the Constitution in respect to labor laws in prescribing the hours of labor. That is what that means. That case was pending in the Superior Court when I made this report, back in 1912."

Mr. McArdle:

"Has the law ever been attacked as it appears in the School Code governing first-class school districts?"

Mr. O'Brien:

"I have no recollection of a case on the School Code. There is a question of this kind on school contracts in accordance with the Act of 1911. These are the same all over the country. Judge

Dillon rendered a decision on the stipulations as to hours of labor, wages and the employment of union labor, and said:

"Under a statute or charter which requires the letting of the contract by competition to the lowest bidder, we have seen that it is an essential element that all the steps taken be so framed as to invite competition and to * * * assure a fair award to the person entitled to the contract on the bids submitted. We have elsewhere discussed the power of the legislature to impose mandatory conditions upon the municipality as to the hours of labor, the wages paid to laborers, and the employment of union labor, etc., and have seen that in some jurisdictions, at least statutes specifying the number of hours which shall constitute a day's labor, requiring the payment of a specified rate or the prevailing rate of wages, and limiting the employment of persons upon public contracts, either by the municipality or by the contractors under the municipality, to members of labor unions, are unconstitutional as depriving the municipality and the contractor of liberty and property without due process of law, or as class legislation, or as tending to create a monopoly. The same principles render invalid provisions in ordinances and resolutions providing for improvements, or in the specifications upon which bids are invited, or in the contracts, requiring the employment of union labor only, or limiting the contracts to such persons as are able to show the union label, or restricting the hours of labor on the part of the employees of the contractor to eight hours a day, and providing that the contract shall be forfeited for a breach of the condition, or prohibiting the employment of any person or persons other than native-born or naturalized citizens of the United States or specifying or controlling the wages to be paid by the contractor on the job, or requiring all the stone used in the improvement to be cut within the limits of the State. If a taxpayer acts promptly, he may enjoin the City from entering into or carrying out such a contract, and the fact that he was a competitor in the bidding does not affect his right to relief."

Mr. McArdle:

"Have you any thought as to the possibility, even assuming that the above applies to this ordinance in the light of what has happened in the past five years in the world, the court might change its views as it has done on the very principles involved in this ordinance?"

Mr. O'Brien:

"I can see that courts do move and have found some reverses, but on this subject we have a long series of decisions covering a long term of years

and which have uniformly been held as unconstitutional by the courts of Pennsylvania as well as other States insofar as it interferes with the freedom of contractors from becoming a free bidder and actually interferes with their bidding on municipal contracts."

Mr. McArdle:

"How can you put such a construction on this when the very first effect here is to create union conditions or an equal condition among all that it does give them better working conditions and a better rate of pay?"

Mr. O'Brien:

"You must not lose sight of the fact that you are here to look out for the general benefit of all the people of the City, and considering an ordinance that will interfere with the provisions of the City Charter, which says that all contracts must be awarded after competitive bidding has been held on same for the benefit of the general public in order to obtain lower and better prices on contracts. You have a statutory requirement in your Charter that all contracts must be let by competitive bidding. The court holds that any restrictions placed upon the contract, even in the form of minimum wage or kind of employment, etc., interferes with that statutory clause. That is the basis of all decisions. The two things are inconsistent and cannot stand together."

Mr. McArdle:

"Does it more largely hinge upon whether the legislative body has the right to deal with this question rather than upon the question of the destruction of competitive bidding? Would you say, in defense of the principle of competitive bidding under the Charter Act, that a man would have the right to ignore laws passed by the State that prevent the employment of child labor or convict labor?"

Mr. O'Brien:

"No."

Mr. McArdle:

"Isn't the same thing involved in this case?"

Mr. O'Brien:

"No; you have not the same power in both cases."

Mr. McArdle:

"You are putting a uniform restriction upon all of those who bid for the work or enter into the contract of which they had prior knowledge before they bid?"

Mr. Garland said:

"Take this building, if the ordinance was in force at the time it was built.

Jones & Laughlin Steel Company would have been prevented from bidding for the steel work."

Mr. McArdle:

"It can go in and bid for work under this ordinance. The ordinance exempts materials manufactured and purchased for use in the execution of City contracts."

Mr. Garland:

"They could not under this ordinance."

Mr. McArdle:

"This ordinance specifically leaves that out."

Mr. Garland:

"Well it was in the old ordinance."

Mr. English said:

"For years the City of Pittsburgh has been paying union wages to those crafts which they employ which have a union, and yet we have a lot of men doing the same kind of work that don't belong to the union. This ordinance simply provides that those who are duly skilled in their respective branches of labor shall be paid such rate of wages as shall be the established and current rate of wage for such hours by employers of organized labor in doing similar work."

Mr. O'Brien:

"You have no restrictions upon the employment of persons skilled in their respective crafts to work as City employees. However, you place a restriction upon all contracts to be awarded by the City. The courts have all held that placing restrictions in the contracts which require that a minimum wage shall be paid is unconstitutional and interferes with the statutory laws of our State, that all contracts must be let to the lowest responsible bidder."

Mr. English:

"How would this interfere with the lowest responsible bidder obtaining the contract or contracts?"

Mr. O'Brien:

"The courts have always held that you must leave the contract open so that the contractor may employ any kind of labor that he can employ."

Mr. English:

"This bill does not interfere with the contractors at all. Under this bill all contractors would be on an even footing, as all would have to have competent men at the same cost, hence, no one contractor would be able to hire cheap labor and thus increase his profits at the expense of the public."

Mr. O'Brien:

"It is so provided in the statutes of Pennsylvania and held so in decisions rendered by the highest courts in the State."

Mr. English:

"Then, one more decision will not hurt. We should pass this ordinance and allow it to be tested out in the Supreme Court of Pennsylvania."

The Chair:

"Gentlemen, the bill is on second reading. Are there any further remarks?"

And on the question, "Shall the bill, as read a second time, be agreed to?"

Mr. Garland demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were ordered taken, and being taken were:

Ayes—Messrs.

Dalley	Herron (President)
English	McArdle
Henderson	Winters

Noes—Messrs.

Garland Rauh

When the name of Mr. Rauh was called, he arose and said:

"Mr. President, I vote No because the City Solicitor says the bill is not legal."

When the name of Mr. Winters was called, he arose and said:

"Mr. President, I vote Aye on this ordinance, because I believe these are times when conditions in the minds of men are changing in the world and things that were thought to be illegal yesterday are being construed as being properly legal today and consistent with modern thought."

"This is the time when standards are being adopted and rates of wages are being fixed in the interest of humanity. I don't believe that anybody can more properly discuss and fix these conditions and wages any better than those organized for that purpose."

"Manufacturers have found it beneficial for their own interest to organize, and why is it not proper for the workers for their own interests and welfare to organize, and then let both meet on some common ground, which would evolve a fair settlement to both?"

"This modern condition of mankind was recognized at the Peace Conference by the delegates there assembled in a way that the world has never recognized before, and we will be brought closer to European countries as the result of the final conclusions of the League of Nations than we have ever been before. Therefore, it behooves us in America to endeavor to keep up the standard of

wages and living conditions that have made America and the standard of American workmen higher than any other place in the world. I believe we should strive to keep up this standard, so that we may help those across the sea to attain it, rather than have our standard dragged down by pauper labor and other inequalities that exist on the other side."

"As every competing contractor would be compelled to base his hours and wages on the same scale, I don't believe there would be any disadvantage among the competitors."

"If this ordinance is illegal, as has been stated, let the courts so decide, and I shall be governed by their decision; but having in mind the opinion of many eminent men who believed they had knowledge of the law that the Adamson eight-hour law was unconstitutional and illegal and was later determined by the United States Supreme Court to be otherwise, it is just possible that such might prove to be the case again."

"I want to pledge my support to go as far as any man in Council to endeavor to maintain fair living conditions and a fair rate of wages to the laboring people of our community."

Ayes—6.

Noes—2.

And a majority of the votes of Council being in the affirmative, the motion prevailed.

Mr. McArdle moved

A suspension of the rule to allow the third reading and final passage of the bill.

Which motion prevailed.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Dalley	Herron (President)
English	McArdle
Henderson	Winters

Noes—Messrs.

Garland Rauh

When the name of Mr. Garland was called, he arose and said:

"Mr. President, in voting No, I want to be placed on record as saying that it is a deplorable spectacle to see Councilmen violating their oath of office in voting for this bill. They know they are violating their oath of office. Everybody knows such a law is unconstitutional. I defy any Councilman to go to a lawyer, and if he does, he will get an opinion

that this ordinance is a violation of the Constitution."

When the name of Mr. **McArdle** was called, he arose and said:

"Mr. President, I vote Aye, and in so doing I want to say that I don't believe that I am violating my oath of office in any regard, and that I believe the gentleman who made that statement may find himself just as much at variance with the Supreme Court of the State of Pennsylvania as certain very wise men found themselves at variance with the United States Supreme Court regarding the Adamson eight-hour law."

When the name of Mr. **Rauh** was called he arose and said:

"Mr. President, I vote No for the same reason given when the bill was under consideration on second reading."

Ayes—6.

Noes—2.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also

Bill No. 2869. An Ordinance entitled, "An Ordinance authorizing, empowering and directing the Mayor and the Director of the Department of Public Works to enter into a lease with Fred Seebick for the rental of the Duquesne Market, located on Duquesne way between Sixth and Seventh streets, City of Pittsburgh, and fixing the terms and compensation of said lease."

In Council, June 23, 1919. Bill read and laid over for the present.

Which was read and, on motion of Mr. **English**, laid over until next week.

REPORTS OF COMMITTEES.

Mr. **Garland** presented

No. 3039. Report of the Committee on Finance for June 24, 1919, transmitting sundry resolutions to Council.

Which was read, received and filed.

Also, with an affirmative recommendation.

Bill No. 2962. Resolution authorizing the issuing of warrants, not to exceed in the aggregate the sum of \$4,000.00, for the purpose of defraying the operating expenses of the Women's Employment Committee of the Council of National Defense, which shall be disbursed upon vouchers and payrolls to be approved and certified by the Mayor, and charging the same to Appropriation No. 42, Contingent Fund until such time as Congress shall appropriate the necessary funds to defray the expenses of said committee.

Which was read.

Mr. **Garland** moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second and third times, and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Dailey	Herron (President)
English	McArdle
Garland	Rauh
Henderson	Winters

Ayes—8.

Noes—None.

And there being two-thirds of the votes of Council in the affirmative, the resolution passed finally.

Also

Bill No. 2986. Resolution authorizing the issuing of warrants, from time to time, as the same are required, for the payment of expenditures incurred in the discharge of any duty assigned any member or committee of Council regularly appointed therefor, providing that the payroll issued in payment of the vouchers presented for payment of said expenses shall be certified by the City Clerk or his Assistant, and shall be payable from and charged to Appropriation Item 1005.

Which was read.

Mr. **Garland** moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second and third times, and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Dailey	Herron (President)
English	McArdle
Garland	Rauh

The Chair presented

No. 3042.

CITY OF PITTSBURGH, PA.

June 30, 1919.

To the Honorable, the
President and Members
of the City Council.

Gentlemen—Replying to your request for an expression of opinion from me on Bill No. 2963, an Ordinance authorizing and empowering the County Commissioners to construct a tunnel, etc., I beg to say:

I have been advised by the City Solicitor that this proposed action by the City is premature, because under the provisions of the County Tunnel Act of March 23, 1917, the consent of the City is not supposed to be given until the location of the tunnel is definitely fixed by legal action, consisting of submission of plans and surveys to the Court of Quarter Sessions and approval thereof by the Grand Jury and the said Court.

In the present case no plans have been submitted to the Court and the Grand Jury and, hence, an ordinance defining the route of said tunnel is certainly premature, as the plans may be changed or amended after submission to the Court, and might not, when definitely fixed, correspond at all with the route defined in the ordinance.

Of course, I am in favor of this South Hills tunnel as a splendid and much-needed improvement, but the present ordinance is "a cart before the horse" proposition, and should be held over until the time is ripe for proper action, when I shall be glad to give my approval to this measure.

Very respectfully yours,

E. V. BABCOCK,
Mayor.

Which was read and, on motion of Mr. English, received and filed.

Also

No. 3043.

CITY OF PITTSBURGH, PA.

June 30, 1919.

Committee on Public Works,

City Council.

Gentlemen—I am returning you herewith copy of an ordinance granting the County of Allegheny the right to construct, operate and maintain a public tunnel extending from a point on Brownsville avenue opposite South Third street to a point on Warrington avenue near the Bell House Tavern.

After going carefully over the matter, I can see no objections to this, as far as this Department is concerned.

Yours very truly,

JOHN SWAN,
Director.

MAYOR'S OFFICE.

Pittsburgh, July 7, 1919.

President and Members
of Council of the

City of Pittsburgh.

Dear Sirs—For your information be advised that I have asked our representatives at Washington to try to arrange with the War Department for the retention in Pittsburgh of our soldier boys that are now confined in the hospital at Parkview. I suggested that probably all or a part of these Pittsburgh and Allegheny County boys could be provided for in the Marine Hospital in Arsenal Park instead of being transported away from home and then back again when they get well.

If this movement meets with your approval and you can think of anything to help in the matter, your co-operation is solicited.

Very respectfully yours.

E. V. BABCOCK.

Mayor.

Which was read.

Mr. English arose and said:

"Mr. President, I have prepared a resolution on this subject, which I will present for the consideration of Council under Motions and Resolutions."

Mr. McArdle moved

That the communication from the Mayor be received and filed.

Which motion prevailed.

The Chair:

"Gentlemen, Mr. C. K. Robinson, our Special Assistant City Solicitor, is present and desires to say a few words to Council. If there are no objections, we will hear from him now."

Mr. C. K. Robinson said:

"Mr. President and Gentlemen of Council, in connection with the matter of concluding the work of the claims between the City and the Duquesne Light Company, it seems to me that the situation is worthy of a formal report, and I asked Mr. Pike if he would prepare such a report so that it could be filed with the City in order that it would be a matter of record and that subsequent use could be made of it. Mr. Pike has completed this report and is ready to file a copy with Council. I have asked Mr. Pike to prepare a summary showing, first, those things that have been accomplished with regard to the Duquesne Light Company and what yet remains to be done, and this he has done. I think it would be wise to make this report a part of the official Minutes of Council. In addition to the copy which Mr. Pike will file with you, a copy will be filed in the Mayor's office and a copy in the Law Department. I would suggest that Mr. Pike give you a short statement on what has been done and what will be done."

The Chair:

"We will be glad to hear from Mr. Pike."

Mr. Clayton W. Pike arose and said:

"Mr. President and Members of Council, the summary of my report upon the Duquesne Light Company shows what has been done as well as what should be done and, if I am permitted, I will read the summary."

Mr. Pike then read the summary of his report.

The Chair presented

No. 3077. Report on Duquesne Light Company to Charles K. Robinson, Special Assistant City Solicitor of the City of Pittsburgh, by Clayton W. Pike, consulting electrical engineer, 1109 Finance Building, Philadelphia, Pa.

SUMMARY OF REPORT UPON DUQUESNE LIGHT COMPANY.

WHAT HAS BEEN SECURED.

REDUCTION IN RATES.

Arc lamp prices per year reduced \$7.50 for overhead circuits and \$10.50 for underground circuits.

Annual saving to City at same coal price, over \$40,000.00.

New specifications providing for replacement of obsolete lamps and increased use of incandescent lamps in accordance with prevailing tendency.

Residence rates reduced approximately 20 per cent., and now as favorable as in any other comparable city.

Commercial lighting and power rates reduced approximately 7 per cent.

Saving to consumers estimated by company as \$600,000.00.

ASSURANCE OF COMPANY'S FUTURE POLICY.

In the negotiations leading to the recent rate reduction the company promised to set aside an adequate depreciation allowance, replace or discard obsolete equipment, maintain the properties properly, build a large, efficient generating station at Cheswick; make further rate reductions commensurate with the economies effected; furnish City officials freely with information concerning the company's progress. This, together with the company's statement that they are now keeping their accounts in complete accord with Public Service Commission's standard accounts, will provide valuable and hitherto unavailable knowledge for future negotiations.

An understanding was reached with the president of the company that property purchased from surplus earnings would not be included in the total capital upon which the company should receive a return.

PARTIAL VALUATION OF COMPANY'S PROPERTY.

An examination of a large part of the company's equipment has been made and considerable information collected of its age and condition. From this has been calculated the approximate cost of this part of the company's property, which information has been made available for future use.

RECOMMENDATIONS FOR FUTURE ACTION.

THINGS TO BE DONE BY THE COMPANY.

Replace several hundred obsolete arcs now in use with modern arcs as provided in street lighting contract.

Expend larger sums for maintenance to make up for deficiencies during war period, due to lack of labor.

Improve Brunot's Island power station by replacing any obsolete or inadequate equipment with modern equipment. Increase present capacity of boilers, feed water heaters and super-heaters, and secure further operating economies in ash-handling arrangements.

Complete new power station at Cheswick as promptly as possible and thereupon shut down the present smaller and less efficient generating stations and dispose of the portions not needed for substations.

THINGS TO BE DONE BY THE CITY.

Provision should be made for an organization which could deal with all

phases of public utility supervision and regulation. This is especially important in view of the promises made by the company respecting its future policy in the matter of maintenance, replacement of obsolete equipment, new construction and in the matter of financial policy.

The City should procure from the company the information requested but not yet furnished. It should also obtain from the company complete statements set up in accordance with the present requirements of the Public Service Commission in the matter of accounting, and all of this information should be carefully analyzed and digested. Since the recent adjustment is not a final one, the question of future rates should be considered from time to time as developments occur which would affect the cost of production, and the whole situation should be re-examined and reconsidered when the new power station has been placed in operation and inefficient and obsolete equipment discarded.

Which was read.

Mr. Rauh moved

That the report be received and filed and the summary of the report be printed in full in the Record, and that Mr. C. K. Robinson and Mr. Clayton W. Pike be congratulated for the efficient work they have done in this matter.

The motion prevailed.

Mr. Robertson arose and said:

"Mr. President, I would like to ask Mr. Robinson if he has ever made an investigation in regard to the 20 per cent. increase in telephone rates as announced by the Bell Telephone Company?"

Mr. Robinson:

"Mr. President, in answer to Mr. Robertson, I would state that an effort was made by the State Public Service Commission to prevent not only the increased telephone, but the increased telegraph rates going into effect, through the United States court, and their efforts in this direction were defeated. I am not familiar with the details and am not clear as to the City's rights in this matter, as the telephone and telegraph systems of the country are under Government control and operated through Presidential proclamation by Postmaster General Burlison. I assume that as soon as the companies are returned to their private owners the matter will be subject to a formal complaint."

Mr. Robertson:

"My idea is that you keep in touch with the situation and at the proper time you, as head of the Public Utility Litigation Division of the Law Department, attack these rates."

Mr. Robertson moved

That the Special Assistant City Solicitor (Mr. C. K. Robinson) be prepared to protest the rates as scheduled by the Bell Telephone Company after he has made a thorough investigation into the matter.

Which motion prevailed.

And a majority of the votes of Council being in the affirmative, the resolution passed finally.

Also

Bill No. 2830. Whereas, Mary A. Rodgers is the owner of a tract of property fronting on West Liberty avenue 30 feet and extending back 212.92 feet on one line and 208.32 feet on the other line at an even width of 30 feet, said lot being marked and identified on the Viewers' plan as V-104; that, in the grading, paving and curbing and the construction of a storm sewer on West Liberty avenue the City built a 42-inch brick sewer out over the lot of the said Mary A. Rodgers for a distance of about 60 feet from the westerly side or line of West Liberty avenue; and

Whereas, The said Mary A. Rodgers at the time the hearings were held for the grading, paving and curbing and sewerage of West Liberty avenue before the Board of Viewers, not having had notice of the City taking a portion of her lot for the 42-inch brick sewer, made no claim for damage for the same, and the Board of Viewers having no evidence before them, assessed the property for grading, paving and curbing the sum of \$189.00, which assessment is now a lien against the property filed at M. L. D. No. 179, January Term, 1918; and

Whereas, Mary A. Rodgers has agreed to waive all claims for damages by the

construction of the 42-inch sewer out over her lot for a distance of 60 feet upon the City relieving her from the payment of the above-mentioned lien in the sum of \$189.00, with interest and costs; and

Whereas, The City of Pittsburgh, by the Law Department, after careful examination of the premises, recommends the settlement of the case as suggested, the damages offsetting the lien, interest and costs; now, therefore, be it

Resolved, That the City Solicitor is hereby directed to satisfy the lien against the property of Mary A. Rodgers filed at M. L. D. No. 179, January Term, 1918, in the sum of \$189.00 and interest, the costs to be paid by the City of Pittsburgh.

In Finance Committee, July 1, 1919. Read and amended by striking out the entire clause beginning, "Now, therefore, be it Resolved," and by inserting, in lieu thereof, the following: "Resolved, That, upon the execution and delivery of a written release and waiver by the said Mary A. Rodgers to the City of Pittsburgh of all claims, demands, actions and suits arising out of the construction of the said 42-inch sewer on her lot or the taking of her property for the same, that the City Solicitor is hereby directed to satisfy the lien against the property of Mary A. Rodgers filed at M. L. D. No. 179, January Term, 1918, in the sum of \$189.00 and interest, the costs to be paid by the City of Pittsburgh," and, as amended, ordered returned to Council with an affirmative recommendation.

Which was read.

MOTIONS AND RESOLUTIONS.

Mr. Robertson moved

That Council hold a conference with the City Controller not later than Wednesday, July 9, 1919, in relation to holding up of street improvement contracts.

Which motion prevailed.

Mr. English presented

No. 3082. Whereas, It has been reported that Parkview Hospital No. 24 is to be closed and the soldier patients are to be removed to Carlisle, Pa.; and

Whereas, This would be a great hardship to the relatives of the 65 Pittsburgh men who are now at Parkview Hospital No. 24; therefore, be it

Resolved, That the Council of Pittsburgh hereby urge the six Congressmen of Allegheny County, Messrs. Burke, Campbell, Garland, Kelly, Morin and Porter, to make a strenuous effort to accomplish the following:

First—Endeavor to keep the Parkview Hospital open if possible.

Second—If Parkview Hospital cannot be kept open, try to have the patients from Pittsburgh and vicinity transferred to the United States Government Marine Hospital, located in Pittsburgh, or transferred to some of the other Pittsburgh Hospitals; and be it further

Resolved, That the City Clerk telegraph this resolution immediately to the six Congressmen and follow with confirming letters.

Which was read.

Mr. English moved

The adoption of the resolution.

Which motion prevailed.

Mr. Garland presented

No. 3083. Petition of citizens and taxpayers of the Eighth ward (Bloomfield) requesting that favorable consideration be given to the project to provide a playground and recreational center for the Bloomfield district.

Mr. McArdle presented

No. 3085. Whereas, Public announcement has been made of the intention of the War Department to offer for sale to municipalities certain stocks of food supplies purchased for the use of the army and being no longer needed because of the ending of the war; and

Whereas, The War Department has expressed its willingness to sell at a fixed percentage below cost price to the government these food supplies to municipalities conditioned upon the re-sale by the municipalities of said food supplies to the general public at cost; and

Whereas, This offer by the government through the War Department may furnish an opportunity for the City to render a public service to its citizens in the purchase and re-sale of said food supplies and also by the purchase for the use of municipally-operated institutions of said food supplies; therefore, be it

Resolved, That the Mayor and the Director of the Department of Supplies be requested to confer with the heads of the departments operating municipal institutions and then investigate the offer of the government in relation to the possible purchase and re-sale to its citizens of the food supplies offered; and, in the event of said investigation proving the wisdom of such a course, that they be empowered to take such steps as may be necessary and possible under the law to take advantage of the said government offer.

Which was read.

Mr. McArdle moved

The adoption of the resolution.

Which motion prevailed.

Mr. English presented

No. 3086.

CITY OF BOSTON TRANSIT DEPARTMENT.

Boston, June 23, 1919.

W. Y. English, Esq.,

Council of the

City of Pittsburgh, Pa.

Dear Mr. English—Great pressure of business must be my excuse for the delay in sending you, as promised, answers to the questions which you left with me. This department is moving its offices and is otherwise in a transition stage

in respect to new work which it is expecting to take on, and some correspondence which should have received attention has been neglected. I regret delay and now proceed to state your questions and to give brief answers to the same:

1—What year was the first subway started in Boston and what was its cost?

The construction of the first subway in Boston, known as the Tremont street subway, began March 28, 1895, and its cost was \$4,126,000.00.

2—What year was each additional subway opened for use, and what was the cost of each?

	Cost
East Boston tunnel, opened for public use Dec. 30, 1904.....	\$ 3,328,000.00
Washington street tunnel, opened for public use Nov. 30, 1908.....	7,996,000.00
Cambridge connection, opened for public use Mar. 23, 1912.....	1,452,000.00
Dorchester tunnel, opened for public use June 29, 1918.....	10,875,000.00
Boylston street subway, opened for public use Oct. 3, 1914.....	5,232,000.00
East Boston tunnel extension, opened for public use Mar. 18, 1916.....	2,290,000.00

3—What were the rentals of each subway, or the average of all rentals?

Four and one-half per cent. per annum on the net cost in all cases with the exception of the Cambridge connection, which is at the rate of 4% per cent., and the East Boston tunnel, which is $\frac{3}{4}$ of 1 per cent. for each year of the gross receipts of the operating company; excepting, further, as stated under No. 14, that the rental of the Tremont street subway for the first twenty years was 4% per cent.

4—Are there any sources of revenue to the city from subways in addition to rentals received from operating companies (such as advertising, locations for pipe lines, electric wires, etc.)?

There are no additional sources of revenue outside of rentals paid by the operating company. The advertising privilege, under certain restrictions, is controlled by the operating company under the lease.

5—What is the total amount the city has now invested in subways, and is the revenue received sufficient to take care of the bonded debt issued to cover the cost of construction?

The total amount of the investment is \$35,540,000.00. The rentals cover all interest charges. There is a slight deficiency in meeting the sinking fund charge to retire all bonds at maturity

out of the rentals, due to abnormally high rates which the city was obliged to pay upon certain loans issued under unfavorable market conditions.

6—Was the amount invested in the first subway a good investment for the public as a relief from street congestion alone, aside from the benefits of securing rapid transit?

It is my own opinion, and I think would be the general opinion of the public, that this expenditure was certainly a good investment from the standpoint of relief from street congestion, but, of course, it is very difficult to separate street congestion from rapid transit and to treat the two questions entirely independently.

7—Has the experience of Boston shown that the original opposition to the construction of subways was based upon fanciful or imaginary objections rather than upon facts? Is the original opposition now reconciled to the subway system, and are its advantages now admitted by all?

I think that it would be almost universally admitted that the original opposition to subways was not based upon any grounds which have been justified by events. I should say that the original opponents were either dead or reconciled.

8—Did the construction and operation of subways tend to appreciate or depreciate abutting and adjacent property?

On the whole, and in the aggregate, I think there is no doubt appreciation has resulted; in some cases to a very marked degree. It is, of course, true that disturbance during construction has in many instances caused loss to owners or tenants of abutting property beyond damages legally recoverable.

9—Did the construction and operation of elevated lines appreciate or depreciate abutting and adjacent property?

There can be no doubt that, upon the whole, the construction and operation of elevated railways in Boston has depreciated the abutting and closely adjacent property; though, on the other hand, there may have been considerable appreciation in outlying districts beyond elevated railway terminal stations, due to the provision of rapid transit. Very large damages have been paid, aside from the cost of land takings, for injury to property through the operation of elevated railways and, of course, such damages have been to some extent an offsetting element.

10—What was the construction cost of the first subway built in Boston, and what was the amount paid for property damages outside of construction?

The construction cost of the first subway was \$3,643,000.00, and the amount

paid for damages to property was \$483,000.00.

11—Were the property damages allowed considered as a loss or waste, and did such damages exceed the engineers' estimates?

Damages to property may, of course, be in many cases regarded as a loss or waste, particularly where easements only are taken. Apparently there were no formal engineers' estimates as to the amount of probable property damages from the construction of the Tremont street subway.

12—Has the experience of Boston been such as to afford grounds for an expression of opinion as to the wisdom of the ownership of subways by the public rather than by the companies engaged in the business of transportation?

I think that it can be stated with confidence that public opinion in Boston would be substantially unanimous in supporting the wisdom of public ownership of subways, whatever arrangements may be made for their lease or operation. The only exception to public construction and ownership of subways has been the Cambridge tunnel, connecting the center of the subway system of Boston at Park street with Harvard square, Cambridge, which, as to the portion lying within the limits of Cambridge, was constructed at an expense of about eight million dollars by the street railway company and owned by that company. The purchase of this privately-owned tunnel by the public has been very strongly advocated and has been recommended for several years, although a bill for the purpose has recently, and somewhat unexpectedly, failed in one branch of our Legislature after being recommended by committees and passing the other branch.

13—Was a lease of the first subway built in Boston, fixing the rental, executed by the street railway company and by the city before the people voted to authorize its construction?

No; the lease was only executed after the vote of the people.

14—Has experience under the lease of the first subway shown its terms to have been advantageous to the public or otherwise?

I do not think that the advantages of the terms of this lease to the public could be seriously questioned. Among other features the rental was fixed at 4% per cent. for a term of twenty years from the beginning of use (September 1, 1897), whereas in subsequent leases, executed before construction, the rental in nearly every case has been fixed by the Legislature at 4½ per cent.

15—Has the first subway constructed by Boston been abandoned or is it still in use?

The first subway, known as the Tremont street subway, has been improved and extended in various respects, particularly as to station accommodations, connections, etc., and it is still in very active use.

16—Does public opinion now condemn the construction of the first subway?

Emphatically no. On the other hand, it would be difficult to conceive how the present growth of Boston could have been attained without the construction of this subway.

17—Has the City of Boston abandoned any part of its subway system as having been a mistake?

Emphatically no. There have only been minor adaptations and provisions for new uses and needs to render the system better and more complete from an operating standpoint.

Yours very truly,

JOSIAH QUINCY,

Chairman.

No. 3123.

CITY OF PITTSBURGH, PA.

July 9, 1919.

President and Members
of Council of the
City of Pittsburgh.

Gentlemen—I return you herewith Bill No. 428, being an ordinance regulating municipal contracts, stipulating for the employment of competent and first-class workmen only, etc., without my approval, for the following reasons:

The City Charter of 1901, with its several supplements, is our fundamental law, and this ordinance, being in plain violation of Article 15, Section 1, of said Charter Act, is null and void. As has been repeatedly advised by the City Solicitor, any provisions of an ordinance the purpose of which is to qualify, restrict and limit the rights of contractors in matter of employment of men, or payment of wages, is wholly inconsistent with the charter provision that "all contracts relating to City affairs shall be let to the lowest responsible bidder after reasonable notice."

The subject has been before the Supreme Court of this State and the Appellate Courts of many other States numerous times, all holding that such an ordinance would be illegal. City Solicitor Charles A. O'Brien and former City Solicitor Stephen Stone, each holding the same views, calling attention to the decisions of the higher courts.

In addition to this I am advised by the Director of Public Works that many items in the public improvement program voted upon favorably by the people of Pittsburgh July 8, could not be made if this ordinance were legal and should become a law and effective during the construction period, for the estimated costs were based on conditions as they exist at the present time.

I am clearly of the opinion that this bill should not become a law.

Very respectfully yours,

E. V. BABCOCK,

Mayor.

Which was read.

And

Bill No. 428. An Ordinance entitled, "An Ordinance regulating municipal contracts, stipulating for the employment of competent and first-class workmen only, defining the words competent and first-class workmen, hours and wages to be paid, requiring an affidavit to be filed with the City Controller, showing compliance, and providing certain reductions as liquidated damages for the violation thereof."

In Council, June 30, 1919. Bill read a second time and agreed to; rule sus-

pended, read a third time and finally passed.

Which was read.

Mr. Dailey moved

That the communication and ordinance be laid over for one week.

Mr. Robertson arose and said:

"Mr. President and Gentlemen, I expect to leave the City for a week and will not be at the next regular meeting, but am ready to vote on this bill now."

And the question recurring on the motion to lay over for one week.

The motion prevailed.

UNFINISHED BUSINESS.

Bill No. 2869. An Ordinance entitled, "An Ordinance authorizing and empowering the Mayor and the Director of the Department of Public Works to enter into a lease with Fred Seebick for the rental of the Duquesne Market, located on Duquesne way, between Sixth and Seventh streets, City of Pittsburgh, and fixing the terms and compensation of said lease."

In Council, June 16, 1919. Committee amendments agreed to, rule suspended, bill read three times and failed to pass finally for lack of a legal majority of votes.

In Council, June 23, 1919. Bill read and laid over for the present.

In Council, June 30, 1919. Bill read and laid over for one week.

Which was read.

Mr. Rauh moved

To reconsider the vote by which the bill was read a second and third times and failed to pass finally.

Which motion prevailed.

And the question recurring, "Shall the bill be read a second and third times and finally passed?"

The motion did not prevail.

Mr. Rauh moved

That the bill be recommitted to the Committee on Finance.

Which motion prevailed.

Also

Bill No. 3050, An Ordinance en-

titled, "An Ordinance providing for the payment to such employees of the City of Pittsburgh as enlisted or were drafted into the military, naval or marine service of the United States during the recent war, of one-half of the increase of the salary or wages of their respective positions for the period of time they were in said military, naval or marine service, and authorizing the proper officers of the City to make the necessary payrolls for the payment thereof."

Which was read.

Mr. Garland moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. McArdle arose and said:

"Mr. President, I want to express my disapproval of this bill, because it provides for the payment of half of the increase of the wages or salaries that were granted to the positions held by the men who enlisted or were drafted in the Government service of either the army, navy or marines during the world war.

"It does that independent of the fact whether they were given any consideration prior to this; in other words, entirely independent of the question as to whether there was any dependency upon them, either claimed or proven, and it means that a very large number of men who went into the service who were denied the half pay under all of the legislation that has heretofore been passed are now going to be given half of the amount that their salary rates or wage rates were increased during their absence. In other words, those who were getting \$100.00 a month and presented and had acknowledged a dependency claim were given \$50.00 a month, to which this would add, if their salary was advanced \$25.00 a month, another \$12.50, making a total they would receive of \$62.50. Those who were working for a like sum of \$100.00 and received no compensation on account of dependency claims during the war would only receive \$12.50 during whatever period this wage or salary increase was in effect, and is done without regard to the question of dependency; and is done, too, in the face of the fact that Council has asked for and no doubt there is being made an investigation involving the question as to the manner in which these dependency claims were acknowledged and all the facts asked for in the resolution passed by Council. It seems to me this ordinance has no foundation at all beyond what might be given to it upon those who had dependents' claims. In those circumstances I think,

of course, the payment, if made at all, should be made to the dependents and not to the men in the service."

And the bill, as read a second time, was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Dailey	Rauh
Garland	Robertson
Henderson	Winters
Herron (President)	

Noes—Mr.
McArdle

Ayes—7.

Noes—1.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Mr. **Rauh** presented

No. 3125. Report of the Committee on Public Works for July 9, 1919, transmitting sundry ordinances and resolutions to Council.

Which was read, received and filed.

Also, with an affirmative recommendation.

Bill No. 2846.
